## Disclosure

We will disclose the calculations performed within five days of the date of publication of this notice to parties in this proceeding in accordance with 19 CFR 351.224(b).

## Continuation of Suspension of Liquidation

We will instruct U.S. Customs and Border Protection ("CBP") to continue the suspension of liquidation required by section 735(c)(1)(B) of the Act, of all entries of subject merchandise from Foshan Jingxin, the SR Applicants and the PRC-wide entity entered, or withdrawn from warehouse, for consumption on or after August 6, 2008, the date of publication of the *Preliminary Determination*. CBP shall continue to require a cash deposit or the posting of a bond equal to the estimated amount by which the NV exceeds the U.S. price as shown above. See section 735(c)(1)(B)(ii) of the Act. The suspension of liquidation instructions will remain in effect until further notice.

## International Trade Commission Notification

In accordance with section 735(d) of the Act, we have notified the International Trade Commission ("ITC") of our final determination of sales at LTFV. As our final determination is affirmative, in accordance with section 735(b)(2) of the Act, within 45 days the ITC will determine whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports or sales (or the likelihood of sales) for importation of the subject merchandise. If the ITC determines that material injury or threat of material injury does not exist, the proceeding will be terminated and all securities posted will be refunded or canceled. If the ITC determines that such injury does exist, the Department will issue an antidumping duty order directing CBP to assess, upon further instruction by the Department, antidumping duties on all imports of the subject merchandise entered, or withdrawn from warehouse,

for consumption on or after the effective date of the suspension of liquidation.

## Notification Regarding APO

This notice also serves as a reminder to the parties subject to administrative protective order ("APO") of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This determination is issued and published in accordance with sections 735(d) and 777(i)(1) of the Act.

Dated: December 19, 2008.

**David M. Spooner,**  
Assistant Secretary for Import Administration.

## Appendix

Comment 1: Application of Facts

- Available for  
A. Unreported Affiliate.  
B. Unreported Factors of Production.

Comment 2: *Bona Fide* Analysis of Foshan Jingxin's Sales.

Comment 3: Surrogate Financial Ratios.

Comment 4: Calculation of the Scrap Surrogate Value.

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

#### Proposed Information Collection; Comment Request; Southeast Region Gulf of Mexico Electronic Logbook Program

**AGENCY:** National Oceanic and Atmospheric Administration (NOAA).  
**ACTION:** Notice.

**SUMMARY:** The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general

public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

**DATES:** Written comments must be submitted on or before February 27, 2009.

**ADDRESSES:** Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 7845, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at [dHynek@doc.gov](mailto:dHynek@doc.gov)).

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the information collection instrument and instructions should be directed to Jason Rueter, (727) 824-5350 or [Jason.Rueter@noaa.gov](mailto:Jason.Rueter@noaa.gov).

#### SUPPLEMENTARY INFORMATION:

#### I. Abstract

The Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) authorizes the Gulf of Mexico Fishery Management Council (Council) to prepare and amend fishery management plans for any fishery in waters under its jurisdiction. National Marine Fisheries Service (NMFS) manages the shrimp fishery in the waters of the Gulf of Mexico under the Shrimp Fishery Management Plan (FMP). Regulations implementing the FMP appear at 50 CFR part 680: regulations at 50 CFR part 697 and subpart H of 50 CFR part 600 also pertain. The corresponding regulations established a mandatory electronic logbook (ELB) program, collecting location and fishing effort data, in addition to the standard logbooks completed by the fishermen (OMB Control No. 0648-0016).

There are currently approximately 2,500 permitted vessels that harvest shrimp from the Exclusive Economic Zone (EEZ), and the Council estimates that there are over 13,000 boats that fish in state waters. With such a large number of vessels of differing sizes, gears used, and fishing capabilities compounded by seasonal variability in abundance and price and the broad

geographic distribution of the fleet, it is practically impossible to estimate the actual amount of fishing effort using current methods and data. The only practical way of improving the estimates of the amount and type of bycatch is by having a more precise means of estimating effort as the ELB provides.

The currently approved reporting requirements are being renewed without change.

## II. Method of Collection

The electronic logbook autonomously collects effort data and is downloaded by NMFS personnel every 2–3 months. The electronic logbook will be removed from the vessel and downloaded at NMFS lab in Galveston, Texas. A new logbook will replace the removed logbook, a process taking less than one minute.

## III. Data

*OMB Control Number:* 0648–0543.

*Form Number:* None.

*Type of Review:* Regular submission.

*Affected Public:* Business or other for-profit organizations.

*Estimated Number of Respondents:* 250.

*Estimated Time per Response:* ELB installation, 30 minutes; ELB removal 1 minute.

*Estimated Total Annual Burden Hours:* 150.

*Estimated Total Annual Cost to Public:* \$0.

## IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: December 19, 2008.

**Glenna Mickelson,**

*Management Analyst, Office of the Chief Information Officer.*

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

[Docket No. 0809261277–81614–02; I.D. GF001]

#### Cooperative Institute for Satellite Climate Studies

**AGENCY:** National Environmental Satellite Data and Information Service Program Office (NESDISPO), National Environmental Satellite Data and Information Service (NESDIS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of rescission and of revised funding availability.

**SUMMARY:** On October 7, 2008, the National Environmental Satellite Data and Information Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce (hereinafter, “NESDIS”) published a notice of availability of funds (Docket No. 0809261277–81278–01, I.D. GF001) to establish a NOAA Cooperative Institute for Satellite Climate Studies (73 FR 58560). That notice is hereby rescinded and is replaced with the following revised notice of funding availability.

NESDIS invites applications for a Cooperative Institute (CI) that will focus on (1) climate and satellite research and applications, (2) climate and satellite observations and monitoring, and (3) climate research and modeling. Through this competition, NOAA intends to establish competitively a new CI according to the policy and procedures described in NOAA Administrative Order 216–107 and the Cooperative Institute Interim Handbook both available at [www.nrc.noaa.gov/ci](http://www.nrc.noaa.gov/ci). The proposed CI should be composed of two or more member institutions (e.g., multiple universities). At least one research institution should be in Maryland, Washington DC or the adjacent states (Delaware, Pennsylvania, West Virginia and Virginia). At least one research institution should be in North Carolina or the bordering states (Tennessee, South Carolina and Georgia) and have a presence in Asheville, North Carolina. NOAA has identified three research themes that will address specific needs within the NOAA Mission Support Satellite Service program and the NOAA Climate Goal that would benefit from collaborations with the CI. The CI should possess outstanding capabilities to work in the three research themes summarized below, as well as possess the capability to conduct outreach and education

activities in support of these research themes. I. Climate and Satellite Research and Applications: Research conducted under this theme is associated with the development of new and innovative uses of non-NOAA satellite assets that can ultimately be transitioned into NOAA operations to support climate information needs. This theme also includes performing research and development aimed at improving the utilization of a long time series of satellite measurements that will offer NOAA scientists a homogeneous record of satellite radiances. II. Climate and Satellite Observations and Monitoring: Research conducted under this theme involves (1) designing indices and applications that incorporate satellite observations to detect, monitor and investigate climatic changes and their impacts on coastal and open ocean ecosystems, (2) identifying and meeting the satellite climate needs of a wide variety of users, including research, business and industry, and government and private sector users, and (3) contributing significantly to climate reanalysis projects when satellite data is a key input. III. Climate Research and Modeling: Research conducted under this theme is focused on improving climate forecasts on mesoscale, regional and global scales when satellite data is a key input, and developing regional ecosystem models that can incorporate satellite observations to predict the impact of climate change on these ecosystems, particularly those located in the Mid-Atlantic region. The CI is also expected to play a significant role in National Centers for Environmental Prediction (NCEP) Climate Test Bed projects when satellite data is a key input. This announcement provides requirements for the proposed CI and includes details for the technical program, evaluation criteria, and competitive selection procedures. Applicants should review the NOAA Administrative Order 216–107 and CI Interim Handbook prior to preparing a proposal for this announcement.

**DATES:** Proposals must be received by NESDIS no later than February 3, 2009, 5 p.m., E.T. Proposals submitted after that date will not be considered.

**ADDRESSES:** The standard application package is available at <http://www.grants.gov>. For applicants without Internet access, an application package may be requested from Ingrid Guch, NOAA/NESDIS, 5200 Auth Road, Room 701, Camp Springs, Maryland 20746. Applicants are strongly encouraged to apply online through the Grants.gov Web site. Paper submissions are acceptable only if Internet access is not
