

b. How successful are the existing programs at reducing formaldehyde exposures? How could the existing programs be modified to improve the results? Would a new voluntary program be more successful at reducing formaldehyde exposures?

c. How would voluntary programs address imported products?

d. What role could regulatory adoption (e.g., using TSCA section 6) of voluntary consensus standards for formaldehyde emissions play in EPA's oversight of this issue? How would this approach address imported products?

VI. Statutory and Executive Order Reviews

Under Executive Order 12866, entitled “Regulatory Planning and Review” (58 FR 51735, October 4, 1993), this action was submitted to the Office of Management and Budget (OMB) for review. Any changes to the document that were made in response to OMB comments received by EPA during that review have been documented in the docket as required by the Executive Order.

Since this document does not impose or propose any requirements, and instead seeks comments and suggestions for the Agency to consider in possibly developing a subsequent proposed rule, the various other review requirements that apply when an agency imposes requirements do not apply to this action.

As part of your comments on this document, you may include any comments or information that you have regarding this action. In particular, any comments or information that would help the Agency to assess the potential impact of a rule on small entities pursuant to the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*); to consider voluntary consensus standards pursuant to section 12(d) of the National Technology Transfer and Advancement Act of 1995 (NTTAA), Public Law 104–113, section 12(d) (15 U.S.C. 272 note); to consider environmental health or safety effects on children pursuant to Executive Order 13045, entitled “Protection of Children from Environmental Health Risks and Safety Risks” (62 FR 19885, April 23, 1997); or

to consider human health or environmental effects on minority or low-income populations pursuant to Executive Order 12898, entitled “Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations” (59 FR 7629, February 16, 1994). The Agency will consider such comments during the development of any subsequent notice of proposed rulemaking as it takes appropriate steps to address any applicable requirements.

Performance Specification and Quality Assurance Requirements for Continuous Parameter Monitoring Systems and Amendments to Standards of Performance for New Stationary Sources; National Emission Standards for Hazardous Air Pollutants; and National Emission Standards for Hazardous Air Pollutants for Source Categories

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of extension of comment period.

SUMMARY: EPA is announcing that the comment period on the proposed rule for Performance Specification 17, “Specifications and Test Procedures for Continuous Parameter Monitoring Systems at Stationary Sources” and Procedure 4, “Quality Assurance Requirements for Continuous Parameter Monitoring Systems at Stationary Sources” published on October 9, 2008, is extended to February 5, 2009. This comment period extension also applies to the amendments proposed along with Performance Specification 17 and Procedure 4 for continuous parameter monitoring systems. EPA received requests for an extension to the comment period from the American Chemistry Council and the Coalition for Responsible Waste Incineration.

The reason given for the request for the extension was the need for additional time to review the proposed rules and assess their impact on subject sources. Since the additional time is expected to afford commenters the ability to prepare and submit more comprehensive and detailed comments, EPA finds the requests for an extension of the comment period reasonable.

One commenter also requested a 60-day extension to the deadline for requesting a public hearing on the proposed rule. No specific, compelling reason was provided for granting this request; therefore EPA finds the request for extending the deadline for requesting a public hearing on the proposal not reasonable.

DATES: *Comments:* Comments on the proposed rule must be received on or before February 5, 2009.
