

MichCon requests approval of its proposed rates as being fair and equitable on the basis of a showing that it lacks market power and that competitive forces will constrain the rates it charges.

MichCon states that it is a Hinshaw pipeline, within the meaning of Section 1(c) of the Natural Gas Act, and that it has been granted an Order No. 63 blanket certificate to provide interstate transportation and storage services. MichCon proposes to make its market-based rates effective as of December 23, 2008.

Any person desiring to participate in this rate proceeding must file a motion to intervene or to protest this filing in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the date as indicated below. Anyone filing an intervention or protest must serve a copy of that document on the Applicant. Anyone filing an intervention or protest on or before the intervention or protest date need not serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). *Needs and Uses:* On April 16, 2003, the FCC released a Report and Order and Memorandum Opinion and Order on Reconsideration, In the Matter of Remedial Steps for Failure to Comply with Digital Television Construction Schedule, MM Docket No. 02-113, FCC 03-77 ("R&O"). The Commission adopted a series of remedial measures for stations that fail to construct their digital television (DTV) facilities in a timely fashion and fail to justify an extension of their DTV construction deadline. Stations will be subject to periodic reporting requirements.

Under the first step, the Commission will deny the request for an unqualified extension and admonish the station for its failure to comply with its DTV construction obligation. The station must submit a report within thirty days outlining the steps it intends to take to complete construction and the approximate date that it expects to reach each of these construction milestones. Sixty days after its initial report, the station must submit a report detailing its progress on meeting its proposed construction milestones and justifying any delays it has encountered.

Under the second step in the approach, if the station has not come into compliance with the DTV construction rule within a six-month period, then, absent extraordinary and compelling circumstances, the Commission will issue a Notice of Apparent Liability for forfeiture to the licensee and require that the station report every thirty days on its proposed construction milestones and its efforts to meet those milestones. Once again, failure to adequately demonstrate that the station was taking all reasonable steps towards construction and to justify any additional delays that were encountered will result in the imposition of additional sanctions.

Under the third and final step in the approach, if the station still had failed to come into compliance with the DTV construction rule within an additional six-month period of time (i.e., one year from the date of the formal admonition), then, absent extraordinary and compelling circumstances, the Commission will consider its construction permit for its DTV facilities to have expired and will rescind the station's DTV authorization. The Commission concluded that no hearing was necessary prior to rescinding the

station's DTV authorization. The Commission also concluded that it would not make the station's vacant DTV allotment available. The Commission also announced that the station will be required to surrender its analog authorization at the end of the DTV transition.
