SUPPLEMENTARY INFORMATION:

Background

In 1996, Congress enacted the Debt Collection Improvement Act of 1996 (Pub. L. 104-134, 110 Stat. 1321-1358, approved April 26, 1996), which amended the Debt Collection Act of 1982. Section 31001(o) of the DCIA authorizes collection of Federal agency debt by administrative wage garnishment (section 31001(o) is codified at 31 U.S.C. 3720D). Wage garnishment is a legal process whereby an employer withholds amounts from an employee's wages and pays those amounts to the employee's creditor in satisfaction of a withholding order. The DCIA authorizes Federal agencies to garnish up to 15% of the disposable pay of a debtor to satisfy delinquent nontax debt owed to the United States. Prior to

the enactment of the DCIA, agencies were required to obtain a court judgment before garnishing the wages of non-Federal employees.

The DCIA directed the Secretary of the Treasury to issue implementing regulations (see 31 U.S.C. 3720D(h)) on this subject. On May 6, 1998 (63 FR 25136), the Department of the Treasury published a final rule implementing the statutory administrative wage garnishment requirements at 31 CFR 285.11. Paragraph (f) of 31 CFR 285.11 provides that "[a]gencies shall prescribe regulations for the conduct of administrative wage garnishment hearings consistent with this section or shall adopt this section without change by reference." Under the DCIA, the Treasury Department serves as a coordinator for Federal debt collection through its Treasury Offset Program.

This proposed rule would amend DOT's regulations at 49 CFR part 89, subpart B to adopt 31 CFR 285.11 in its entirety. Specifically, the proposed rule would establish a new 49 CFR 89.35 that would contain a cross-reference to 31 CFR 285.11.

Overview of the Administrative Wage Garnishment Process

Readers should refer to the Department of the Treasury regulation at 31 CFR 285.11 for details regarding the administrative wage garnishment procedures that would be adopted by this proposed rule. For the convenience of readers, the following presents a very brief overview of the rules and procedures codified at 31 CFR 285.11.

1. Notice to debtor. At least 30 days before the agency initiates garnishment proceedings, the agency will give the debtor written notice informing him or her of the nature and amount of the debt, the intention of the agency to collect the debt through deductions from pay, and an explanation of the debtor's rights regarding the proposed action.

2. Rights of debtor. The agency will provide the debtor with an opportunity to inspect and copy records related to the debt, to establish a repayment agreement, and to receive a hearing concerning the existence or amount of the debt and the terms of a repayment schedule. A hearing must be held prior to the issuance of a withholding order if the debtor's request is timely received. For hearing requests that are not received in the specified timeframe, the agency need not delay the issuance of a withholding order prior to conducting a hearing. An agency may not garnish the wages of a debtor who has been involuntarily separated from employment until that individual has

been reemployed continuously for at least 12 months. The debtor bears the responsibility of notifying the agency of the circumstances surrounding an involuntary separation from employment.

3. Hearing official. The Department of the Treasury regulations authorize the head of each agency to designate any qualified individual as a hearing official. This proposed rule would provide that any hearing required to establish DOT's right to collect a debt through administrative wage garnishment will be conducted by a qualified individual selected by the Secretary of Transportation. The hearing official is required to issue a written decision no later than 60 days after the request for a hearing is made. The hearing official's decision is the final agency action for purposes of judicial review.

4. Employer's responsibilities. The Treasury Department will send a wage garnishment order to the employer of a delinquent debtor, directing that the employer pay a portion of the debtor's wages to the Federal Government. The employer is required to certify certain payment information about the debtor. Employers are not required to vary their normal pay cycles in order to comply with these requirements. Employers are prohibited from taking disciplinary actions against the debtor because the debtor's wages are subject to administrative garnishment. An agency may sue an employer for amounts not properly withheld from the wages payable to the debtor.

5. Garnishment amounts. As provided in the DCIA, no more than 15% of the debtor's disposable pay for each pay period may be garnished. Special rules apply to calculating the amount to be withheld from a debtor's pay that is subject to multiple withholding orders. A debtor may request a review by the agency of the amount being garnished under a wage garnishment order based on materially changed circumstances, such as disability, divorce, or catastrophic illness, which result in financial hardship.

Rulemaking Analyses and Notices

E.O. 12866 and DOT Regulatory Policies and Procedures

The Department has evaluated this NPRM in accordance with existing regulatory policies and procedures and has concluded that it is a nonsignificant regulatory action under E.O. 12866, and a nonsignificant rule under section 5(a)(4) of the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979).

The NPRM is not a significant regulatory action under E.O. 12866 because it will not have an annual effect on the economy of \$100 million or more or adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities; will not create a serious inconsistency with an action planned or underway by another Federal agency; will not materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights and obligations of recipients thereof; and will not raise novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles of the Executive Order.

Regulatory Flexibility Act

In compliance with the Regulatory Flexibility Act (Pub. L. 96-354, 5 U.S.C. 601-612), we have evaluated the effects of this action on small entities and have determined that the action will not have a significant economic impact on a substantial number of small entities. Therefore, the Department certifies that this rule would not have a significant economic impact on a substantial number of small entities.

Employers of delinquent debtors must certify certain information about the debtor such as the debtor's employment status and earnings. This information is contained in the employer's payroll records. Therefore, it will not take a significant amount of time or result in a significant cost for an employer to complete the certification form. Even if an employer is served withholding orders on several employees over the course of a year, the cost imposed on the employer to complete the certifications would not have a significant economic impact on an entity. Employers are not required to vary their normal pay cycles in order to comply with a withholding order issued pursuant to this proposed rule.

Notwithstanding DOT's determination that this rule will not have a significant economic impact on small entities, DOT specifically invites comments regarding alternatives to this rule that would meet DOT's objectives as described in this preamble.

Executive Order 13132 (Federalism)

Executive Order 13132 (entitled "Federalism") prohibits an agency from publishing any rule that has federalism implications if the rule either imposes substantial direct compliance costs on State and local governments and is not required by statute, or the rule preempts State law, unless the agency meets the

consultation and funding requirements of section 6 of the Executive Order.

This proposed rule does not have federalism implications and does not impose substantial direct compliance costs on State and local governments or preempt State law within the meaning of the Executive Order.

Executive Order 13084

This rule has been analyzed in accordance with the principles and criteria contained in Executive Order 13084 ("Consultation and Coordination with Indian Tribal Governments"). Because this rule would not significantly or uniquely affect the Indian tribal communities, and would not impose substantial direct compliance costs, the funding and consultation requirements of the Executive Order do not apply.

Unfunded Mandates Reform Act of 1995

Title II of the Unfunded Mandates Reform Act of 1995 establishes requirements for Federal agencies to assess the effects of their regulatory actions on State, local, and tribal governments and the private sector.

This rule would not impose a Federal mandate on any State, local, or tribal government, or on the private sector, within the meaning of the Unfunded Mandates Reform Act of 1995.

Executive Order 12372 (Intergovernmental Review)

The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities do not apply to this program.

Paperwork Reduction Act

The Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*) addresses the collection of information by the Federal government from individuals, small businesses and State and local government and seeks to minimize the burdens such information collection requirements might impose. A collection of information includes requiring answers to identical questions posed to, or identical reporting or recordkeeping requirements imposed on, ten or more persons, other than agencies, instrumentalities or employees of the United States.

This proposed rule contains information that would apply to individuals and possibly small entities. However, there are no reporting or other collection requirements associated with this proposed rule, even though it relates to an employer's certification of certain information about the debtor, such as the debtor's employment status

and earnings, which would be inquiries on a one-time basis. In any case, comments in this area are welcomed.

National Environmental Policy Act

In accordance with 24 CFR 50.19(c)(1) of the Department's regulations, this proposed rule does not direct, provide for assistance or loan and mortgage insurance for, or otherwise govern or regulate, real property acquisition, disposition, leasing, rehabilitation, alteration, demolition, or new construction, or establish, revise, or provide for standards for construction or construction materials, manufactured housing, or occupancy. Therefore, this proposed rule is categorically excluded from the requirements of the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*).

Energy Impact

Executive Order 13211 requires Federal agencies to prepare a Statement of Energy Effects for any "significant energy action." See 66 FR 28355 (May 22, 2001). Under the Executive Order a "significant energy action" is defined as any action by an agency that promulgates or is expected to lead to the promulgation of a final rule or regulation, including notices of inquiry, advance notices of proposed rulemaking, and notices of proposed rulemaking: (1)(i) That is a significant regulatory action under Executive Order 12866 or any successor order, and (ii) is likely to have a significant adverse effect on the supply, distribution, or use of energy; or (2) that is designated by the Administrator of the Office of Information and Regulatory Affairs as a significant energy action.

The Department has evaluated this NPRM in accordance with Executive Order 13211 and it has determined that this NPRM is not likely to have a significant adverse effect on the supply, distribution, or use of energy. Consequently, the Department has determined that this NPRM is not a "significant energy action" within the meaning of the Executive Order.

The qualified individual may include an Administrative Law Judge.
