

Environmental Impact Statement, Colorado.

SUMMARY: Pursuant to the National Environmental Policy Act of 1969 (NEPA), the Bureau of Reclamation (Reclamation), is notifying the public that Reclamation, in cooperation with the U.S. Army Corps of Engineers, U.S. Environmental Protection Agency, U.S. Bureau of Land Management, and U.S. Fish and Wildlife Service, has prepared and made available to the public a final environmental impact statement (Final EIS) for the proposed Southern Delivery System (SDS) project. The non-federal Project Participants (City of Colorado Springs, City of Fountain, Security Water District, and Pueblo West Metropolitan District) have made a request to Reclamation to issue long term excess capacity, conveyance, and exchange contracts for the use of Fryngpan-Arkansas Project facilities. Reclamation needs to decide if the requested contracts will be issued. The Project Participants' purpose is to provide a safe, reliable, and sustainable water supply for their customers through the foreseeable future. The Project Participants' needs are the following:

- The Project Participants have a need to use developed and undeveloped water supplies to meet most or all projected future demands through 2046.
- The Project Participants have a need to develop additional water storage, delivery, and treatment capacity to provide system redundancy.
- The Project Participants have a need to perfect and deliver their existing Arkansas Basin water rights. Reclamation published a Draft EIS on February 29, 2008. Reclamation published a Supplemental Information Report on October 3, 2008 to update and provide additional information that was not in the Draft EIS. Revisions were made to the Final EIS to incorporate additional analyses presented in the Supplemental Information Report, and responses to comments on the Draft EIS and Supplemental Information Report. The Final EIS includes written responses to all public comments on both the Draft EIS and Supplemental Information Report. It also identifies the Participants' Proposed Action as Reclamation's preferred alternative.

DATES: Reclamation will not make a decision on the proposed action until at least 30 days after the release of the Final EIS. After the 30-day waiting period, Reclamation will complete a Record of Decision (ROD). The ROD will indicate the action selected for implementation and will discuss factors

and rationale used in making the decision.

ADDRESSES: Ms. Kara Lamb, Bureau of Reclamation, Eastern Colorado Area Office, 11056 W. The Draft EIS, Supplemental Information Report, and Final EIS, are also available on the project Web site at: <http://www.sdseis.com>.

SUPPLEMENTARY INFORMATION: The Final EIS considers six action alternatives and a no action alternative:

- The No Action Alternative represents the most likely future water development project in the absence of a major Reclamation action.
 - The Participants' Proposed Action represents the Southern Delivery System project as the Participants propose to construct and operate it.
 - The Wetland Alternative was developed to minimize the wetland acres disturbed.
 - The Arkansas River Alternative was developed to provide both the highest minimum flow in the Arkansas River through Pueblo and minimize water quality effects on the lower Arkansas River.
 - The Fountain Creek Alternative was developed to minimize geomorphic and water quality effects on Fountain Creek by minimizing the use of Fountain Creek for receiving and conveying reusable return flows on the Arkansas River.
 - The Downstream Intake Alternative would use an untreated water intake from the Arkansas River downstream of Fountain Creek.
 - The Highway 115 Alternative would convey untreated water through a pipeline that generally follows Colorado 115 between the Arkansas River and Colorado Springs.

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701-TA-459 and 731-TA-1155 (Preliminary)]

Commodity Matchbooks from India; Determinations

On the basis of the record¹ developed in the subject investigations, the United States International Trade Commission (Commission) determines, pursuant to section 703(a) of the Tariff Act of 1930 (19 U.S.C. 1671b(a)) (the Act), that there

¹ The record is defined in sec. 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(f)).

is a reasonable indication that an industry in the United States is injured by reason of imports from India of commodity matchbooks, provided for in subheading 3605.00.00 of the Harmonized Tariff Schedule of the United States, that are alleged to be subsidized by the Government of India. The Commission further determines, pursuant to section 733(a) of the Act (19 U.S.C. 1673b(a)), that there is a reasonable indication that an industry in the United States is injured by reason of imports from India of commodity matchbooks, that are alleged to be sold in the United States at less than fair value (LTFV).

Commencement of Final Phase Investigations

Pursuant to section 207.18 of the Commission's rules, the Commission also gives notice of the commencement of the final phase of its investigations. The Commission will issue a final phase notice of scheduling, which will be published in the **Federal Register** as provided in section 207.21 of the Commission's rules, upon notice from the Department of Commerce (Commerce) of affirmative preliminary determinations in the investigations under section 703(b) and section 733(b) of the Act, or, if the preliminary determinations are negative, upon notice of affirmative final determinations in those investigations under section 705(a) and section 735(a) of the Act. Parties that filed entries of appearance in the preliminary phase of the investigations need not enter a separate appearance for the final phase of the investigations. Industrial users and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigations.

Background

On October 29, 2008, a petition was filed with the Commission and Commerce by D.D. Bean & Sons Co., alleging that an industry in the United States is materially injured or threatened with material injury by reason of subsidized imports of commodity matchbooks from India, and by reason of LTFV imports from India. Accordingly, effective October 29, 2008, the Commission instituted countervailing duty and antidumping duty investigation Nos. 701-TA-459 and 731-TA-1155 (Preliminary).
