Communications must identify both docket numbers for this notice. Persons interested in being placed on a mailing list for future NPRMs should contact the FAA's Office of Rulemaking (202) 267-9677, to request a copy of Advisory Circular No. 11-2A, Notice of Proposed Rulemaking Distribution System, which describes the application procedure.

The Proposal

This action proposes to amend Title 14, Code of Federal Regulations (14 CFR), Part 71 by amending the Class E airspace area for IFR operations in the Corpus Christi, TX area. This action would incorporate Aransas County Airport and San Jose Island Airport, Rockport, TX, into the Corpus Christi, TX airspace area. Also, with the addition of RNAV SIAPs at Mustang each Airport, Port Aransas, TX; and T.P. McCampbell Airport, Ingleside, TX controlled airspace 700 feet or more above the surface of the earth is necessary for IFR operations at these airports. The area would be depicted on appropriate aeronautical charts.

Class E airspace areas are published in Paragraph 6005 of FAA Order 7400.9S, dated October 3, 2008, and effective October 31, 2008, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. The FAA's authority to issue rules regarding aviation safety is

found in Title 49 of the U.S. Code. Subtitle 1, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends controlled airspace at Corpus Christi, TX.

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR Part 71 as follows:

1. The authority citation for Part 71 continues to read as follows:

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9S, Airspace Designations and Reporting Points, dated October 3, 2008, and effective October 31, 2008, is amended as follows:

SUPPLEMENTARY INFORMATION:

I. Background

A. CPO and CTA Disclosure Documents

Part 4 of the Commission's regulations¹ governs the operations and activities of CPOs and CTAs. Regulations 4.21 and 4.31 respectively require each CPO and CTA registered or required to be registered with the Commission to deliver a Disclosure Document to prospective pool participants and clients. Regulations 4.24 and 4.25 specify the informational content of the CPO Disclosure Document, and Regulations 4.34 and 4.35 specify the informational content for the CTA Disclosure Document. Regulations 4.26 and 4.36 respectively pertain to the use, amendment and filing of CPO and CTA Disclosure Documents. Specifically, under Regulations 4.26(d) and 4.36(d), the CPO or CTA must file one copy of the Disclosure Document, and any supplements and amendments thereto, with NFA.² These regulations do not,

however, prescribe any particular manner of filing.

B. The NFA Petition

By letter dated July 21, 2008, NFA petitioned the Commission to amend Regulations 4.26 and 4.36 in order to require that CPOs and CTAs file Disclosure Documents electronically through NFA's electronic Disclosure Document filing system (Petition).³ In its Supporting Arguments, NFA explained the reasoning behind the Petition as follows:

Currently, while there is nothing to prohibit a firm from filing a disclosure document in hardcopy form, the vast majority of CPO and CTA registrants file disclosure documents with NFA primarily via electronic mail due to its expediency and convenience. While the use of electronic mail has been a significant improvement over hardcopy submissions in terms of filing efficiency, the current approach still requires a considerable amount of staffing resources and has other disadvantages, e.g., the inability of registrants to obtain the status of the review of their filing without calling NFA and the lack of a central location for storing past filings. Accordingly, NFA has developed a new Internet-based electronic filing system for disclosure documents that will be significantly less resource intensive while also streamlining and enhancing the filing process for registrants. In order to realize the proposed benefits, however, registrants must be required to file their documents electronically through NFA's new system. Consequently, NFA is petitioning the Commission to amend its regulations accordingly.

The Commission understands that, as with NFA's other electronic filing systems,⁴ the Disclosure Document system was designed to be easy and secure, such that Disclosure Documents, supplements and amendments will be uploaded through the system as either Word or PDF documents. Thus, although the CPO or CTA must have an Internet connection to access the system, it could use any public Internet site, such as those available in most public libraries. Moreover, CPOs and CTAs will access the system using the same designated login and password that they currently use for NFA's Online

CPOs and CTAs pursuant to Regulations 4.26(d) and 4.36(d). See 62 FR 52088 (Oct. 6, 1997).

³ The Petition also adds the word "each" before the existing words "trading program" in paragraph (d)(1) of Regulation 4.36 to make that paragraph read parallel to the existing phrase "each trading program" in paragraph (d)(2) of Regulation 4.36.

The Commission previously authorized NFA to accept notices of exemptions or exclusions claimed under Part 4 and required that these notices be filed electronically. See *Id.* and 72 FR 1658 (Jan. 16, 2007), respectively.

⁴ For example, NFA has adopted "Easyfile" for introducing broker and commodity pool financial statements required to be filed with it.

¹ 17 CFR Part 4 (2008). The Commission's regulations can be accessed through the CFTC's Web site, <http://www.cftc.gov>.

² NFA is a registered futures association pursuant to section 17 of the Commodity Exchange Act (Act), 7 U.S.C. 21 (2000). The Act also may be accessed through the CFTC's Web site.

The Commission previously authorized NFA to conduct reviews of Disclosure Documents filed by
