SUPPLEMENTARY INFORMATION:

I. Background

Pursuant to the savings clause in the Homeland Security Act of 2002, Public Law 107-296, Section 1512, 116 Stat. 2310 (November 25, 2002), the Department of Homeland Security (DHS) and its components and offices have relied on preexisting Privacy Act systems of records notices for the collection and maintenance of records that concern the adjudication and settlement of claims concerning the amounts of pay received by United States Coast Guard (USCG) military personnel.

As part of its efforts to streamline and consolidate its record systems, DHS is updating and reissuing a USCG system of records under the Privacy Act (5 U.S.C. 552a) that deals with the adjudication and settlement of claims concerning the amounts of pay received by USCG military personnel. This record system will allow DHS/USCG to collect and preserve the records regarding military personnel salary claims. The collection and maintenance of this information will assist DHS/USCG in meeting its obligation to adjudicate and settle salary claims received by USCG military personnel.

In accordance with the Privacy Act of 1974 and as part of DHS's ongoing effort to review and update legacy system of records notices, DHS is giving notice that it proposes to update and reissue the following legacy record system DOT/CG 526 Adjudication and Settlement of Claims System (65 FR 19476, 4/11/2000) as a DHS/USCG system of records notice titled, Adjudication and Settlement of Claims System. This system of records was covered previously by the DOT/CG, Adjudication and Settlement of Claims System, but was inadvertently retired in the **Federal Register** on October 7, 2008.

Categories of individuals and categories of records have been reviewed, and the routine uses of this legacy system of records notice have been updated to better reflect the DHS/USCG adjudication and settlement of claims record system. This new system will be included in DHS's inventory of record systems.

II. Privacy Act

The Privacy Act embodies fair information principles in a statutory framework governing the means by which the United States Government collects, maintains, uses and disseminates individuals' information. The Privacy Act applies to information that is maintained in a "system of records." A "system of records" is a group of any records under the control of an agency from which information is stored and retrieved by the name of the individual or by some identifying number such as property address, mailing address, or symbol assigned to the individual. In the Privacy Act, an individual is defined to encompass United States citizens and lawful permanent residents. DHS extends administrative Privacy Act protections to all individuals where information is maintained on both U.S. citizens, lawful permanent residents, and visitors. Individuals may request their own records that are maintained in a system of records in the possession or under the control of DHS by complying with DHS Privacy Act regulations, 6 CFR 5.21.

The Privacy Act requires each agency to publish in the **Federal Register** a description denoting the type and character of each system of records that the agency maintains, and the routine uses that are contained in each system in order to make agency record keeping practices transparent, to notify individuals regarding the uses of their records, and to assist individuals to more easily find such files within the agency. Below is the description of the Adjudication and Settlement of Claims System of Records.

In accordance with 5 U.S.C. 552a(r), DHS has provided a report of this new system of records to the Office of Management and Budget and to Congress.
