SUPPLEMENTARY INFORMATION:

I. Background

Pursuant to the savings clause in the Homeland Security Act of 2002, Public Law 107-296, section 1512, 116 Stat. 2310 (November 25, 2002), the Department of Homeland Security (DHS) and United States Coast Guard (USCG) have relied on preexisting Privacy Act systems of records notices for the collection and maintenance of records that concern legal assistance case files pertaining to USCG military personnel seeking personal legal assistance.

As part of its efforts to streamline and consolidate its record systems, DHS is updating and reissuing a USCG system of records under the Privacy Act (5 U.S.C. 552a) that deals with USCG military personnel seeking legal assistance. This record system will allow DHS/USCG to collect and maintain records regarding legal assistance. The collection and maintenance of this information will assist DHS/USCG in providing personal legal assistance to USCG military personnel.

In accordance with the Privacy Act of 1974 and as part of DHS's ongoing effort to review and update legacy system of records notices, DHS is giving notice that it proposes to update and reissue the following legacy record system, DOT/CG 511 Legal Assistance Case Files System (65 FR 19475 April 11, 2000) as a DHS/USCG system of records notice titled, Legal Assistance Case Files. This system will permit DHS/USCG to facilitate the provision of legal assistance to eligible clients seeking personal legal assistance. Categories of individuals and categories of records have been reviewed, and the routine uses of this legacy system of records notice have been updated to better reflect DHS/USCG legal assistance case files record system. This new system will be included in DHS's inventory of record systems.

II. Privacy Act

The Privacy Act embodies fair information principles in a statutory framework governing the means by which the United States Government collects, maintains, uses, and disseminates individuals' records. The Privacy Act applies to information that is maintained in a "system of records." A "system of records" is a group of any records under the control of an agency for which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined to encompass

United States citizens and legal permanent residents. As a matter of policy, DHS extends administrative Privacy Act protections to all individuals where systems of records maintain information on U.S. citizens, lawful permanent residents, and visitors. Individuals may request access to their own records that are maintained in a system of records in the possession or under the control of DHS by complying with DHS Privacy Act regulations, 6 CFR Part 5.

The Privacy Act requires each agency to publish in the **Federal Register** a description denoting the type and character of each system of records that the agency maintains, and the routine uses that are contained in each system in order to make agency record keeping practices transparent, to notify individuals regarding the uses of their records, and to assist individuals to more easily find such files within the agency.
