SUPPLEMENTARY INFORMATION:

EPA has submitted the following ICR to OMB for review and approval

according to the procedures prescribed in 5 CFR 1320.12. On June 18, 2008 (73 FR 34733), EPA sought comments on this renewal ICR pursuant to 5 CFR 1320.8(d). EPA received no comments during the comment period. Any additional comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a docket for this ICR under Docket ID No. EPA-HQ-OPPT-2008-0221, which is available for online viewing at <http://www.regulations.gov>, or in person at the OPPT Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is 202-566-1744, and the telephone number for the OPPT Docket is 202-566-0280. Use www.regulations.gov to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in www.regulations.gov as EPA receives them and without change, unless the comment contains copyrighted material, confidential business information (CBI), or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in www.regulations.gov. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in www.regulations.gov. For further information about the electronic docket, go to www.regulations.gov.

Title: Recordkeeping and Reporting Requirements for Allegations of Significant Adverse Reactions to Human Health or the Environment.

ICR Status: This ICR is currently scheduled to expire on January 31, 2009. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control

numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Section 8(c) of the Toxic Substances Control Act (TSCA) requires companies that manufacture, process, or distribute chemicals to maintain records of significant adverse reactions to health or the environment alleged to have been caused by such chemicals. Since section 8(c) includes no automatic reporting provision, EPA can obtain and use the information contained in company files only by inspecting those files or requiring reporting of records that relate to specific substances of concern. Therefore, under certain conditions, and using the provisions found in 40 CFR part 717, EPA may require companies to report such allegations to the Agency.

EPA uses such information on a case-specific basis to corroborate suspected adverse health or environmental effects of chemicals already under review by EPA. The information is also useful to identify trends of adverse effects across the industry that may not be apparent to any one chemical company.

Responses to the collection of information are mandatory (*see* 40 CFR part 717). Respondents may claim all or part of a notice confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to range between 1 minute and 8 hours per response, depending upon the nature of the response. Burden means the total time, effort or financial resources expended by persons to generate, maintain, retain or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of

information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Entities potentially affected by this action are companies that manufacture, process, import, or distribute in commerce chemical substances or mixtures.

Estimated No. of Potential Annual Respondents: 13,521.

Frequency of Collection: On occasion.

Estimated No. of Potential Annual Responses: 6,897.

Estimated average number of responses for each respondent: 0.43.

Estimated Total Annual Burden on Respondents: 23,536 hours.

Estimated Total Annual Costs: \$1,486,311.

Changes in Burden Estimates: There is a decrease of 1,012 hours (from 24,548 hours to 23,536 hours) in the total estimated annual respondent burden compared with that currently in the OMB inventory. This decrease primarily reflects EPA's current estimate of the number of employees in affected respondent companies. Because the allegation rate is based on the number of employees, the decrease in the estimated number of employees results in a decrease in total allegations, and thus a reduction in burden. This change is an adjustment.

Dated: January 13, 2009.

John Moses,

Acting Director, Collection Strategies Division.

Draft National Pollutant Discharge Elimination System (NPDES) General Permit for Discharges From Horse, Cattle and Dairy Concentrated Animal Feeding Operations (CAFOs) in New Mexico (Except Indian Country)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed permit issuance.

SUMMARY: EPA Region 6 Water Quality Protection Division, today is proposing

for public comment the issuance of a National Pollutant Discharge Elimination System general permit for discharges from eligible owners/operators of existing concentrated animal feeding operations (CAFOs), in New Mexico, except those discharges on Indian Country. All currently operating animal feeding operations that are defined as CAFOs or designated as CAFOs by the permitting authority (See Part VII Definitions, "CAFOs") and that are subject to 40 CFR Part 412, Subparts A (Horses) and C (Dairy Cows and Cattle Other than Veal Calves) are eligible for coverage under this permit. Hereinafter, this NPDES general permit will be referred to as "permit" or "CAFO permit" or "CAFO general permit." Eligible CAFOs may apply for authorization under the terms and conditions of this permit, by submitting a notice of intent (NOI) to be covered by this permit.

This permit covers the types of animal feeding operations listed above which meet the definition of a CAFO and discharge or propose to discharge pollutants to waters of the United States. A CAFO proposes to discharge if it is designed, constructed, operated, or maintained such that a discharge will occur.
