

the acceptance criteria for that facility or routed back through WSB processes for further treatment.

The WSB SA discusses existing NEPA evaluations for surplus plutonium disposition activities relative to WSB, and provides a comparison of the potential environmental impacts of constructing and operating the WSB in F-Area at SRS to impacts identified in the SPD EIS for constructing and operating MFFF and PDCF. The WSB SA also qualitatively compares the impacts of a stand-alone WSB to the impacts of the relevant waste processing, treatment and solidification operations discussed as part of both the MFFF and the PDCF in the SPD EIS. Construction and operation of the stand-alone WSB to treat and solidify transuranic and low-level radioactive wastes from MFFF and PDCF does not involve environmental impacts that are significantly different from those identified in previous NEPA analyses, in particular, the SPD EIS. Activities proposed for this stand-alone building, the WSB, would be similar to those identified in the SPD EIS to occur separately in both MFFF and PDCF.

The WSB SA demonstrates that construction and operation of a stand-alone WSB represent neither substantial changes relevant to environmental concerns nor significant new circumstances or information relevant to environmental concerns. Therefore, pursuant to 10 CFR 1021.314(c), no additional NEPA analyses are required to construct and operate a stand-alone WSB.

Decision

DOE/NNSA has decided to construct and operate a stand-alone waste solidification building for treating and solidifying liquid transuranic waste and certain liquid low-level radioactive wastes generated by MFFF and PDCF, specifically a high-activity (high-alpha) waste stream from MFFF, a low-activity stripped-uranium waste stream from MFFF, and a low-activity laboratory waste stream from PDCF. As described in the WSB SA (DOE/EIS-0283-SA-2), the potential environmental impacts of constructing and operating a stand-alone WSB are not significantly different from the impacts of treating and solidifying these wastes in MFFF and PDCF as analyzed in the SPD EIS.

Issued in Washington, DC this 26th day of November, 2008.

Thomas P. D'Agostino,

Administrator, National Nuclear Security Administration.

BILLING CODE 6450-01-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OECA-2008-0365; FRL-8749-6]

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; NESHAP for Primary Lead Smelters, EPA ICR Number 1856.06, OMB Control Number 2060-0414

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 et seq.), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR which is abstracted below describes the nature of the collection and the estimated burden and cost.

DATES: Additional comments may be submitted on or before January 9, 2009.

ADDRESSES: Submit your comments, referencing docket ID number EPA-OECA-2008-0365, to (1) EPA online using <http://www.regulations.gov> (our preferred method), or by e-mail to docket.oeca@epa.gov, or by mail to: EPA Docket Center (EPA/DC), Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, mail code 2201T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Sounjay Gairola, Office of Enforcement and Compliance Assurance, Environmental Protection Agency, 1200 Pennsylvania Avenue, NW, Washington, DC 20460; telephone number: (202) 564-4003; e-mail address: gairola.sounjay@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On May 30, 2008 (73 FR 31088), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under docket ID number EPA-HQ-OECA-2008-0365, which is available for public viewing online at

<http://www.regulations.gov>, in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket is (202) 566-1927.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov>, as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to <http://www.regulations.gov>.

Title: NESHAP for Primary Lead Smelters (Renewal).

ICR Numbers: EPA ICR Number 1856.06, OMB Control Number 2060-0414.

ICR Status: This ICR is scheduled to expire on February 28, 2009. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Primary Lead Smelters were proposed on April 17, 1998 (63 FR 19200) and promulgated on June 4, 1999 (64 FR 30204). On February 12, 1999,

the Agency publicized a supplemental rulemaking for ferroalloys, mineral wool, primary copper, primary lead and wool fiberglass which enhanced the requirements for bag leak detection systems in 40 CFR 63.1625 and 40 CFR 63.1655 by including an enforceable operating limit in this rule. These standards apply to emissions sources from primary lead smelters including sinter machine, blast furnace, dross furnace, process fugitive, and fugitive dust sources.

The affected entities are subject to the General Provisions of the NESHP at 40 CFR part 63, subpart A, and any changes, or additions to the General Provisions specified at 40 CFR part 63, subpart TTT.

Respondents are required to submit initial notifications, conduct performance tests, and submit periodic reports. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility; any period during which the monitoring system is inoperative; the production for unrefined lead, copper matte, and copper speiss; the date and times of bag leak detection system alarms and the corrective action taken; baghouse inspection and maintenance; any records required as part of the source standard operating procedures (SOP) manuals; and the compliance methods chosen. Reports, at a minimum, are required semiannually. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NESHP.

An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 3,048 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any

previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Primary lead smelters including sinter machine, blast furnace, dross furnace, process fugitive, and fugitive dust sources.

Estimated Number of Respondents: 2.
Frequency of Response: Initially, occasionally, semi-annually, and yearly.
Estimated Total Annual Hour Burden: 12,190.

Estimated Total Annual Cost: \$1,003,082, which includes \$984,082 in Labor costs, \$19,000 in O&M costs, and no annualized capital/start-up costs.

Changes in the Estimates: There is no change in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens.

Dated: December 3, 2008.

John Moses,

Acting Director, Collection Strategies Division.
