BILLING CODE 4163-19-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Notice of Public Meeting and Availability for Public Comment

AGENCY: The National Institute for Occupational Safety and Health (NIOSH) of the Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice of Public Meeting and availability for Public Comment.

SUMMARY: The National Institute for Occupational Safety and Health (NIOSH) of the Centers for Disease Control and Prevention (CDC) announces the opportunity for the public to provide input regarding the plan (protocol) for a cohort study of persons formerly employed at the IBM facility in Endicott, New York.

Public Meeting Time and Date: 9 a.m.–4 p.m., November 8, 2008.

Place: Broome County Health Department, 225 Front Street, Binghamton, New York 13905.

Status: The meeting is open to the public, limited only by the space available (the room accommodates approximately 120 people). Broad participation is desired. Former

workers, representatives of professional societies, organized labor, employers, researchers, health professionals, and government officials are encouraged to attend. Those who cannot attend in person are encouraged to e-mail or mail comments to Dr. Douglas Trout (see below). Deadline for all comments is December 8, 2008.

Participants wishing to provide stakeholder comments may do so via e-mail or may request an opportunity to make a five minute presentation. Participants making a presentation at the meeting must submit their comments in writing at the time of the meeting. All participants (whether making a presentation or not) must register for the free meeting by sending an e-mail to Dr. Douglas Trout at DTrout@cdc.gov with their name, affiliation, whether they are requesting time to speak briefly, and, if so, the general topic(s) on which they wish to speak. Participants wishing to speak are encouraged to register early.

Background: In response to public interest in the conduct of a study of cancer among former workers at IBM—Endicott, NIOSH conducted a feasibility effort to evaluate whether employee records were adequate to conduct a research study (a retrospective cohort mortality and cancer incidence study). This study protocol being developed makes extensive use of the information gathered during the feasibility effort, as well as a follow-up review of additional industrial hygiene, medical, and personnel records.

The protocol being reviewed describes the plan for a cohort study of persons formerly employed at the IBM facility in Endicott, New York, between 1965 and 2002. The health problems to be evaluated in the proposed study include mortality and cancer incidence among workers, as well as birth defects among offspring of these workers. Approximately 28,000 workers were employed by IBM—Endicott for at least one year during the period between 1965 and 2002.

The meeting will consist of two parts: (1) External peer review of the research protocol. Peer reviewers external to CDC will be present to provide their individual technical (scientific) review comments for the project officers to maximize the relevance and quality of the proposed research; and (2) Stakeholder meeting. The latter part of the meeting will be structured to hear stakeholder comments on important occupational safety and health issues related to this research.

Contact Person for Technical Information: Dr. Douglas Trout, MD, MHS, Associate Director for Science,

Division of Surveillance, Hazard Evaluations, and Field Studies, NIOSH, telephone (513) 841-4428. Comments, meeting registrations, and requests for a copy of the protocol may be e-mailed to DTrout@cdc.gov or sent via mail to Dr. Douglas Trout, NIOSH, 4676 Columbia Parkway, Mailstop R12, Cincinnati, Ohio 45226.

Dated: October 9, 2008.

James D. Seligman,

Chief Information Officer, Centers for Disease Control and Prevention.

BILLING CODE 4163-19-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Proposed Information Collection Activity; Comment Request

Proposed Project:

Title: Evaluation of the Community Healthy Marriage Initiative—Impact Evaluation Wave 2.

OMB No.: 0970-0322.

Description: The Administration for Children and Families (ACF), U.S. Department of Health and Human Services (HHS), is conducting a demonstration and evaluation called the Community Healthy Marriage Initiative (CHMI). Demonstration programs have been funded through Healthy Marriage and Responsible Fatherhood grants authorized under section 403(a)(2) of the Social Security Act to support healthy marriage directly and to encourage community changes that increase support for healthy marriages and improve child and family well-being. The objective of the evaluation is to: (1) Assess the implementation of community interventions designed to provide marriage education by examining the way the projects operate and by examining child support outcomes among low-income families in the community; and (2) evaluate the community impacts of these interventions on marital stability and satisfaction, child well-being and child support outcomes among low income families.

The purpose of this information collection is to conduct a follow-up survey of respondents from Wave 1 who live in the communities where CHMI demonstrations are operating, and a survey of CHMI program participants. The impact evaluation will assess the effects of community healthy marriage initiatives by comparing family and child well-being outcomes in the CHMI

communities with similar outcomes in comparison communities that are well matched to the demonstration project sites.

Respondents: Community members and program participants in CHMI treatment and comparison communities.

Annual Burden Estimates

Instrument	Number of respondents	Average number of responses per respondent	Average burden hours per response	Total burden hours
Wave 2 Survey	4,120	1	.75	3,090

Estimated Total Annual Burden Hours: 3,090.

Additional Information:

In compliance with the requirements of section 506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Administration for Children and Families is soliciting public comment on the specific aspects of the information collection described above. Copies of the proposed collection of information can be obtained and comments may be forwarded by writing to the Administration for Children and Families, Office of Planning, Research and Evaluation, 370 L'Enfant Promenade, SW., Washington, DC 20447, Attn: OPRE Reports Clearance Officer. E-mail address: OPREinfocollection@acf.hhs.gov. All requests should be identified by the title of the information collection.

The Department specifically requests comments on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or

other forms of information technology. Consideration will be given to comments and suggestions submitted within 60 days of this publication.

Dated: September 30, 2008.

Brendan C. Kelly,

OPRE Reports Clearance Officer.

BILLING CODE 4184-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Submission for OMB Review; Comment Request

Proposed Project:

Title: Compassion Capital Fund Impact Evaluation.

OMB No.: 0970-0293.

Description: This proposed information collection activity is an extension of the follow-up survey of faith-based and community organizations participating in the Compassion Capital Fund (CCF) Impact Evaluation. The currently approved information collection will expire on December 31, 2008. This information collection request will include the agency's request for an extension of the initial survey instruments for an additional three years.

The CCF evaluation is an important opportunity to examine the effectiveness of the Compassion Capital Fund Demonstration program in meeting its objective of improving the capacity of faith-based and community organizations. The evaluation includes selected CCF-funded intermediary organizations that provide capacity-building services and the faith-based and community organizations that sought those services. The follow-up survey will be used to collect information from the faith-based and community-based organizations on various areas of organizational capacity.

The study design includes the random assignment of faith-based and community organizations to either a treatment group that receives capacity-building services from a CCF intermediary grantee or to a control group that does not. The impact of the services provided by intermediaries, primarily through sub-awards and/or technical assistance (TA), will be determined by comparing the changes reported through the survey in organizational and service capacity of the recipient organizations with those of the control group.

Respondents: Faith-based and community organizations included in the CCF impact evaluation.

Annual Burden Estimates

Instrument	Number of respondents	Number of responses per respondent	Average burden hours per response	Total annual burden hours
Follow-up Survey	455	1	.42	191

Estimated Total Annual Burden Hours: 191.

Additional Information:

Copies of the proposed collection may be obtained by writing to the Administration for Children and Families, Office of Planning, Research and Evaluation, 370 L'Enfant Promenade, SW., Washington, DC 20447, Attn: OPRE Reports Clearance Officer. All requests should be identified by the title of the information

collection. E-mail address: OPREinfocollection@acf.hhs.gov.

OMB Comment:

OMB is required to make a decision concerning the collection of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication. Written comments and recommendations for the proposed

information collection should be sent directly to the following: Office of Management and Budget, Paperwork Reduction Project, Fax: 202-395-6974, Attn: Desk Officer for the Administration for Children and Families.
