

regulations, and policies. To help address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have atypical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticide(s) discussed in this document, compared to the general population.

II. What Action is the Agency Taking?

Under Section 5 of the FIFRA, 7 U.S.C. 136c, EPA can allow manufacturers to field test pesticides under development. Manufacturers are required to obtain an EUP before testing new pesticides or new uses of pesticides if they conduct experimental field tests on 10 acres or more of land or one acre or more of water.

Pursuant to 40 CFR 172.11(a), the Agency has determined that the following EUP application may be of regional and national significance, and therefore is seeking public comment on the EUP application:

Submitter: MacIntosh and Associates, Incorporated on behalf of Pasteuria Bioscience, Incorporated; (85004-EUP-R).

Pesticide chemical: *Pasteuria usgae*.
Summary of request: MacIntosh and Associates, Incorporated, 1203 Hartford Avenue, Saint Paul, MN 55116-1622, on behalf of Pasteuria Bioscience, Incorporated, 12085 Research Drive, Suite 185, Alachua, FL 32615, is requesting an EUP to apply *Pasteuria usgae* on strawberries and turf grasses on 385 acres in certain Florida, Alabama, Georgia, Mississippi, and North Carolina counties. The total quantity of product proposed for use with this EUP is 59,675 pounds of formulated product or 3,273 pounds of active ingredient. This microbial nematicide, *Pasteuria usgae*, currently has pending FIFRA section 3 registrations for a manufacturing-use product and an end-use product. The proposed shipment/use dates for the EUP are September 1, 2009 through August 31, 2010 and the trial protocols include efficacy of *Pasteuria usgae* to control sting nematode (*Belonolaimus longicaudatus*) and agronomic observation. The registrant has concurrently requested a temporary exemption from the requirement of a tolerance for the proposed EUP on strawberries.

A copy of the application and any information submitted is available for public review in the docket established for this EUP application as described under **ADDRESSES**.

Following the review of the application and any comments and data received in response to this solicitation, EPA will decide whether to issue or deny the EUP request, and if issued, the conditions under which it is to be conducted. Any issuance of an EUP will be announced in the **Federal Register**.
