AGENCY: Privacy Office, DHS.

ACTION: Notice of Privacy Act system of records.

SUMMARY: In accordance with the Privacy Act of 1974 and as part of the Department of Homeland Security's ongoing effort to review and update legacy system of record notices, the Department of Homeland Security is giving notice that it proposes to consolidate two legacy record systems: Treasury/CS.002-Accident Reports (October 18, 2001), Treasury/CS.151-Motor Vehicle Accident Reports (October 18, 2001), and is no longer depending upon the DOE-38, Occupational and Industrial Accident Records (June 28, 1995) system of records. Categories of individuals, categories of records, routine uses and exemptions of these legacy system of records notices have been consolidated and updated to better reflect the Department's accident record systems. SUPPLEMENTARY INFORMATION:

I. Background

Pursuant to the savings clause in the Homeland Security Act of 2002, Public Law 107-296, Section 1512, 116 Stat. 2310 (November 25, 2002), the Department of Homeland Security (DHS) and its components and offices have relied on preexisting Privacy Act systems of records notices for the collection and maintenance of records that concern individuals, both DHS employees and non-employees, who have been injured on DHS property, or while performing their official duties.

As part of its efforts to streamline and consolidate its records systems, DHS is establishing a consolidated system of records under the Privacy Act (5 U.S.C. 552a) for these accident records. This will ensure that all components of DHS follow the same privacy rules for collecting and maintaining accident records. The collection and maintenance of this information will assist DHS in meeting its obligation to address accident claims for which the agency may be responsible.

In accordance with the Privacy Act of 1974 and as part of DHS's ongoing effort to review and update legacy system of record notices, DHS is giving notice that it proposes to consolidate two legacy record systems: Treasury/CS.002-Accident Reports (66 FR 52984 October 18, 2001), Treasury/CS.151-Motor Vehicle Accident Reports (66 FR 52984 October 18, 2001), and is no longer depending on DOE-38, Occupational and Industrial Accident Records (60 FR 33510 June 28, 1995) system of records. DHS is issuing a DHS-wide system of records to cover accident records. This system will allow DHS to collect and maintain records that concern individuals, both DHS employees and non-employees, who have been injured on DHS property, or while performing their official duties. Categories of individuals, categories of records, routine uses and exemptions of these legacy system of records notices have been consolidated and updated to better reflect the Department's accident record systems. Additionally, a Notice of Proposed Rulemaking will be published elsewhere in the **Federal Register** concurrent with this System of Records. This consolidated system, titled Accident Records, will be included in the Department of Homeland Security's inventory of record systems.

II. Privacy Act

The Privacy Act embodies fair information principles in a statutory framework governing the means by which the United States Government collects, maintains, uses, and disseminates individuals' records. The Privacy Act applies to information that is maintained in a "system of records." A "system of records" is a group of any records under the control of an agency for which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined to encompass United States citizens and legal permanent residents. As a matter of policy, DHS extends administrative Privacy Act protections to all individuals where systems of records maintain information on U.S. citizens, lawful permanent residents, and visitors. Individuals may request access to their own records that are maintained in a system of records in the possession or under the control of DHS by complying with DHS Privacy Act regulations, 6 CFR Part 5.

The Privacy Act requires each agency to publish in the **Federal Register** a description denoting the type and character of each system of records that the agency maintains, and the routine uses that are contained in each system in order to make agency record keeping practices transparent, to notify individuals regarding the uses of their records, and to assist individuals to more easily find such files within the agency. Below is the description of the Accident Records System of Records.
