

residues of the biofungicide, *Ulocladium oudemansii* (U3 Strain), when applied or used pre-harvest only, in or on all food commodities. Because this petition is a request for an exemption from the requirement of a tolerance without numerical limitations, no analytical method is required. Contact: Denise Greenway, (703) 308-8263, greenway.denise@epa.gov.

Amendment to an Existing Tolerance Exemption

3. *PP 8F7368*. (EPA-HQ-OPP-2008-0762). Becker Underwood Inc., 801 Dayton Ave., P.O. Box 667, Ames, IA 50010, proposes to amend the tolerance exemption in 40 CFR 180.1128 for residues of the biofungicide, *Bacillus subtilis* MBI 600, applied or used in or on all food commodities, including post-harvest uses. Because this petition is a request for an exemption from the requirement of a tolerance without numerical limitations, no analytical method is required. Contact: Denise Greenway, (703) 308-8263, greenway.denise@epa.gov.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Extension Being Reviewed by the Federal Communications Commission, Comments Requested

November 7, 2008.

SUMMARY: The Federal Communications Commission (Commission or FCC), as part of its continuing effort to reduce paperwork burden, invites the general public and other Federal agencies to take this opportunity to comment on the following information collection extension, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information

subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) Whether the proposed collection of information extension is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before January 13, 2009. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contacts listed below as soon as possible.

ADDRESSES: Submit your comments by e-mail to PRA@fcc.gov. Include in the e-mail the OMB control number of the collection or, if there is no OMB control number, the Title shown in the **SUPPLEMENTARY INFORMATION** section below. If you are unable to submit your comments by e-mail contact the person listed below to make alternate arrangements.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection(s) or to obtain a copy of the collection send an e-mail to PRA@fcc.gov and include the collection's OMB control number as shown in the **SUPPLEMENTARY INFORMATION** section below (or the title of the collection if there is no OMB control number), or call Jerry Cowden at 202-418-0447.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0813.

Title: Enhanced 911 Emergency Calling Services (47 CFR 20.18).

Form No.: Not applicable.

Type of Review: Extension of a previously approved collection.

Respondents: Business or other for-profit; and state, local or tribal government.

Number of Respondents and Responses: 47,031 respondents; 47,031 responses.

Estimated Time per Response: 1-5 hours.

Frequency of Response: On occasion and one-time reporting requirements, recordkeeping requirement and third party disclosure requirement.

Obligation to Respond: Mandatory.

Total Annual Burden: 198,200 hours.

Total Annual Cost: None.

Privacy Act Impact Assessment: Not applicable.

Needs and Uses: The notification requirement on Public Safety Answering Points (PSAPs) will be used by the carriers to verify that wireless E911 calls are referred to PSAPs who have the technical capability to use the data to the caller's benefit. TTY and dispatch requirements will be used to avoid customer confusion as to the capabilities of their handsets in reaching help in emergency situations, thus minimizing the possibility of critical delays in response time. The annual TTY reports will be used to monitor the progress of TTY technology and thus capability. Consultations on the specific meaning assigned to pseudo-Automatic Location Identification (ALI) are appropriate to ensure that all parties are working with the same information. Coordination between carriers and state and local entities to determine the appropriate PSAPs to receive and respond to E911 calls is necessary because of the difficulty in assigning PSAPs based on the location of the wireless caller. The deployment schedule that must be submitted by carriers seeking a waiver of Phase I or Phase II deployment schedule will be used by the Commission to guarantee that the rules are enforced in as timely a manner as possible within technological constraints. In addition, a wireless carrier must implement E911 service within the six-month period following the date of the PSAP's request. If the carrier challenges the validity of the request, the request will be deemed valid if the PSAP making the request provides the following information:

A. *Cost Recovery.* The PSAP must demonstrate that a mechanism is in place by which the PSAP will recover its costs of the facilities and equipment necessary to receive and utilize the E911 data elements;

B. *Necessary Equipment.* The PSAP must provide evidence that it has ordered the equipment necessary to receive and utilize the E911 data elements; and

C. *Necessary Facilities.* The PSAP must demonstrate that it has made a timely request to the appropriate local exchange carrier for the necessary trunking and other facilities to enable E911 data to be transmitted to the PSAP.

In the alternative, the PSAP may demonstrate that a funding mechanism is in place, that it is E911 capable using a Non-Call Associated Signaling technology, and that it has made a

timely request to the appropriate LEC for the necessary ALI database upgrade.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Submitted for Review to the Office of Management and Budget

November 6, 2008.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden, invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, 44 U.S.C. 3501-3520. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before December 15, 2008. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the FCC contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicholas A. Fraser, Office of Management and Budget, (202) 395-5887, or via fax at 202-395-5167 or via Internet at Nicholas.A.Fraser@omb.eop.gov and to Judith-B.Herman@fcc.gov, Federal Communications Commission, or an e-mail to PRA@fcc.gov. To view a copy

of this information collection request (ICR) submitted to OMB: (1) Go to the Web page <http://reginfo.gov/public/do/PRAMain>, (2) look for the section of the Web page called "Currently Under Review", (3) click on the downward-pointing arrow in the "Select Agency" box below the "Currently Under Review" heading, (4) select "Federal Communications Commission" from the list of agencies presented in the "Select Agency" box, (5) click the "Submit" button to the right of the "Select Agency" box, and (6) when the list of FCC ICRs currently under review appears, look for the title of this ICR (or its OMB Control Number, if there is one) and then click on the ICR Reference Number to view detailed information about this ICR.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Judith B. Herman at 202-418-0214 or via the Internet at Judith-B.Herman@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-1070.

Title: Section 101.1523, Allocation and Service Rules for the 71-76 GHz, 81-86 GHz and 92-95 GHz.

Report No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit, not-for-profit institutions, and state, local or tribal government.

Number of Respondents: 103 respondents; 103 responses.

Estimated Time per Response: 0.5-4.5 hours.

Frequency of Response: On occasion reporting requirement, recordkeeping requirement and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. Sections 151, 154(i), 303(f), and (r), 309, 316, and 332 of the Communications Act of 1934, as amended.

Total Annual Burden: 1,500 hours.

Total Annual Cost: \$810,000.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: This collection does not address information of a confidential nature. Respondents may request confidential treatment of materials submitted to the Commission which they believe should be withheld from public inspection under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission will submit this information collection (IC) to the OMB as an extension during this comment period to obtain the full three-year clearance from them. The

Commission is reporting a - 10,500 hourly burden reduction and a - \$1,020,000 annual cost reduction (adjustment). This adjustment is due to a decrease in the estimated number of respondents/responses (from 1,000 to 103) that was submitted to the OMB in 2005. The annual cost estimate has also decreased due to a decrease in the capital/start up costs. Thus the Commission is now reporting a total of 1,500 burden hours and \$810,000 in annual operations and maintenance costs.

Section 101.1523, Sharing and Coordination among Non-Government Licensees and Between Non-Government and Government Services, requires registration of each link in the 71-76 GHz 81-86 GHz, and 92-95 GHz bands. Registration of each link will be completed in the Commission's Universal Licensing System (ULS) until the Wireless Telecommunications Bureau announces by public notice the implementation of a third party database. The licensee or applicant shall:

(1) Complete coordination with Federal Government links according to the coordination standards and procedures adopted in Report and Order, FCC 03-248, and as further detailed in subsequent implementation public notices issued consistent with that order;

(2) Provide an electronic copy of an interference analysis to a third-party database manager which demonstrates that the potential for harmful interference to or from all previously registered non-government links has been analyzed according to the standards of section 101.105 and generally accepted good engineering practice, and that the proposed non-government link will neither cause harmful interference to, nor receive harmful interference from, any previously registered non-government link, and

(3) Provide upon request any information related to the interference analysis and the corresponding link. The third-party database managers shall receive and retain the interference analyses electronically and make them available to the public. Protection of individual links against harmful interference from other links shall be granted on a first-in-time registered links. Successful completion of coordination via the National Telecommunications and Information Administration (NTIA) automated mechanism shall constitute successful non-Federal Government to Federal Government coordination for that individual link.
