#### Certain Steel Concrete Reinforcing Bars from Turkey; Partial Rescission of Antidumping Duty Administrative Review

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**EFFECTIVE DATE:** November 19, 2008.

#### FOR FURTHER INFORMATION CONTACT:

Elizabeth Eastwood, AD/CVD Operations, Office 2, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC, 20230; telephone (202) 482-3874.

#### SUPPLEMENTARY INFORMATION:

##### Background

On April 1, 2008, the Department of Commerce (the Department) published in the **Federal Register** a notice of "Opportunity to Request Administrative Review" of the antidumping duty order on certain steel concrete reinforcing bars (rebar) from Turkey for the period of review April 1, 2007, through March 31, 2008. *See Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Opportunity to Request Administrative Review*, 73 FR 17317 (April 1, 2008). The Department received timely requests in this proceeding for review from four foreign producers/exporters, including one named Habas Sinai ve Tibbi Gazlar Istihsal Endustrisi A.S. (Habas). The Department also received a timely request for review from Nucor Corporation, Gerdau Ameristeel Corporation, and Commercial Metals Company, domestic producers of rebar and interested parties in this proceeding, for seven producers/exporters, including Habas. On June 4, 2008, the Department published a notice of initiation of administrative review of the antidumping duty order on rebar from Turkey covering all seven companies. *See Initiation of Antidumping Duty and Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 73 FR 31813 (June 4, 2008). In July 2008, the Department issued the antidumping duty questionnaire to selected respondents. The preliminary results in this segment of the proceeding are currently due no later than April 30, 2009.

### Scope of the Order

The product covered by the order is all stock deformed steel concrete reinforcing bars sold in straight lengths and coils. This includes all hot-rolled deformed rebar rolled from billet steel, rail steel, axle steel, or low-alloy steel. It excludes (i) plain round rebar, (ii) rebar that a processor has further worked or fabricated, and (iii) all coated rebar. Deformed rebar is currently classifiable in the *Harmonized Tariff Schedule of the United States* (HTSUS) under item numbers 7213.10.000 and 7214.20.000. The HTSUS subheadings are provided for convenience and customs purposes. The written description of the scope of this proceeding is dispositive.

### Determination to Rescind, in Part

On November 7, 2008, the Department published its final results for the April 1, 2006, through March 31, 2007, administrative review of the antidumping duty on rebar from Turkey. See *Certain Steel Concrete Reinforcing Bars From Turkey; Final Results of Antidumping Duty Administrative Review and Determination To Revoke in Part*, 73 FR 66218 (November 7, 2008). In that review, we found that Habas met the requirements of revocation as described in 19 CFR 351.222(b) and, thus, we revoked the order with respect to subject merchandise produced and exported by Habas. As a result of Habas' revocation in 2006–2007 administrative review, we are rescinding the April 1, 2007, through March 31, 2008, administrative review with respect to this company because there is no statutory or regulatory basis to conduct an administrative review for a producer/exporter that has been revoked from the antidumping duty order.

The Department will issue appropriate assessment instructions directly to the U.S. Customs and Border Protection (CBP) 15 days after the publication of this notice. Because we have revoked the order with respect to subject merchandise produced and exported by Habas, we have instructed CBP that entries of such merchandise that were suspended on or after April 1, 2007, should be liquidated without regard to antidumping duties and that all cash deposits collected will be returned with interest.

This notice serves as a reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of return/destruction of

APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This determination is issued and published pursuant to sections 751(a) and 777(i) of the Tariff Act of 1930, as amended, and 19 CFR 351.213(d)(4).

Dated: November 12, 2008.

### National Oceanic and Atmospheric Administration (NOAA)

#### Final Framework for the National System of Marine Protected Areas of the United States and Response to Comments

**AGENCY:** NOAA, Department of Commerce (DOC).

**ACTION:** Notice of availability of the final Framework for the National System of Marine Protected Areas of the United States and response to comments on Revised Draft Framework.

**SUMMARY:** NOAA and the Department of the Interior (DOI) jointly propose the Framework for the National System of Marine Protected Areas of the United States (Framework), as required by Executive Order 13158 on Marine Protected Areas (MPAs). This Framework provides overarching guidance for collaborative efforts among federal, state, commonwealth, territorial, tribal and local governments and stakeholders to develop an effective National System of MPAs (national system) from existing sites, build coordination and collaborative efforts, and identify ecosystem-based gaps in the protection of significant natural and cultural resources for possible future action by the nation's MPA authorities. The document further provides the guiding principles, key definitions, goals, and objectives for the National System, based on the breadth of input received from MPA stakeholders and governmental partners around the nation over the past several years, and two public comment periods.

**FOR FURTHER INFORMATION CONTACT:**

Please direct all questions and requests for additional information concerning the Framework to: Lauren Wenzel, NOAA, at 301–713–3100, ext. 136 or via e-mail at [Lauren.wenzel@noaa.gov](mailto:Lauren.wenzel@noaa.gov). An electronic copy of the Framework is

available for download at <http://www.mpa.gov/>.

**SUPPLEMENTARY INFORMATION:**

#### I. Background on MPA Framework

The National Oceanic and Atmospheric Administration's (NOAA) National Marine Protected Areas Center (MPA Center), in cooperation with the Department of the Interior (DOI), has developed a *Framework for the National System of Marine Protected Areas of the United States* (Framework) to meet requirements under Executive Order 13158 on Marine Protected Areas (Order). The purpose of this notice is to notify the public of the availability of this document and respond to public comments on the *Revised Draft Framework for Developing a National System of Marine Protected Areas*. NOAA and DOI have undertaken two public comment periods on previous drafts of this document to solicit input and comments from governments and stakeholders in order to ensure that the final document represents the diversity of the nation's interests in the marine environment and marine protected areas (MPAs).

NOAA and DOI recognize the principal role that state, commonwealth, territorial (hereafter referred to as "state") and tribal governments, along with federal agencies, must have in developing and implementing the national system. Roughly 80% of the nation's existing MPAs are under the jurisdiction of non-federal agencies. The significance of these government-to-government relationships and the marine resources managed by states and tribes necessitates this national, rather than federal, approach to building the National System. In developing this Framework, NOAA and the DOT have made and will continue to expand efforts to understand and incorporate, as appropriate, the recommendations of government partners concerning a structure and function for the National System that builds partnerships with and supports the efforts and voluntary participation of state, tribal, and local governments.

Increasing impacts on the world's oceans, caused by development, overfishing, and natural events, are straining the health of our coastal and marine ecosystems. Some of these impacts to the marine and Great Lakes environment have resulted in declining fish populations; degradation of coral reefs, seagrass beds, and other vital habitats; threats to rare or endangered species; and loss of artifacts and resources that are part of our nation's historic and cultural heritage. The effects of these mounting losses are
