In this instance, however, FTA is proceeding with an abundance of caution, given the unique circumstances by which a prospective FTA grantee issued a request for proposals without the inclusion of the traditional Buy America clause, intending to fully underwrite the contract using exclusively local funding. Therefore, in order to understand completely the facts surrounding the RTC's request, FTA seeks comment from all interested parties regarding the RTC's justifications. A full copy of the RTC's petition has been placed in docket number FTA-2008-0048, along with a letter written by ISE Corporation supporting the RTC's request. Please submit comments by November 12, 2008. Late-filed comments will be considered to the extent practicable.

Issued this 29th day of October 2008.

Chief Counsel.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995, before an agency submits a proposed collection of information to OMB for approval, it must first publish a document in the **Federal Register** providing a 60-day comment period and otherwise consult with members of the public and affected agencies concerning each proposed collection of information. (ii) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iv) How to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g. permitting electronic submission of responses.

In compliance with these requirements, NHTSA asks for public comments on the following proposed collections of information:

Title: 49 CFR 571.403, Platform lift systems for motor vehicles and 49 CFR 571.404, Platform lift installations in motor vehicles.

OMB Control Number: 2127-0621.

Form Number: None.

Affected Public: Platform lift manufacturers and vehicle manufacturers/alterers that install platform lifts in new motor vehicles before first vehicle sale.

Requested Expiration Date of Approval: Three years from approval date

Abstract: FMVSS No. 403, Platform lift systems for motor vehicle, establishes minimum performance standards for platform lifts designed for installation on motor vehicles. Its purpose is to prevent injuries and fatalities to passengers and bystanders during the operation of platform lifts that assist persons with limited mobility in entering and leaving a vehicle. FMVSS No. 404, Platform lift installations in motor vehicles, places specific requirements on vehicle manufacturers or alterers who install platform lifts in new vehicles. Under these regulations, lift manufacturers must certify that their lifts meet the requirements of FMVSS No. 403 and must declare the certification on the owner's manual insert, the installation instructions and the lift operating instruction label. Certification of compliance with FMVSS No. 404 is on the certification label already required of vehicle manufacturers and alterers under 49 CFR Part 567. Therefore, lift manufacturers must produce and insert that is placed in the vehicle owner's manual, installation instructions and one or two labels that are placed near the controls of the lift. The requirements and our estimates of burden and cost to the lift manufacturers are given below. There is no burden to the general public.

Estimated Annual Burden:

- *Estimated burden to lift manufacturers to produce an insert for the vehicle owner's manual stating the lift's platform operating volume, maintenance schedule, and instructions regarding the lift operating procedures:*

—10 manufacturers × 24 hrs. amortized over 5 yrs. = 48 hrs. per year.

- *Estimated burden to lift manufacturers to produce lift installation instructions identifying the vehicles on which the lift is designed to be installed:*

—10 manufacturers × 24 hrs. amortized over 5 yrs. = 48 hrs. per year

- *Estimated burden to lift manufacturers to produce two labels for operating and backup lift operation:*

—10 manufacturers × 24 hrs. amortized over 5 yrs. = 48 hrs. per year

- *Estimated cost to lift manufacturers to produce:*

—Label for operating instructions—
27,398 lifts × \$0.13 per label =
\$3,561.74

—Label for backup operations—27,398 lifts × \$0.13 per label = \$3,561.74

—Owner's manual insert—27,398 lifts × \$0.04 per page × 1 page = \$1,095.92.

—Installation instructions—27,398 lifts × \$0.04 per page × 1 page = \$1,095.92.

Note: Although lift installation instructions are considerably more than one page, lift manufacturers already provide lift installation instructions in the normal course of business and one additional page should be adequate to allow the inclusion of FMVSS specific information.

Total estimated annual cost =
\$9,315.32.

Total estimated hour burden per year = 144 hours.

Estimated Number of Respondents:
10.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Issued: October 30, 2008.

Associate Administrator for Rulemaking.
