BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION**Federal Highway Administration****Buy America Waiver Notification**

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice.

SUMMARY: This notice provides information regarding the FHWA's finding that a Buy America waiver is appropriate for certain steel products used in Federal-aid construction projects in Oregon and the City of San Diego, CA.

DATES: The effective date of the waiver is November 19, 2008.

FOR FURTHER INFORMATION CONTACT: For questions about this notice, please contact Mr. Gerald Yakowenko, FHWA Office of Program Administration, (202) 366-1562, gerald.yakowenko@dot.gov. For legal questions, please contact Mr. Michael Harkins, FHWA Office of the Chief Counsel, (202) 366-4928, michael.harkins@dot.gov. Office hours for the FHWA are from 7:45 a.m. to 4:15

p.m., e.t., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:**Electronic Access**

An electronic copy of this document may be downloaded from the **Federal Register's** home page at: <http://www.archives.gov> and the Government Printing Office's database at: <http://www.access.gpo.gov/nara>.

Background

The FHWA's Buy America policy in 23 CFR 635.410 requires a domestic manufacturing process for any steel or iron products (including protective coatings) that are permanently incorporated in a Federal-aid construction project. The regulation also provides for a waiver of the Buy America requirements when the application would be inconsistent with the public interest or when satisfactory quality domestic steel and iron products are not sufficiently available. This notice provides information regarding the FHWA's finding that a Buy America waiver is appropriate for two specific cases.

In accordance with section 130 of Division K of the "Consolidated Appropriations Act, 2008" (Pub. L. 110-161), the FHWA published on its Web site two notices of intent to issue Buy America waivers: (1) A waiver for two custom built motor control centers and stainless steel products for the Siuslaw River moveable bridge project in Oregon <http://www.fhwa.dot.gov/construction/contracts/waivers.cfm?id=21> on September 23rd; and (2) a waiver for bridge suspender cable, spider fittings, wire mesh, and grade 2205 plate (for experimental research) in the City of San Diego, CA, <http://www.fhwa.dot.gov/construction/contracts/waivers.cfm?id=20> on September 30th. The FHWA received no comments in response to the two custom built motor control centers in Oregon which suggested that the custom built motor control centers may not be available domestically. Further investigation and inquiry revealed that the product is not available domestically. The FHWA received two comments in response to experimental use of stainless steel products for pedestrian bridges in the City of San Diego, CA. The comments suggested that there are companies capable of manufacturing the products domestically. The City of San Diego contacted the companies and verified that Insteel Industries, Inc., does not manufacture stainless steel suspenders. The spider fittings are available domestically, but the companies do not
