

This item was subsequently removed from the Agenda on November 3, 2008. The second, attached as Appendix B to the item, is a Narrow Universal Service Reform Proposal circulated to the Commission on October 31, 2008. The third, attached as Appendix C to the item, is a draft Alternative Proposal first circulated by the Chairman on the evening of November 5, 2008. Appendix C incorporates changes proposed in the ex parte presentations attached as Appendix D to the item. We note that members of industry, Congress, and the general public have urged the Commission to seek comment on these proposals.

We seek particular comment on two questions. First, should the additional cost standard utilized under section 252(d)(2) of the Act be either the existing TELRIC standard or the incremental cost standard described in the draft order? Second, should the terminating rate for all section 251(b)(5) traffic be set as either a single, statewide rate or a single rate per operating company?

Steps Taken To Minimize the Significant Economic Impact on Small Entities, and Significant Alternatives Considered

The RFA requires an agency to describe any significant, specifically small business, alternatives that it has considered in reaching its proposed approach, which may include the following four alternatives (among others): “(1) The establishment of differing compliance or reporting requirements or timetables that take into account the resources available to small entities; (2) the clarification, consolidation, or simplification of compliance and reporting requirements under the rules for such small entities; (3) the use of performance rather than design standards; and (4) an exemption from coverage of the rule, or any part thereof, for such small entities.”

The FNPRM seeks comment from all interested parties. Small entities are encouraged to bring to the Commission’s attention any specific concerns they may have with the proposals outlined in the FNPRM.

Throughout these proceedings the Commission has received proposals to treat small entities differently. We believe that consideration of commenters’ transition proposals for implementing intercarrier compensation reform, as well as alternatives for a carriers’ recovery of intercarrier revenues reduced as a result of any reforms that might be adopted could be consistent with our goals of a unified and simplified intercarrier

compensation regime that will reduce arbitrage opportunities and promote innovation and competition and our statutory requirement to secure the viability of universal service.

SUPPLEMENTARY INFORMATION:**Public Comments**

We will accept written comments and information during this reopened comment period on our proposed designation of critical habitat for the Louisiana black bear that was published in the **Federal Register** on May 6, 2008 (73 FR 25354), our draft economic analysis of the proposed designation, and the amended required determinations provided in this document. We will consider information and recommendations from all interested parties. We are particularly interested in comments concerning:

(1) The reasons why we should or should not designate habitat as critical habitat under section 4 of the Act (16 U.S.C. 1531 *et seq.*).

(2) Specific information on:

(a) The distribution of the Louisiana black bear;

(b) The amount and distribution of Louisiana black bear habitat; and

(c) Which habitat contains the features essential for the conservation of the species and why.

(3) Land use designations and current or planned activities in the subject areas and their possible impacts on proposed critical habitat.

(4) Any foreseeable economic, national security, or other relevant

impacts that may result from the proposed designation and, in particular, any impacts on small entities, and the benefits of including or excluding areas that exhibit these impacts.

(5) Whether our approach to designating critical habitat could be improved or modified in any way to provide for greater public participation and understanding, or to assist us in accommodating public concerns and comments;

(6) Whether the benefits of excluding any particular area from critical habitat outweigh the benefits of including that area as critical habitat under section 4(b)(2) of the Act, after considering the potential impacts and benefits of the proposed critical habitat designation, and more specifically, whether U.S. Department of Agriculture (USDA) Wetland Reserve Program permanent easements on privately owned lands provide sufficient protection and management to justify their exclusion from critical habitat on that basis.

(7) Information on the extent to which the description of economic impacts in the DEA is complete and accurate.

(8) The likelihood of adverse social reactions to the designation of critical habitat, as discussed in the DEA, and how the consequences of such reactions, if likely to occur, would relate to the conservation and regulatory benefits of the proposed critical habitat designation.

You may submit your comments and materials concerning the proposed rule or DEA by one of the methods listed in the **ADDRESSES** section. We will not consider comments sent by e-mail or fax or to an address not listed in the **ADDRESSES** section.

If you submit a comment via <http://www.regulations.gov>, your entire comment—including any personal identifying information—will be posted on the Web site. If you submit a hardcopy comment that includes personal identifying information, you may request at the top of your document that we withhold this information from public review. However, we cannot guarantee that we will be able to do so. We will post all hardcopy comments on <http://www.regulations.gov>.

Comments and materials we receive, as well as supporting documentation we used in preparing this proposed rule and draft economic analysis, will be available for public inspection on <http://www.regulations.gov>, or by appointment, during normal business hours, at the U.S. Fish and Wildlife Service, Louisiana Field Office (see **FOR FURTHER INFORMATION CONTACT**). You may obtain copies of the proposed rule and the DEA on the Internet at <http://www.regulations.gov>.
