

sewer overflows (“CSOs”) violate the Clean Water Act because the City’s discharge of untreated sewage into the Ohio River violates limitations and conditions in the City’s National Pollutant Discharge Elimination System (NPDES) permit. The Complaint further alleges that the City failed to adequately control for solids and floatables as well as failed to timely submit a control plan to address its CSO discharge.

Under the proposed Consent Decree, the City would be required to: (1) Implement injunctive measures that will eliminate all discharges from its CSOs, at a total cost of approximately \$12.5 million; (2) pay the United States a civil penalty of \$49,000; and (3) pay the State of Ohio a civil penalty of \$49,000. The proposed Decree would require the sewer improvements to be implemented over an 18-year period.
