SUPPLEMENTARY INFORMATION: The information collected under the requirements of FERC-65A "Exemption Notification of Holding Company Status" (OMB No. 1902-0216) is used by the Commission to implement the statutory provisions of the Public Utility Holding Company Act of 2005 (PUHCA 2005). Among other things, PUHCA 2005 was intended to give the Commission access to books and records relevant to costs incurred by a public utility or natural gas company which are necessary or appropriate for the

protection of utility customers with respect to jurisdictional rates. The Commission has allowed for an exemption from this requirement if the books, accounts, memoranda, and other records of any person are not relevant to the jurisdictional rates of a public utility or natural gas company; or if any class of transactions is not relevant to the jurisdictional rates of a public utility or natural gas company. Commission regulations in 18 CFR 366.3 describe the criteria in more specificity.

Commission regulations in 18 CFR 366.4 designate the use of FERC-65A for exemption requests. Filings may be made submitted in hardcopy or electronically through the Commission's Web site.

ACTION: The Commission is requesting a three-year extension of the current expiration date.

Burden Statement: Public reporting burden for this collection is estimated as:

	Number of respondents annually (1)	Number of responses per respondent (2)	Average burden hours per response (3)	Total annual burden hours (1)×(2)×(3)
10		1	1	10

The estimated total cost to respondents is \$607.62. [10 hours divided by 2080 hours¹ per year, times \$126,384² equals \$607.62]. The average cost per respondent is \$60.76.

The reporting burden includes the total time, effort, or financial resources expended to generate, maintain, retain, disclose, or provide the information including: (1) Reviewing instructions; (2) developing, acquiring, installing, using technology and systems for the purposes of collecting, validating, verifying, processing, maintaining, disclosing and providing information; (3) adjusting the existing ways to comply with any previously applicable filing instructions and requirements; (4) training personnel to respond to a collection of information; (5) searching data sources; (6) completing and reviewing the collection of information; and (7) transmitting, or otherwise disclosing the information.

The cost estimate for respondents is based upon salaries for professional and clerical support, as well as direct and indirect overhead costs. Direct costs include all costs directly attributable to providing this information, such as administrative costs and the cost for information technology. Indirect or

overhead costs are costs incurred by an organization in support of its mission. These costs apply to activities which benefit the whole organization rather than any one particular function or activity.

Comments are invited on: (1) Whether the information collection is necessary for the proper performance of the functions of the Commission; (2) the accuracy of the Commission's burden estimate of the proposed information collection, including the validity of the methodology and assumptions used to calculate the reporting burden; (3) ways to enhance the quality, utility and clarity of the information to be collected.

Secretary.
