In accordance with 19 CFR 351.213(b) of the regulations, an interested party as defined by section 771(9) of the Act may request in writing that the Secretary conduct an administrative review. For both antidumping and countervailing duty reviews, the interested party must specify the individual producers or exporters covered by an antidumping finding or an antidumping or countervailing duty order or suspension agreement for which it is requesting a review, and the requesting party must state why it desires the Secretary to review those particular producers or exporters.² If the interested party intends for the Secretary to review sales of merchandise by an exporter (or a producer if that producer also exports merchandise from other suppliers) which were produced in more than one country of origin and each country of origin is subject to a separate order, then

² If the review request involves a non-market economy and the parties subject to the review request do not qualify for separate rates, all other exporters of subject merchandise from the non-market economy country who do not have a separate rate will be covered by the review as part of the single entity of which the named firms are a part.

the interested party must state specifically, on an order-by-order basis, which exporter(s) the request is intended to cover.

Please note that, for any party the Department was unable to locate in prior segments, the Department will not accept a request for an administrative review of that party absent new information as to the party's location. Moreover, if the interested party who files a request for review is unable to locate the producer or exporter for which it requested the review, the interested party must provide an explanation of the attempts it made to locate the producer or exporter at the same time it files its request for review, in order for the Secretary to determine if the interested party's attempts were reasonable, pursuant to 19 CFR 351.303(f)(3)(ii).

As explained in *Antidumping and Countervailing Duty Proceedings: Assessment of Antidumping Duties*, 68 FR 23954 (May 6, 2003), the Department has clarified its practice with respect to the collection of final antidumping duties on imports of merchandise where intermediate firms are involved. The public should be aware of this

clarification in determining whether to request an administrative review of merchandise subject to antidumping findings and orders. See also the Import Administration Web site at <http://ia.ita.doc.gov>.

Six copies of the request should be submitted to the Assistant Secretary for Import Administration, International Trade Administration, Room 1870, U.S. Department of Commerce, 14th Street & Constitution Avenue, NW., Washington, DC 20230. The Department also asks parties to serve a copy of their requests to the Office of Antidumping/Countervailing Duty Operations, Attention: Sheila Forbes, in room 3065 of the main Commerce Building. Further, in accordance with 19 CFR 351.303(f)(1)(i) of the regulations, a copy of each request must be served on every party on the Department's service list.

The Department will publish in the **Federal Register** a notice of "Initiation of Administrative Review of Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation" for requests received by the last day of December 2008. If the Department does not receive, by the last day of December 2008, a request for

review of entries covered by an order, finding, or suspended investigation listed in this notice and for the period identified above, the Department will instruct the U.S. Customs and Border Protection to assess antidumping or countervailing duties on those entries at a rate equal to the cash deposit of (or bond for) estimated antidumping or countervailing duties required on those entries at the time of entry, or withdrawal from warehouse, for consumption and to continue to collect the cash deposit previously ordered.

This notice is not required by statute but is published as a service to the international trading community.

Dated: November 25, 2008.

Stephen J. Claeys,

Deputy Assistant Secretary for AD/CVD Duty Operations.

Certain Circular Welded Carbon Quality Steel Line Pipe from the Republic of Korea: Termination of Antidumping Duty Investigation

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: December 1, 2008.

FOR FURTHER INFORMATION CONTACT: Patrick Edwards or Dena Crossland, Office 7, AD/CVD Operations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-8029 or (202) 482-3362, respectively.

SUPPLEMENTARY INFORMATION:

Background

On April 3, 2008, the Department of Commerce (Department) received antidumping duty petitions filed in proper form by the petitioners for the imposition of antidumping duties on certain circular welded carbon quality steel line pipe (line pipe) from the Republic of Korea (Korea) and the People's Republic of China (PRC), alleging that line pipe from these countries were being sold, or were likely to be sold, in the United States at less than fair value. The petitioners are United States Steel Corporation, Maverick Tube Corporation, Tex-Tube Company, and the United Steel, Paper and Forestry, Rubber, Manufacturing,

Energy, Allied Industrial and Service Workers International Union, and AFL-CIO-CLC (collectively, Petitioners). On April 23, 2008, the Department initiated antidumping duty investigations of line pipe from Korea and the PRC. See *Certain Circular Welded Carbon Quality Steel Line Pipe From the Republic of Korea and the People's Republic of China: Initiation of Antidumping Duty Investigations*, 73 FR 23188 (April 29, 2008) (*Initiation Notice*).

On June 3, 2008, the International Trade Commission preliminarily determined that there is a reasonable indication that an industry in the United States is materially injured or threatened with material injury by reason of imports of line pipe from Korea and the PRC. See *Certain Circular Welded Carbon Quality Steel Line Pipe from China and Korea*, 73 FR 31712 (June 3, 2008).

On November 6, 2008, we published in the **Federal Register** the preliminary determination in the Korean investigation, concurrently postponing the final determination until no later than March 21, 2009. See *Preliminary Determination of Sales at Less Than Fair Value and Postponement of the Final Determination: Certain Circular Welded Carbon Quality Steel Line Pipe from the Republic of Korea*, 73 FR 66020 (November 6, 2008).

Scope of Investigation

The merchandise that is the subject of this investigation is circular welded carbon quality steel pipe of a kind used for oil and gas pipelines (welded line pipe), not more than 406.4 mm (16 inches) in outside diameter, regardless of wall thickness, length, surface finish, end finish or stenciling.

The term "carbon quality steel" includes both carbon steel and carbon steel mixed with small amounts of alloying elements that may exceed the individual weight limits for nonalloy steels imposed in the Harmonized Tariff Schedule of the United States (HTSUS). Specifically, the term "carbon quality" includes products in which (1) iron predominates by weight over each of the other contained elements, (2) the carbon content is 2 percent or less by weight and (3) none of the elements listed below exceeds the quantity by weight respectively indicated:

- (i) 2.00 percent of manganese,
- (ii) 2.25 percent of silicon,
- (iii) 1.00 percent of copper,
- (iv) 0.50 percent of aluminum,
- (v) 1.25 percent of chromium,
- (vi) 0.30 percent of cobalt,
- (vii) 0.40 percent of lead,
- (viii) 1.25 percent of nickel,
- (ix) 0.30 percent of tungsten,

- (x) 0.012 percent of boron,
- (xi) 0.50 percent of molybdenum,
- (xii) 0.15 percent of niobium,
- (xiii) 0.41 percent of titanium,
- (xiv) 0.15 percent of vanadium, or
- (xv) 0.15 percent of zirconium.

Welded line pipe is normally produced to specifications published by the American Petroleum Institute (API) (or comparable foreign specifications) including API A-25, 5LA, 5LB, and X grades from 42 and above, and/or any other proprietary grades or non-graded material. Nevertheless, all pipe meeting the physical description set forth above that is of a kind used in oil and gas pipelines, including all multiple-stenciled pipe with an API line pipe stencil is covered by the scope of this investigation.

The line pipe products that are the subject of this investigation are currently classifiable in the HTSUS under subheadings 7306.19.10.10, 7306.19.10.50, 7306.19.51.10, and 7306.19.51.50. While HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of this investigation is dispositive.

Termination of Antidumping Duty Investigation

On November 17, 2008, the Department received a letter from Petitioners notifying the Department that they are no longer interested in seeking relief and are withdrawing their petition on line pipe from Korea. Under section 734(a)(1)(A) of the Tariff Act of 1930, as amended (the Act), upon withdrawal of a petition, the administering authority may terminate an investigation after giving notice to all parties to the investigation. Further, 19 CFR 351.207(b)(1) states that the Department may terminate an investigation upon withdrawal of a petition, provided it concludes that termination is in the public interest. On November 18, 2008, we notified all interested parties to the investigation of our intent to terminate this investigation, and provided them an opportunity to comment on the proposed termination. See Memorandum to the File from Dena Crossland, Case Analyst, through Angelica L. Mendoza, Program Manager, Office 7, dated November 21, 2008. We received no comments from any party to this investigation.

As no party objects to this termination and the Department is not aware of any evidence to the contrary, the Department finds that termination of this investigation is in the public interest. As such, we are terminating this antidumping duty investigation and
