What Information is EPA Particularly Interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

What Should I Consider when I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Offer alternative ways to improve the collection activity.
6. Make sure to submit your comments by the deadline identified under **DATES**.
7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

What Information Collection Activity or ICR Does this Apply to?

Affected entities: Entities potentially affected by this action are business and other for-profit, as well as State, Local, and Tribal governments.

Title: Reporting Requirements Under EPA's National Partnership For Environmental Priorities.

ICR numbers: EPA ICR No. 2076.03, OMB Control No. 2050-0190.

ICR status: This ICR is currently scheduled to expire on May 31, 2009. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB

control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: EPA currently has an ongoing national program that, through source reduction, reuse, and recycling, encourages a reduction in use or the minimization of release of hazardous chemicals. Participation in the National Partnership for Environmental Priorities (NPEP) (previously the National Waste Minimization Partnership Program) is completely voluntary. Participation begins when the *Enrollment Form* is submitted and accepted by EPA. The form asks for basic site identification information as well as information on the company's chemical reduction goals under the program.

Once in the program, partners will also have an opportunity to complete and submit a *Success Story* when they have accomplished steps toward reaching the goal(s) established during their enrollment in the program. The *Success Story* also serves as the application for the NPEP Achievement Award. These Success Stories will be available on EPA's National Waste Minimization Program Web site. Each success story will describe a partner's waste minimization techniques, implementation problems, lessons learned, benefits, and relevant implications. These forms will enable the Agency to establish a partner's progress and the overall success of the program. They will also allow the Agency to recognize partner accomplishments in a formal manner, if appropriate (*e.g.*, at a recognition ceremony or by congratulatory letter).

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 16 hours per response for the Enrollment Form and 9 hours per response for the Success Stories. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 163.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: 1.

Estimated total annual burden hours: 642.

Estimated total annual costs: \$0. This includes an estimated burden cost of \$0 capital investment and \$0 maintenance and operational costs.

What is the Next Step in the Process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: January 9, 2009.

Director, Office of Solid Waste.
