Direct Investment Surveys: BE-11, Annual Survey of U.S. Direct Investment Abroad

AGENCY: Bureau of Economic Analysis, Commerce.

ACTION: Final rule.

SUMMARY: This final rule amends regulations of the Bureau of Economic Analysis, Department of Commerce (BEA) to change the reporting requirements for the BE-11, Annual Survey of U.S. Direct Investment Abroad. The BE-11 survey is conducted annually and is a sample survey that obtains financial and operating data covering the overall operations of U.S. parent companies and their foreign affiliates. BEA is making changes in the reporting criteria that will raise the thresholds for reporting on the survey.

DATES: This final rule will be effective February 12, 2009.

FOR FURTHER INFORMATION CONTACT:

David H. Galler, Chief, Direct Investment Division (BE-50), Bureau of Economic Analysis, U.S. Department of Commerce, Washington, DC 20230; phone (202) 606-9835 or e-mail (david.galler@bea.gov).

SUPPLEMENTARY INFORMATION: In the September 11, 2008, **Federal Register**, 73 FR 52802-52804, BEA published a notice of proposed rulemaking setting forth revised reporting criteria for the BE-11, Annual Survey of U.S. Direct Investment Abroad. No comments on the proposed rule were received. Thus,

the proposed rule is adopted without change. This final rule amends 15 CFR 806.14 to set forth the reporting requirements for the BE-11, Annual Survey of U.S. Direct Investment Abroad.

Description of Changes

The BE-11 survey is a mandatory survey and is conducted annually by BEA under the International Investment and Trade in Services Survey Act (22 U.S.C. 3101-3108), hereinafter, "the Act." BEA will send the survey to potential respondents in March of each year; responses will be due by May 31.

This final rule changes the reporting criteria on the BE-11 annual survey as follows: (a) The threshold for reporting on the BE-11B(SF) short form and BE-11C form increases from \$40 million to \$60 million, and (b) the threshold for reporting on the BE-11B(LF) long form increases from \$150 million to \$225 million. Majority-owned nonbank affiliates with assets, sales or gross operating revenues, or net income (loss) over \$60 million but less than or equal to \$225 million will be filed on the BE-11B(SF) short form; majority-owned nonbank affiliates with assets, sales or gross operating revenues, or net income (loss) over \$225 million will be filed on the BE-11B(LF) long form. Minority-owned nonbank affiliates with assets, sales or gross operating revenues, or net income (loss) over \$60 million will be filed on the BE-11C form. Two reporting thresholds remain unchanged—the threshold for reporting on Form BE-11B(FN) remains at \$250 million and the threshold for reporting only selected items on Form BE-11A remains at \$150 million.

Survey Background

The Bureau of Economic Analysis (BEA), U.S. Department of Commerce, conducts the BE-11 survey under the authority of the International Investment and Trade in Services Survey Act (22 U.S.C. 3101-3108), hereinafter, "the Act." Section 4(a) of the Act requires that the President shall, to the extent he deems necessary and feasible, conduct a regular data collection program to secure current information on international financial flows and other information related to international investment and trade in services, including (but not limited to) such information as may be necessary for computing and analyzing the United States balance of payments, the employment and taxes of United States parents and affiliates, and the international investment and trade in services position of the United States.

In Section 3 of Executive Order 11961, as amended by Executive Orders 12318 and 12518, the President delegated the responsibility for performing functions under the Act concerning direct investment to the Secretary of Commerce, who has re-delegated it to BEA. The annual survey of U.S. direct investment abroad is a sample survey that collects information on a variety of measures of the overall operations of U.S. parent companies and their foreign affiliates, including total assets, sales, net income, employment and employee compensation, research and development expenditures, and exports and imports of goods. The sample data are used to derive universe estimates in nonbenchmark years from similar data reported in the BE-10, Benchmark Survey of U.S. Direct Investment Abroad, which is taken every five years. The data are needed to measure the size and economic significance of direct investment abroad, measure changes in such investment, and assess its impact on the U.S. and foreign economies. The data are disaggregated by country and industry of the foreign affiliate and by industry of the U.S. parent.

Executive Order 12866

This final rule has been determined to be not significant for purposes of E.O. 12866.

Executive Order 13132

This final rule does not contain policies with Federalism implications sufficient to warrant preparation of a Federalism assessment under E.O. 13132.

Paperwork Reduction Act

The collection-of-information in this final rule was submitted to the Office of Management and Budget (OMB) for review and approval under the Paperwork Reduction Act (PRA). OMB approved the information collection under control number 0608-0053. Notwithstanding any other provisions of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection-of-information subject to the requirements of the Paperwork Reduction Act unless that collection displays a currently valid OMB control number.

The BE-11 survey is expected to result in the filing of reports from approximately 1,550 respondents. The respondent burden for this collection of information will vary from one company to another, but is estimated to average 99.3 hours per response, including time for reviewing

instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Thus the total respondent burden of the survey is estimated at 153,850 hours (1,550 respondents times 99.3 hours average burden). Although the amendments to the reporting rules lower respondent burden, the total estimated burden hours are higher than the currently estimated hours of 122,900 for this survey in the OMB inventory, due to growth in the number and size of U.S. parent companies and foreign affiliates since the survey was last cleared.

Written comments regarding the burden-hour estimates or any other aspect of the information-of-collection requirements contained in the final rule should be sent to (1) the Bureau of Economic Analysis via mail to U.S. Department of Commerce, Bureau of Economic Analysis, Office of the Chief, Direct Investment Division, BE-50, Washington, DC 20230; via e-mail at David.Galler@bea.gov; or by FAX at 202-606-5311 and (2) the Office of Management and Budget, O.I.R.A., Paperwork Reduction Project 0608-0053, Attention PRA Desk Officer for BEA, via e-mail at pbugg@omb.eop.gov, or by FAX at 202-395-7245.

Regulatory Flexibility Act

The Chief Counsel for Regulation, Department of Commerce, has certified to the Chief Counsel for Advocacy, Small Business Administration, under the provisions of the Regulatory Flexibility Act (5 U.S.C. 605(b)), that this rule will not have a significant economic impact on a substantial number of small entities. The factual basis for the certification was published in the proposed rule and is not repeated here. No comments were received regarding the economic impact of the rule. As a result, no final regulatory flexibility analysis was prepared.

[EPA-R10-OAR-2007-0110; FRL-8760-8]

Approval and Promulgation of Implementation Plans; Washington; Interstate Transport of Pollution

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is approving the action of the Washington State Department of Ecology (Ecology) to address the provisions of Clean Air Act (CAA) section 110(a)(2)(D)(i) for the 8-hour ozone and PM_{2.5} National Ambient Air Quality Standards (NAAQS). CAA section 110(a)(2)(D)(i) requires each state to submit a State Implementation Plan (SIP) revision that prohibits emissions that adversely affect another state's air quality through interstate transport. EPA received no comments on its proposal to approve Ecology's SIP revision addressing these provisions. Therefore, EPA is finalizing its proposed approval of this revision for the State of Washington. Because EPA received adverse comments on its proposal to approve the SIP revision from the Idaho Department of Environmental Quality (IDEQ), EPA is not taking final action on the proposed approval for the State of Idaho at this time and will address those comments and take final action on IDEQ's submittal at a later date.

DATES: This action is effective on February 12, 2009.
