

DEPARTMENT OF DEFENSE**Department of the Air Force**

[Docket ID: USAF-2008-0049]

Privacy Act of 1974; System of Records**AGENCY:** Department of the Air Force, DoD.**ACTION:** Notice to Delete a System of Records.**SUMMARY:** The Department of the Air Force proposes to delete a system of records to its inventory of record systems subject to the Privacy Act of 1974 (5 U.S.C. 552a), as amended.**DATES:** This action will be effective on January 15, 2009 unless comments are received that would result in a contrary determination.**ADDRESSES:** Send comments to the Air Force Privacy Act Officer, Office of Warfighting Integration and Chief Information Officer, SAF/XCISI, 1800 Air Force Pentagon, Suite 220, Washington, DC 20330-1800.**FOR FURTHER INFORMATION CONTACT:** Mr. Kenneth Brodie at (703) 696-7557.**SUPPLEMENTARY INFORMATION:** The Department of the Air Force systems of records notices subject to the Privacy Act of 1974 (5 U.S.C. 552a), as amended, have been published in the **Federal Register** and are available from the address above.

The Department of the Air Force proposes to delete a system of records notice from its inventory of record systems subject to the Privacy Act of 1974 (5 U.S.C. 552a), as amended. The proposed deletion is not within the purview of subsection (r) of the Privacy Act of 1974 (5 U.S.C. 552a), as amended, which requires the submission of a new or altered system report.

Dated: December 10, 2008.

Morgan E. Frazier,*Alternate OSD Federal Register Liaison Officer, Department of Defense.***F033 AFCA B****SYSTEM NAME:**

Air Force Computer Based Training (CBT) System (October 2, 2000, 65 FR 58735).

REASON:

This records collection for this system is now covered by F033 AFCA C, USAF Information Technology E-Learning System published on December 8, 2008, 73 FR 74471. Accordingly, this Privacy Act System of Records Notice will be deleted from the Air Force's inventory.

BILLING CODE 5001-06-P**DEPARTMENT OF DEFENSE****Department of the Army, Corps of Engineers****Intent To Prepare a Draft Environmental Impact Statement for the Proposed Arboretum Project, in Rancho Cordova, Sacramento County, CA, Permit Application Number SPK-2007-00133****AGENCY:** Department of the Army, U.S. Army Corps of Engineers, DOD.**ACTION:** Notice of intent.**SUMMARY:** The U.S. Army Corps of Engineers, Sacramento District, (Corps) will prepare an Environmental Impact Statement (EIS) for The Arboretum project, a mixed-use residential and commercial development in Rancho Cordova, Sacramento County, CA. Lewis Operating Corp. has applied for a Department of the Army permit to fill approximately 31.78 acres of waters of the United States, including wetlands, to construct the project.**ADDRESSES:** Please send written comments to Angela De Paoli Conn, U.S. Army Corps of Engineers, Sacramento District, 1325 J Street, Room 1480, Sacramento, CA 95814-2922.**FOR FURTHER INFORMATION CONTACT:** Questions about the proposed action and EIS should be addressed to Angela De Paoli Conn, (916) 557-6782, e-mail: angela.l.conn@usace.army.mil.**SUPPLEMENTARY INFORMATION:** Lewis Operating Corp. has applied for a Department of the Army permit under Section 404 of the Clean Water Act to construct a mixed-use development on a 1,349-acre parcel situated in the eastern portion of the City of Rancho Cordova in eastern Sacramento County, CA. The proposed action includes approximately 5,000 new residential units; nearly 80 acres of public and private use parks and related facilities; two 10-acre elementary school sites; one 75-acre joint use middle/high school site; and 465,000 square feet of targeted commercial development. The total development area would encompass approximately 900 acres of the project site. The remaining 449 acres, or nearly 33 percent, of the project site would be devoted to passive and multiple use open space, including the preservation and enhancement of the Laguna Creek stream corridor and its associated jurisdictional features.

Approximately 117.03 acres of water of the United States have been identified on the proposed project site, including 22.18 acres of vernal pools, 6.79 acres of seasonal wetlands, 58.44 acres of lake, 9.96 acres of ponds, 8.99

acres of channels, 9.48 acres wet swales, 0.34 acre of drainage ditches, and 0.91 acre irrigation ditches. The applicant has applied for a permit to fill 31.78 acres of these waters. Wetlands proposed to be preserved and not directly impacted by the project are within the 449 acres of open space and wetland preserve and would contain approximately 85.25 acres of wetlands, approximately 73 percent of wetlands on site.

The EIS will include an evaluation of a reasonable range of alternatives. Currently, the following alternatives are expected to be analyzed in detail: (1) The no action alternative (no permit issued), (2) the applicant's preferred project (proposed action), and (3) a different location (off-site) alternative. The no action alternative assumes limited development would occur on the site with all waters of the United States avoided. The off-site alternative assumes the proposed project would be developed at a different but suitably sized site in the region. Currently the Corps is in the process of developing an analysis of alternatives sufficient to demonstrate compliance with Section 404(b)(1) of the Clean Water Act, therefore additional alternatives are likely to be analyzed.

The Corps' scoping process for the EIS includes a public involvement program with several opportunities to provide oral and written comments. In addition to public meetings and notifications in the **Federal Register**, the Corps will issue public notices when the draft and final EISs are available. Affected federal, state, and local agencies, Native American tribes, and other interested private organizations and parties are invited to participate.

Potentially significant issues to be analyzed in the EIS include, but are not limited to: Hydrology, water supply, water quality, cultural resources, biological resources, traffic and transportation, and air quality. The Corps is the lead agency for preparation of the EIS under the requirements of the National Environmental Policy Act (NEPA). Currently no other agencies have agreed to be cooperating agencies. The Corps will coordinate with other agencies, such as the City of Rancho Cordova.

Other environmental review and consultation requirements for the proposed action include the need for the applicant to obtain water quality certification under Section 401 of the Clean Water Act from the California Central Valley Regional Water Quality Control Board. In addition, because the proposed project may affect federally listed species, the Corps will formally
