The complaint alleges violations of section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain semiconductor integrated circuits using tungsten metallization and products containing same by reason of infringement of claim 1 of U.S. Patent No. 5,227,335. [Investigation No. 337-TA-602]

In the Matter of Certain GPS Devices and Products Containing Same; Notice of Commission Determination To Review in Part a Final Determination on Violation of Section 337; Schedule for Filing Written Submissions on the Issues Under Review and on Remedy, the Public Interest and Bonding

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has determined to review in part the final initial determination ("ID") issued by the presiding administrative law judge ("ALJ") on August 8, 2008, regarding whether there is a violation of section 337 of the Tariff Act of 1930, 19 U.S.C. 1337, in the above-captioned investigation.

persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on (202) 205-1810.

SUPPLEMENTARY INFORMATION: The Commission instituted this investigation on May 7, 2007, based on a complaint filed by Global Locate, Inc. ("Global Locate"). 72 FR 25777 (May 7, 2007). The complaint alleged violations of section 337 of the Tariff Act of 1930 (19 U.S.C. 1337) in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain GPS (Global Positioning System) devices and products containing the same by reason of infringement of various claims of United States Patent Nos. 6,417,801 ("the '801 patent"); 6,606,346 ("the '346 patent"); 6,651,000 ("the '000 patent"); 6,704,651 ("the '651 patent"); 6,937,187 ("the '187 patent"); and 7,158,080 ("the '080 patent"). The complaint named five respondents: SiRF Technology, Inc. ("SiRF"); Pharos Science & Applications, Inc. ("Pharos"); MiTAC International Corp. ("MiTAC"); Mio Technology Ltd., USA ("Mio"); and E-TEN Information Systems Co., Ltd. ("E-TEN") (collectively, "respondents"). The notice of investigation was subsequently amended to add Broadcom Corporation ("Broadcom") as a complainant inasmuch as Broadcom acquired Global Locate.

On August 8, 2008, the ALJ issued his final ID, and on August 22, 2008, he issued his recommended determination on remedy and bonding. In his ID, the ALJ found a violation of section 337 in the importation and the sale after importation of certain GPS devices and products containing the same, in connection with the asserted claims of each of the six patents at issue. Respondents and the Commission investigative attorney (IA) each filed petitions for review on August 25, 2008. On September 5, 2008, Complainants and the IA each filed responses to the petitions for review.

On September 16, 2008, Respondents filed a motion for leave to reply in support of their petition for review of the ID. On September 22, 2008, Complainants opposed the motion.

Having examined the record of this investigation, including the ALJ's final ID, the petitions for review, and the responses thereto, the Commission has determined to review the final ID in part. Specifically, the Commission has determined to review (1) ALJ's finding that Global Locate has standing to assert the '346 patent; (2) the ALJ's finding that SiRF directly infringes claim 1 of the '651 patent through its commercial

activities; and (3) the ALJ's finding that SiRF directly infringes claim 1 of the '000 patent through its commercial activities. The Commission has determined not to review the remaining issues raised by the petitions for review, and has denied Respondents' motion for leave to file a reply.

The parties are requested to brief their positions on the issues under review with reference to the applicable law and the evidentiary record. In connection with its review, the Commission is particularly interested in responses to the following questions:

1. Please address the issue of whether Global Locate has standing to assert the '346 patent in light of provision 2.1 in RX-286. Please cite record evidence and/or relevant legal precedent to support your position.

2. Does SiRF practice the element "processing satellite signals * * *" of the method of claim 1 of the '651 patent vicariously through end users of the accused products? See *BMC Resources, Inc. v. Paymentech, L.P.*, 498 F.3d 1373 (Fed. Cir. 2007) and *Muniauction, Inc. v. Thomson Corp.*, 532 F.3d 1318 (Fed. Cir. 2008). Please cite record evidence and relevant legal authority to support your position.

3. Does SiRF practice the third element ("at the remote receiver, representing said formatted data in a second format supported by the remote receiver") of the method of claim 1 of the '000 patent vicariously through end users of the accused products? See *BMC Resources, Inc. v. Paymentech, L.P.*, 498 F.3d 1373 (Fed. Cir. 2007) and *Muniauction, Inc. v. Thomson Corp.*, 532 F.3d 1318 (Fed. Cir. 2008). Please cite record evidence and any relevant legal authority to support your position.

In connection with the final disposition of this investigation, the Commission may (1) issue an order that could result in the exclusion of the subject articles from entry into the United States, and/or (2) issue one or more cease and desist orders that could result in the respondent(s) being required to cease and desist from engaging in unfair acts in the importation and sale of such articles. Accordingly, the Commission is interested in receiving written submissions that address the form of remedy, if any, that should be ordered. If a party seeks exclusion of an article from entry into the United States for purposes other than entry for consumption, the party should so indicate and provide information establishing that activities involving other types of entry either are adversely affecting it or likely to do so.
