SUPPLEMENTARY INFORMATION:

I. What Information is EPA Particularly Interested in?

Pursuant to section 3506(c)(2)(A) of PRA, EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.
2. Evaluate the accuracy of the Agency's estimates of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
3. Enhance the quality, utility, and clarity of the information to be collected.

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

II. What Should I Consider when I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Provide specific examples to illustrate your concerns.
6. Offer alternative ways to improve the collection activity.
7. Make sure to submit your comments by the deadline identified under **DATES**.
8. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

III. What Do I Need to Know About PRA?

An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information subject to PRA approval unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the preamble of the final rule, are further displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instruments or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in a list at 40 CFR 9.1.

PRA defines *burden* to mean the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency.

This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

IV. What ICR Does this Request Apply to?

Title: Pesticide Program Public Sector Collections.

ICR numbers: EPA ICR No. 2311.01, OMB Control No. 2070-new.

ICR status: This ICR reflects the consolidation of the following currently approved ICRs: "Applications and Summary Report for Emergency Exemption for Pesticides" (EPA ICR No. 0596.09, OMB Control No. 2070-0032; was scheduled to expire on January 28, 2008 and a renewal ICR is at OMB awaiting approval) and "Notice of Pesticide Registration by States to Meet a Special Local Need under FIFRA Section 24(c)" (EPA ICR No. 0595.09, OMB Control No. 2070-0055; scheduled to expire on August 31, 2009).

Affected entities: Entities potentially affected by this ICR are pesticide registrants, which may be identified by pesticide and other agricultural chemical manufacturing (North American Industrial Classification System (NAICS) code 325320) and governments that administer environmental quality programs (NAICS code 9241).

Abstract: This proposed consolidated information collection reports the paperwork burden hours and costs for State actions initiated under either section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) or section 24(c). Section 18 of FIFRA authorizes EPA to grant emergency exemptions to states and Federal agencies to allow an unregistered use of a pesticide for a limited time if EPA determines that emergency conditions exist. A section 18 action arises when growers and others encounter a pest problem on a site for which there is either no registered pesticide available, or for which there is a registered pesticide that would be effective but is not yet approved for use on that particular site. Section 18 also allows EPA to grant unregistered pesticide use exemptions for public health and

quarantine reasons. FIFRA section 24(c) authorizes the States to register additional uses of federally registered pesticides for distribution and use within the State to meet a special local need (SLN). A State-issued registration under FIFRA section 24(c) is deemed a federal registration for the purposes of the pesticide's use within the State's boundaries. A State must notify EPA, in writing, of any action it takes, i.e., when it issues, amends, or revokes a State registration. The Agency has 90 days to disapprove the registration. In such cases, the State is responsible for notifying the affected registrant.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 49,500 hours annually for state government "applicants" for the FIFRA section 18 program and for applicants under the FIFRA section 24(c) an annual estimate of 23,400 hours, a combined total of 72,900 burden hours annually. The consolidated ICR, a copy of which is available in the docket, provides a detailed explanation of this estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 950.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: 1.

Estimated total annual burden hours: 72,900 hours.

Estimated total annual costs: \$4,599,290. This ICR does not involve any capital investment or maintenance and operational costs.

V. Are There Changes in the Estimates from the Last Approvals?

The consolidation of these ICRs will not result in a change of the 72,900 hours in the total estimated combined respondent burden that is currently approved by OMB.

VI. What is the Next Step in the Process for this ICR?

EPA will consider the comments received and amend the consolidated ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity for the public to submit additional comments for OMB consideration.

If you have any questions about this ICR or the approval process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.
