**SUPPLEMENTARY INFORMATION:**

**I. General Information**

Pursuant to the E-Government Act of 2002, Pub. L. 107-347, in January 2003, the interagency eRulemaking Program launched <http://www.regulations.gov> (the Federal eRulemaking Portal) to provide citizens with an online portal to learn about proposed regulations and to submit comments. The Commission receives comments through five distinct methods, including the Federal eRulemaking Portal.

During the time from March 22, 2008 through September 8, 2008, the Federal eRulemaking Portal experienced a software problem resulting in the non-transmittal of some public comments. The software error affected only a few federal agencies. The eRulemaking Program informed the Commission that one comment regarding CME and CBOT's requested 4(c) exemption to permit clearing of OTC corn basis swaps and corn, wheat, and soybean calendar swaps was not transmitted from the eRulemaking Portal to the Commission. The eRulemaking Program was unable to provide any information regarding the identity of the commenter or nature of the lost comment. It is the Commission's understanding that the transmission problem has been corrected, and safeguards are now in place to ensure this error will not occur in the future. This software problem affected none of the other methods by

which the Commission accepts comments.

**II. Specific Information**

The Commission is reopening the period for public comment specifically to afford the commenter, whose submission was not received, the opportunity to resubmit the comment. In addition, any other member of the public may submit a comment during the reopened comment period. The original notice of request for public comment was published on July 7, 2008, and the comment period closed on August 21, 2008. Please refer to 73 FR 38403 (July 7, 2008) for the original notice and refer to the Commission Web site (<http://www.cftc.gov>) to view the exemption request and comments submitted and received as of the publication of this notice.

Issued in Washington, DC, on December 24, 2008 by the Commission.

Respondents are employers who make available non-contributory TRICARE supplemental insurance plan to their employees. This new paperwork requirement is consistent with section 707 of the John Warner National Defense Authorization Act for Fiscal Year 2007 which added Section 1097c to Title 10. Per Section 1097c, employers may no longer offer TRICARE supplemental insurance plans as part of an employee benefit package. They may offer TRICARE supplemental insurance plans, however, provided the plan is not paid for in whole or in part by the employer and is not endorsed by the employer. When such TRICARE supplemental plans are offered, the employer must properly document that they did not provide any payment for the benefit nor receive any direct or indirect consideration or compensation for offering the benefit; the employer's only involvement is providing the administrative support. One certification must be completed per employer. It should be kept on file by the employer for as long as such plans are offered. The employer will provide the certification to the Department of Defense upon request.
