This document does not contain information collection requirements subject to the Paperwork Reduction Act of 1995, Public Law 104-13. In addition, therefore, it does not contain any information collection burden "for small business concerns with fewer than 25 employees," pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107-198, see 44 U.S.C. 3506(c)(4). Provisions of the Regulatory Flexibility Act of 1980 do not apply to this proceeding.

The Commission will send a copy of this *Report and Order* in a report to be sent to Congress and the Government Accountability Office pursuant to the Congressional review Act, see 5 U.S.C. 801(a)(1)(A).

List of Subjects in 47 CFR Part 73

Television, Television broadcasting.

■ For the reasons discussed in the preamble, the Federal Communications Commission amends 47 CFR part 73 as follows:

PART 73—RADIO BROADCAST SERVICES

■ 1. The authority citation for part 73 continues to read as follows:

Authority: 47 U.S.C. 154, 303, 334, 336.

§ 73.622 [Amended]

■ 2. Section 73.622(i), the Post-Transition Table of DTV Allotments under Nebraska, is amended by adding DTV channel 13 and removing DTV channel 36 at Kearney.

Federal Communications Commission.

Clay C. Pendarvis,

Associate Chief, Video Division, Media Bureau.

[Docket No. 2001-11213, Notice No. 12]

RIN 2130-AA81

Alcohol and Drug Testing: Determination of Minimum Random Testing Rates for 2009

AGENCY: Federal Railroad Administration (FRA), DOT.

ACTION: Notice of Determination.

SUMMARY: Using data from Management Information System annual reports, FRA has determined that the 2007 rail industry random testing positive rates were 0.56 percent for drugs and 0.18 percent for alcohol. Because the industry-wide random drug testing positive rate has remained below 1.0 percent for the last two years, the Federal Railroad Administrator (Administrator) has determined that the minimum annual random drug testing rate for the period January 1, 2009, through December 31, 2009, will remain at 25 percent of covered railroad employees. In addition, because the industry-wide random alcohol testing violation rate has remained below 0.5 percent for the last two years, the Administrator has determined that the minimum random alcohol testing rate will remain at 10 percent of covered railroad employees for the period January 1, 2009, through December 31, 2009.

DATES: This notice is effective upon publication.

FOR FURTHER INFORMATION CONTACT:

Lamar Allen, Alcohol and Drug Program Manager, Office of Safety Enforcement, Mail Stop 25, Federal Railroad Administration, 1200 New Jersey Avenue, SE., Washington, DC 20590, (telephone 202 493-6313); or Kathy Schnakenberg, FRA Alcohol/Drug Program Specialist, (telephone 816 561-2714).

SUPPLEMENTARY INFORMATION:

Administrator's Determination of 2008 Minimum Random Drug and Alcohol Testing Rates

In a final rule published on December 2, 1994 (59 FR 62218), FRA announced that it will set future minimum random drug and alcohol testing rates according to the rail industry's overall positive rate, which is determined using annual railroad drug and alcohol program data taken from FRA's Management Information System. Based on this data, the Administrator publishes a **Federal**

Register notice each year, announcing the minimum random drug and alcohol testing rates for the following year. See 49 CFR 219.602, 608.

Under this performance-based system, FRA may lower the minimum random drug testing rate to 25 percent of covered railroad employees whenever the industry-wide random drug positive rate is less than 1.0 percent for two calendar years while testing at a 50 percent minimum rate. For both drugs and alcohol, FRA reserves the right to consider other factors, such as the number of positives in its post-accident testing program, before deciding whether to lower annual minimum random testing rates. If the industry-wide random drug positive rate is 1.0 percent or higher in any subsequent calendar year, FRA will return the minimum random drug testing rate to 50 percent of covered railroad employees.

If the industry-wide random alcohol violation rate is less than 1.0 percent but greater than 0.5 percent, the minimum random alcohol testing rate will be 25 percent of covered railroad employees. FRA will raise the minimum random rate to 50 percent of covered railroad employees if the industry-wide random alcohol violation rate is 1.0 percent or higher in any subsequent calendar year. FRA may lower the minimum random alcohol testing rate to 10 percent of covered railroad employees whenever the industry-wide violation rate is less than 0.5 percent for two calendar years while testing at a higher rate.

In this notice, FRA announces that the minimum random drug testing rate will remain at 25 percent of covered railroad employees for the period January 1, 2009, through December 31, 2009, because the industry random drug testing positive rate was below 1.0 percent for the last two years (.056 in 2007 and .060 in 2006). The minimum random alcohol testing rate will remain at 10 percent of covered railroad employees for the period January 1, 2009, through December 31, 2009, because the industry-wide violation rate for alcohol has remained below 0.5 percent for the last two years (.018 in 2007 and .013 in 2006). Railroads remain free, as always, to conduct random testing at higher rates.

Issued in Washington, DC on December 18, 2008.

Clifford C. Eby,
Administrator.
