SUPPLEMENTARY INFORMATION:

I. Background

Pursuant to the savings clause in the Homeland Security Act of 2002, Public Law 107-296, Section 1512, 116 Stat. 2310 (November 25, 2002), the Department of Homeland Security (DHS) and its components and offices have relied on preexisting Privacy Act systems of records for the collection and maintenance of records that concern DHS's payroll, personnel, and time and attendance records.

As part of its efforts to streamline and consolidate its Privacy Act record systems, DHS is establishing a new agency-wide system of records under the Privacy Act (5 U.S.C. 552a) for DHS payroll records. This will ensure that all components of DHS follow the same privacy rules for collecting and handling payroll, personnel, and time and attendance records.

In accordance with the Privacy Act of 1974 and as part of DHS's ongoing effort to review and update legacy system of record notices, DHS proposes to consolidate four legacy record systems: Treasury/CS.165 Overtime Earnings (66 FR 52984 October 18, 2001), Treasury/FLETC.001 FLETC Payroll/Personnel Records System (66 FR 43955 August 21, 2001), Treasury/CS.170 Overtime Reports (66 FR 52984 October 18, 2001), and Treasury/CS.251 Unscheduled Overtime Report (Customs Form 31) (66 FR 52984 October 18, 2001) into one DHS-wide system of records. This system will help DHS ensure proper payment of salary and benefits to DHS personnel and track time worked for reporting and compliance purposes. Categories of individuals, categories of records, and the routine uses of these legacy system of records notices have been consolidated and updated to better reflect the Department's payroll, personnel, and time and attendance record systems. This consolidated system, titled Payroll, Personnel, and Time and Attendance Records, will be included in the Department's inventory of record systems.

II. Privacy Act

The Privacy Act embodies fair information principles in a statutory framework governing the means by which the United States Government collects, maintains, uses, and disseminates individuals' records. The Privacy Act applies to information that is maintained in a "system of records." A "system of records" is a group of any records under the control of an agency for which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined to encompass United States citizens and legal permanent residents. As a matter of policy, DHS extends administrative Privacy Act protections to all individuals where systems of records maintain information on U.S. citizens, lawful permanent residents, and visitors. Individuals may request access to their own records that are maintained in a system of records in the possession or under the control of DHS by

complying with DHS Privacy Act regulations, 6 CFR part 5.

The Privacy Act requires that each agency publish in the **Federal Register** a description denoting the type and character of each system of records in order to make agency recordkeeping practices transparent, to notify individuals about the use of their records, and to assist the individual to more easily find files within the agency. Below is a description of the Payroll Records System of Records.
