

verification procedures. We are concerned about the possibility of waste, fraud, and abuse in this program by consumers and telecommunications carriers, in federal default states as well as in other states. We therefore seek comment on how to improve the certification and verification requirements. Commenters should suggest ways in which the USF Administrator can better ensure that Lifeline and Link-Up low-income consumers are eligible for such programs after their initial enrollment. Commenters should also discuss whether different methods should be used to prevent waste, fraud, and abuse in federal default states and in states that are not federal default states.
