

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On May 12, 2008 (73 FR 26983), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments during the comment period. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under Docket ID No. EPA-HQ-OEI-2008-0225, which is available for online viewing at

www.regulations.gov, or in-person viewing at the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Ave., NW., Washington, DC. The EPA/DC Public Reading Room is open from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Tribal Capacity: Determining the Capability to Participate in the National Environmental Information Exchange Network Program Docket is (202) 566-0989.

Use EPA's electronic docket and comment system at www.regulations.gov, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or on paper, will be made available for public viewing at www.regulations.gov as EPA receives them and without change, unless the comment contains copyrighted material, confidential business information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to www.regulations.gov.

Title: Tribal Capacity: Determining the Capability to Participate in the National Environmental Information Exchange Network Program.

ICR numbers: EPA ICR No. 2299.01, OMB Control No. 2025—new.

ICR Status: This ICR is for a new information collection activity. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by

publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The Environmental Information Exchange Network (Exchange Network) is an Internet-based approach for exchanging environmental data among partners (e.g., EPA, states, tribes and territories). Built on the principles of applying data standards; providing secure, real-time access; and electronically collecting and storing accurate information, the Exchange Network enables participants to control and manage their own data while making it available to partners via requests over a secure Internet connection. By facilitating the efficient exchange of environmental information among interested parties at all levels of government, the Exchange Network has begun to transform the way information is shared.

While some Indian Tribes have been active partners in the Exchange Network, overall tribal participation is limited. EPA has issued grants that fund infrastructure and other support needed to share data on the network to just over 50 tribes or less than 10 percent of the more than 500 federally recognized tribes. Of these, eight have exchanged data over the network and another five are developing the infrastructure required to do so.

To expand tribal participation in the Exchange Network, EPA has been working with the National Congress of American Indians (NCAI) under a series of cooperative agreements. NCAI is planning to conduct a baseline assessment survey to obtain data to help identify barriers and other factors that are limiting tribal participation in the Network. The survey will focus on gathering information related to collection and dissemination of environmental data; information technology infrastructure, capacity, and needs; and awareness of the Exchange Network. The survey will be distributed to all federally recognized tribes that are members of NCAI. Response to the survey is voluntary. NCAI will use the findings of this survey to design programs to broaden tribal participation.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 30 minutes per response.

- Estimated total number of potential respondents: 250
- Frequency of response: Once.

- Estimated total average number of responses for each respondent: One.
- Estimated total annual burden hours: 125 hours.
- Estimated annual capital and operations and maintenance costs: \$0.

Dated: October 22, 2008.

Title: Reporting Requirements under EPA's Climate Leaders Partnership (Renewal).

ICR numbers: EPA ICR No. 2100.03, OMB Control No. 2060-0532.

ICR Status: This ICR is scheduled to expire on October 31, 2008. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a

currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and included on the related collection instrument or form, if applicable.

Abstract: In an effort to aid implementation of U.S. commitments in the United Nations Framework Convention on Climate Change, the President announced a Climate Change Strategy on February 14, 2002, wherein he set a national U.S. greenhouse gas (GHG) intensity goal of 18 percent by 2012. Part of that strategy challenges companies to set GHG reduction goals by working with EPA through the voluntary Climate Leaders program. EPA has developed this renewal ICR to ensure that the program remains credible by obtaining continued authorization to collect information from Climate Leaders Partners to ensure the partners are meeting their GHG goals over time. Companies that join Climate Leaders voluntarily agree to the following: Completing and submitting a Partnership Agreement; negotiating a corporate GHG reduction goal; submitting a GHG inventory management plan; participating in an onsite review of the inventory management plan, and reporting to EPA, on an annual basis, the company's GHG emissions inventory, and progress toward their GHG reduction goal via Climate Leaders Annual GHG Inventory Summary and Goal Tracking Form. The information contained in the inventories of the companies that join Climate Leaders may be considered Confidential Business Information (CBI) and is maintained as such. EPA uses the data obtained from the companies to assess the success of the program in achieving its GHG reduction goals. Responses to the information collection are voluntary.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to equal 19,636 hours and to average 87 hours per respondent. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to

respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Climate Leaders Partner Corporations.

Estimated Number of Respondents: 225.

Frequency of Response: Annually, on occasion, one-time.

Estimated Total Annual Hour Burden: 19,636.

Estimated Total Annual Cost: \$1,847,826, which includes \$0 annualized capital/startup costs; \$105 annualized Operating and Maintenance (O&M) costs and \$1,847,721 annualized labor costs.

Changes in the Estimates: There is an increase of 7,681 hours in the total estimated burden compared with that identified in the ICR currently approved by OMB. Although the reporting requirements of the Climate Leader Partnership have been streamlined to reduce the individual burden for each reporter, the increase in overall costs are due to the continued growth in the number of companies participating in the Partnership. EPA has collaborated with partners to develop these revised reporting requirements, which are better suited for establishing and tracking progress of corporate GHG reduction goals. This change is result of a more interactive program approach between EPA and Climate Leaders Partners and a larger number of partners in the program since the currently approved ICR.
