application, or, if the applicant is approved to the VPP, subsequent cessation of active participation in the VPP.

b. Upon approval, VPP participants will continue to be removed from OSHA inspection lists for the duration of

approved participation.

c. Removal from OSHA programmed inspection lists does not apply to a corporate headquarters or DGA headquarters unless these locations have applied or been approved for sitebased participation.

### 2. Unprogrammed Inspections

a. Workplace complaints to OSHA, all fatalities and catastrophes, and other significant events will be handled by enforcement personnel in accordance with normal OSHA enforcement procedures.

b. The history of the VPP demonstrates that safety and health problems discovered during any contact with VPP participants normally are resolved cooperatively. Nevertheless, OSHA must reserve the right, where employees' safety and health are seriously endangered and management refuses to correct the situation, to refer the situation to the Assistant Secretary for review and enforcement action. The employer will be informed that a

referral will be made to the Assistant Secretary and that enforcement action may result.

### 3. Additional VPP Investigations

a. Following significant events, e.g., fatalities, chemical spills or leaks, or other accidents, OSHA may choose to use VPP personnel to conduct an onsite review to determine a participant's continued eligibility for VPP.

b. OSHA also may choose to investigate other significant accidents or events that come to its attention and that are not required to be handled with normal OSHA enforcement procedures, whether or not injury/illness is involved. OSHA will use VPP personnel to determine whether the accident or incident reflects a serious deficiency in the participant's safety and health management system that warrants reevaluation of the participant's VPP qualification.

## NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

### National Endowment for the Arts; Proposed Collection; Comment Request

**ACTION:** Notice.

**SUMMARY:** The National Endowment for the Arts (NEA), as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the NEA is soliciting comments concerning the proposed information collection to evaluate methods of assessing student learning arts education programs. A copy of the current information collection request can be obtained by contacting the office listed below in the ADDRESSES section of this notice.

**DATES:** Written comments must be submitted to the office listed in the address section below on or before March 5, 2009. The NEA is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other

technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Description: The National Endowment for the Arts plans to conduct a study of outdoor arts festivals in the United States. There currently is no single. comprehensive research publication or database that describes the range and/or impact of arts festivals in this country. The study proposed here is a twopronged research effort to describe the U.S. outdoor festival community among other characteristics, its number, types, financing, staffing, regional distribution, and artist employment patterns. The first prong of the study is a national on-line survey of the universe of outdoor arts festivals, and the second is a series of seven case studies of festivals involving site visits, audience surveys, interviews with festival administrators, focus groups of artists, and focus groups of volunteers. Festivals in the study may be one-day or season-long programs, multidisciplinary or discipline-specific, and funded by non-profit or for-profit organizations. The activities include collecting uniform data from festival organizers while still keeping data collection burdens to a minimum.
