

Fluidized Polymer Suspensions, and CMC that is cross-linked through heat treatment. Purified CMC is CMC that has undergone one or more purification operations which, at a minimum, reduce the remaining salt and other by-product portion of the product to less than ten percent. The merchandise subject to this order is classified in the Harmonized Tariff Schedule of the United States at subheading 3912.31.00. This tariff classification is provided for convenience and customs purposes; however, the written description of the scope of the order is dispositive.

#### Final Results of Review

As noted above, the Department received no comments concerning the *Preliminary Results*. As there have been no changes from or comments on the *Preliminary Results*, there is no decision memorandum accompanying this **Federal Register** notice. For further details of the issues addressed in this proceeding, see *Preliminary Results*. The final weighted-average dumping margin for the period July 1, 2006, through June 30, 2007, is as follows:

Producer/Exporter	Weighted-Average Margin (Percentage)
Quimica Amtex, S.A. de C.V. ....	1.44

#### Assessment

The Department shall determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries. The Department intends to issue assessment instructions to CBP 15 days after the date of publication of these final results of review.

We will instruct CBP to assess antidumping duties on all appropriate entries covered by this review if any importer-specific assessment rate calculated in the final results of this review is above *de minimis* (i.e., at or above 0.50 percent). Pursuant to 19 CFR 351.106(c)(2), we will instruct CBP to liquidate without regard to antidumping duties any entries for which the assessment rate is *de minimis* (i.e., less than 0.50 percent).

The Department clarified its "automatic assessment" regulation on May 6, 2003. See *Antidumping and Countervailing Duty Proceedings: Assessment of Antidumping Duties*, 68 FR 23954 (May 6, 2003). This clarification will apply to entries of subject merchandise during the POR produced by companies included in these final results of review for which the reviewed companies did not know

their merchandise was destined for the United States. This clarification will also apply to POR entries of subject merchandise produced by companies for which we rescind the review based on certifications of no shipments, because these companies certify that they made no POR shipments of subject merchandise for which they had knowledge of U.S. destination. In such instances, we will instruct CBP to liquidate unreviewed entries at the "all-others" rate established in the LTFV investigation if there is no rate for the intermediate company(ies) involved in the transaction.

#### Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of purified CMC from Mexico entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided for by section 751(a)(2)(C) of the Tariff Act of 1930, as amended (the Act): (1) The cash deposit rate for the reviewed company will be the rate shown above; (2) if the exporter is not a firm covered in this review, or the LTFV investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (3) the cash deposit rate for all other manufacturers or exporters will continue to be 12.61 percent, the "all-others" rate established in the LTFV investigation. These deposit requirements shall remain in effect until further notice.

#### Notification to Importers

This notice serves as a final reminder to importers of their responsibility, under 19 CFR 351.402(f)(2), to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

#### Notification to Interested Parties

This notice serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return/destruction of APO materials or conversion to judicial protective order is

hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This administrative review and notice are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: November 18, 2008.

RIN 0648-XL99

#### Endangered Species; File No. 1506

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; receipt of application for modification

**SUMMARY:** Notice is hereby given that Blair E. Witherington, Ph.D., Florida Fish and Wildlife Conservation Commission, Fish and Wildlife Research Institute, Melbourne Beach Field Laboratory, 9700 South A1A, Melbourne Beach, FL 32951, has requested an modification to scientific research Permit No. 1506-01.

**DATES:** Written, telefaxed, or e-mail comments must be received on or before December 26, 2008.

**ADDRESSES:** The modification request and related documents are available for review by selecting "Records Open for Public Comment" from the Features box on the Applications and Permits for Protected Species (APPS) home page, <https://apps.nmfs.noaa.gov/index.cfm>, and then selecting File No. 1506-02 from the list of available applications. These documents are also available for review upon written request or by appointment in the following offices:

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301)713-2289; fax (301)427-2521; and Southeast Region, NMFS, 263 13th Ave South, St. Petersburg, FL 33701; phone (727)824-5312; fax (727)824-5309.

Written comments or requests for a public hearing on this request should be submitted to the Chief, Permits, Conservation and Education Division, F/PR1, Office of Protected Resources,

NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular modification request would be appropriate.

Comments may also be submitted by facsimile at (301)427-2521, provided the facsimile is confirmed by hard copy submitted by mail and postmarked no later than the closing date of the comment period.

Comments may also be submitted by e-mail. The mailbox address for providing e-mail comments is *NMFS.Pr1Comments@noaa.gov*. Include in the subject line of the e-mail comment the following document identifier: File No. 1506.

**FOR FURTHER INFORMATION CONTACT:**

Amy Hapeman or Kate Swails,  
(301)713-2289.

**SUPPLEMENTARY INFORMATION:** The subject modification to Permit No. 1506, issued on March 23, 2005 (70 FR 20530) is requested under the authority of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222-226).

Permit No. 1506-01 authorizes the permit holder to study neonate and juvenile loggerhead (*Caretta caretta*), green (*Chelonia mydas*), Kemp's ridley (*Lepidochelys kempii*), hawksbill (*Eretmochelys imbricata*) and leatherback (*Dermochelys coriacea*) sea turtles in the waters of the Gulf of Mexico and the Atlantic Ocean off the coast of Florida. The purpose of the research is to identify developmental habitat, evaluate the extent of ingestion of marine debris, and provide insight into juvenile sea turtle movements and dive patterns. Dr. Witherington may capture up to 250 loggerhead, 100 green, 50 hawksbill, 50 Kemp's ridley, and 10 leatherback sea turtles by handheld dip nets annually. All turtles are measured and released. A subset of green and loggerhead turtles may be transported to a lab and examined with high resolution magnetic resonance interferometry or computerized tomography, held for 3-4 days and released to determine their level of anthropogenic debris ingestion. Annually, four of each species of green, hawksbill, and Kemp's ridley sea turtles may have sonic transmitters and data loggers attached to measure movements and dive patterns, be recaptured after 24 hours to remove the transmitter and released.

The permit holder requests authorization to annually flipper tag and passive integrated transponder tag all

captured sea turtles, biopsy sample up to 100 loggerhead, 100 green, and 50 hawksbill sea turtles, and lavage up to 50 loggerhead, 50 green, 50 hawksbill, 50 Kemp's ridley, and 10 leatherback sea turtles. The permit holder also requests authorization to attach harnessed satellite transmitters to 10 Kemp's ridley sea turtles each year. Imaging activities and attachment of sonic transmitters and data loggers would no longer be authorized for any species. No increase in the total number of turtles taken would be authorized. These additional activities would provide information on the genetic origin, diet, movement, and dive patterns of sea turtles in this area. The amendment would be valid until the permit expires on March 31, 2010.

Dated: November 21, 2008.

[FR Doc. E8-28181 Filed 11-25-08; 8:45 am]

**BILLING CODE 3510-22-S**

**DEPARTMENT OF COMMERCE**

**National Oceanic and Atmospheric Administration**

**RIN 0648-XL78**

**Marine Mammals; File No. 764-1703-02**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; issuance of permit amendment.

**SUMMARY:** Notice is hereby given that the National Museum of Natural History, Smithsonian Institution, Washington, D.C. 20008-2598 [Principal Investigator: Charles Potter], has been issued an amendment to scientific research Permit No. 764-1703-01.

**ADDRESSES:** The amendment and related documents are available for review upon written request or by appointment in the following office:

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301)713-2289; fax (301)427-2521.

**FOR FURTHER INFORMATION CONTACT:**

Jennifer Skidmore or Amy Sloan  
(301)713-2289.

**SUPPLEMENTARY INFORMATION:** The requested permit amendment has been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the

regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226), and the Fur Seal Act of 1966, as amended (16 U.S.C. 1151 *et seq.*).

The Permit authorizes the National Museum of Natural History to collect, obtain, and import/export samples taken from marine mammals of the Orders Pinnipedia (except walrus) and Cetacea for research purposes. This amendment extends the expiration date of the permit to December 31, 2009.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), a final determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Issuance of this permit, as required by the ESA, was based on a finding that such permit: (1) was applied for in good faith; (2) will not operate to the disadvantage of such endangered species; and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: November 19, 2008.
