

status), exhaust systems, hinges, torque converters, pneumatic dampeners, speedometers, tachometers, voltmeters, flow meters, regulators/controllers, windshields, glass windows, resistors, relays, starters, electrical components, clocks, spark plugs, and switches (duty rate range: free 9.0%).

FTZ procedures could exempt KMMG from customs duty payments on foreign components used in export production (estimated to be 10% of plant shipments). On its domestic sales, KMMG would be able to choose the duty rate that applies to finished passenger vehicles (2.5%) for the foreign inputs noted above that have higher rates. Certain logistical/supply chain management savings would also be realized through FTZ procedures. Customs duties also could possibly be deferred or reduced on foreign status production equipment. The application indicates that the savings from FTZ procedures would help improve the facility's international competitiveness.

In accordance with the Board's regulations, Pierre Duy of the FTZ Staff is designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the following address: Office of the Executive Secretary, Room 2111, U.S. Department of Commerce, 1401 Constitution Avenue, NW, Washington, DC 20230-0002. The closing period for receipt of comments is February 23, 2009. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to March 9, 2009.

A copy of the application and accompanying exhibits will be available for public inspection at each of the following locations: U.S. Department of Commerce Export Assistance Center, 75 Fifth Street, N.W., Suite 1055, Atlanta, Georgia 30308; and, Office of the Executive Secretary, Foreign-Trade Zones Board, Room 2111, U.S. Department of Commerce, 1401 Constitution Avenue, NW, Washington, DC 20230-0002. Notice of Allocation of Tariff Rate Quotas (TRQ) on the Import of Certain Worsted Wool Fabrics for Calendar Year 2009

AGENCY: Department of Commerce, International Trade Administration.

ACTION: Notice of allocation of 2009 worsted wool fabric tariff rate quota.

SUMMARY: The Department of Commerce (Department) has determined the allocation for Calendar Year 2009 of imports of certain worsted wool fabrics under tariff rate quotas established by Title V of the Trade and Development Act of 2000 (Public Law No. 106-200), as amended by the Trade Act of 2002 (Public Law 107-210) and the Miscellaneous Trade Act of 2004 (Public Law 108-249), and the Pension Protection Act of 2006 (Public Law 109-280). The companies that are being provided an allocation are listed below.

FOR FURTHER INFORMATION CONTACT: Robert Carrigg, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-2573.

SUPPLEMENTARY INFORMATION:

BACKGROUND:

Title V of the Trade and Development Act of 2000 as amended by the Trade Act of 2002, the Miscellaneous Trade Act of 2004 and the Pension Protection Act of 2006, creates two tariff rate quotas, providing for temporary reductions in the import duties on two categories of worsted wool fabrics suitable for use in making suits, suit-type jackets, or trousers. For worsted wool fabric with average fiber diameters greater than 18.5 microns (Harmonized Tariff Schedule of the United States (HTSUS) heading 9902.51.11), the reduction in duty is limited to 5,500,000 square meters in 2009. For worsted wool fabric with average fiber diameters of 18.5 microns or less (HTSUS heading 9902.51.15), the reduction is limited to 5,000,000 square meters in 2009. The Miscellaneous Trade Act of 2004 requires the President to ensure that

such fabrics are fairly allocated to persons (including firms, corporations, or other legal entities) who cut and sew men's and boys' worsted wool suits and suit-like jackets and trousers in the United States and who apply for an allocation based on the amount of such suits cut and sewn during the prior calendar year. Presidential Proclamation 7383, of December 1, 2000, authorized the Secretary of Commerce to allocate the quantity of worsted wool fabric imports under the tariff rate quotas.

The Miscellaneous Trade Act also authorized Commerce to allocate a new HTS category, HTS 9902.51.16. This HTS refers to worsted wool fabric with average fiber diameter of 18.5 microns or less. The amendment further provides that HTS 9902.51.16 is for the benefit of persons (including firms, corporations, or other legal entities) who weave worsted wool fabric in the United States. For HTS 9902.51.16, the reduction in duty is limited to 2,000,000 square meters in 2009.

On January 22, 2001 the Department published interim regulations establishing procedures for applying for, and determining, such allocations (66 FR6459, 15 CFR 335). These interim regulations were adopted, without change, as a final rule published on October 24, 2005 (70 FR 61363). On September 4, 2008, the Department published a notice in the Federal Register (73 FR 51630) soliciting applications for an allocation of the 2009 tariff rate quotas with a closing date of October 6, 2008. The Department received timely applications for the HTS 9902.51.11 tariff rate quota from 8 firms. The Department received timely applications for the HTS 9902.51.15 tariff rate quota from 12 firms. The Department received timely applications for the HTS 9902.51.16 tariff rate quota from 1 firm. All applicants were determined eligible for an allocation. Most applicants submitted data on a business confidential basis. As allocations to firms were determined on the basis of this data, the Department considers individual firm allocations to be business confidential.

Certain Welded Stainless Steel Pipes from the Republic of Korea: Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) is conducting an administrative review of the antidumping duty order on certain welded stainless steel pipes (WSSP) from the Republic of Korea (Korea) for the period of review (POR) December 1, 2006 through November 30, 2007. The review covers one respondent, SeAH Steel Corporation (SeAH).

The Department preliminarily determines that SeAH made sales to the United States at less than normal value (NV). If these preliminary results are adopted in the final results of this administrative review, we will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties on entries of SeAH's merchandise during the POR. The preliminary results are listed below in the section titled "Preliminary Results of Review."
