POLICY JUSTIFICATION

Taipei Economic and Cultural Representative Office in the United States - PATRIOT Advanced Capability-3 Guided Missiles

The Taipei Economic and Cultural Representative Office in the United States has requested a possible sale of 330 PATRIOT Advanced Capability (PAC-3) missiles, 4 AN/MPQ-65 Radar Sets, 2 Tactical Command Stations, 2 Information and Coordination Centrals, 6 Communication Replay Groups, 4 Engagement Control Stations, 24 Launching Stations, 12 Antenna Mast Groups, 282 Single Channel Ground and Airborne Radio System (SINCGARS) (115 AN/VRC-88E, 96 AN/VRC-90E, 13 AN/VRC-91E, and 58 AN/VRC-92E), 9 Electronic Power Plant III (EPP), 50 Multifunctional Information Distribution Systems (MIDS), battery and battalion maintenance equipment, prime movers, generators, electrical power units, personnel training and equipment, trailers, communication equipment, tool and test sets, spare and repair parts, publications, supply support Quality Assurance Team support services, U.S. Government and contractor engineering and logistics services, technical documentation, and other related elements of logistics support. The estimated cost is \$3.1 billion.

This sale is consistent with United States law and policy as expressed in Public Law 96-8. The U.S. is committed to providing military assistance under the terms of the Taiwan Relations Act.

This proposed sale serves U.S. national, economic, and security interests by supporting the recipient's continuing efforts to modernize its armed forces and enhance its defensive capability. The proposed sale will help improve the security of the recipient and assist in maintaining political stability, military balance, and economic progress in the region.

The recipient will use the PAC-3 missiles to enhance its self-defense capabilities. The recipient has not previously purchased PAC-3 missiles, but will be able to absorb and effectively utilize these missiles.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

The principal contractors will be: Raytheon Corporation in Andover, MA, and Lockheed-Martin in Dallas, TX. At this time, there are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require temporary assignment of U.S. Government and contractor representatives in country. There will be several U.S. Government representatives for 2-week intervals twice annually to participate in program management and technical reviews.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 08-56**Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act, as amended****Annex
Item No. vii****(vii) Sensitivity of Technology:**

1. The PATRIOT Air Defense System contains classified Secret components and critical/sensitive technology. The PATRIOT Advanced Capability-3 (PAC-3) Missile Four-Pack is classified Confidential. With the incorporation of the PAC-3 missile, the PATRIOT System will continue to hold a significant technology lead over other surface-to-air missile systems in the world.

2. The PAC-3 Missile sensitive/critical technology is in the area of design and production know-how and primarily inherent in the design, development and/or manufacturing data related to certain components. Information on system performance capabilities and effectiveness, select software documentation, and test data are classified up to Secret.

3. AIT and TECRO signed a Patriot PAC-3/Configuration 3 Security Agreement on 14 December 2007. The US requires such an agreement as an additional measure to safeguard classified and sensitive information, equipment and technology prior to entering into the sale of Configuration 3 to any international customer.

4. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.
