An electronic version of the final CMAQ guidance may be downloaded from the FHWA Web page at: <http://www.fhwa.dot.gov/environment/cmaq06gm.htm>. It is also attached for reference below.

Background

The CMAQ program was created by the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA) (Pub. L. 102–240, Dec. 18, 1991) and continued under the Transportation Equity Act for the 21st Century (TEA–21) (Pub. L. 105–178; Oct. 1998). Through 2005, the program supported nearly 16,000 transportation projects across the country. In SAFETEA–LU, the most recent authorization of the Federal-aid highway program, Congress amended the CMAQ program and authorized funding to support the CMAQ program in 2005–2009 (see sections 1101, 1103 and 1808 of SAFETEA–LU). More than \$8.6 billion are authorized over the 5-year program (2005–2009), with annual authorization amounts increasing each year during this period.

This final guidance updates and replaces previous program guidance issued in 1999. It focuses primarily on

project eligibility provisions and identifies the types of projects that are eligible for CMAQ support. It also provides information on how CMAQ apportionments are calculated and the geographic areas where CMAQ funds can be used; discusses the project selection process and requirements for analyzing emissions benefits from potential projects as part of the selection process; and examines Federal, State and Metropolitan Planning Organization (MPO) program administration responsibilities.

This final guidance includes discussions and directions on new or highlighted CMAQ topics under SAFETEA–LU and, in particular, emphasizes diesel engine retrofits and cost-effective congestion mitigation activities as priorities for CMAQ expenditures. It also provides relative cost-effectiveness data on various eligible project types to help inform the CMAQ project selection process.

Discussion of Comments Received to the Notice of Interim Guidance

The FHWA published its Notice of Interim Guidance and Request for Comment on December 19, 2006 (71 FR 76038). In response to the notice, the FHWA received 42 comments. Of the 42 comments, 11 were submitted by or on behalf of transportation advocacy organizations, 9 were submitted by metropolitan planning organizations (MPO) or other similar regional governmental entities, 5 were received from State departments of transportation or other State government agencies, 3 were received from county governments, 2 from counsel representing transportation organizations, 2 from environmental advocacy organizations, and 1 comment was submitted by a private citizen. It should be noted that the total does not sum to the 42 docket entries due to duplication associated with edited and resent documents and separate submittals for attachments. The FHWA considered each of these comments in adopting this final guidance. Following is a section-by-section analysis of the docketed comments and the FHWA's conclusions regarding issues raised:

Section IV. Priority for Use of CMAQ Funds

A total of 14 comments were received about the guidance's treatment of project prioritization and selection for cost-effective CMAQ funded programs and activities, specifically diesel retrofits. The only comment received
