

older” housing exemption as an affirmative defense to the complaint.

Agency form number(s), if applicable: None.

Members of affected public: The HOPA requires that small businesses and other small entities that operate housing intended for occupancy by persons 55 years of age or older must routinely collect and update reliable age verification information necessary to meet the eligibility criteria for the HOPA exemption. The record keeping requirements are the responsibility of the housing provider that seeks to qualify for the HOPA exemption.

Estimation of the total numbers of hours needed to prepare the information collection, including the number of respondents, frequency of response, and hours of response: The HOPA information collection requirements are the responsibility of the individual housing facility or community that claims eligibility for the HOPA’s “55 or older” housing exemption. The HOPA does not authorize HUD to require submission of this information by individual housing providers as a means of certifying that their housing communities or facilities qualify for the exemption. Further, since the HOPA has no mandatory registration requirement, HUD cannot ascertain the actual number of housing facilities and communities that are currently collecting this information with the intention of qualifying for the HOPA exemption. Accordingly, HUD has estimated that approximately 1,000 housing facilities or communities would seek to qualify for the HOPA exemption. HUD has estimated that the occupancy/age verification data would require routine updating with each new housing transaction within the facility or community, and that the number of such transactions per year might vary significantly depending on the size and nature of the facility or community. HUD also estimated the average number of housing transactions per year at ten (10) transactions per community. HUD concluded that the publication of policies and procedures is likely to be a one-time event and in most cases will require no additional burden beyond

what is done in the normal course of business. The estimated total annual burden hours are 5,500 hours.

Status of the proposed information collection: Extension of a currently approved collection.

Authority: Section 3506 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: January 15, 2009.

Deputy Assistant Secretary for Enforcement and Programs.

Manufactured Home Construction and Safety Standards Act Reporting Requirements

AGENCY: Office of the Chief Information Officer, HUD.

ACTION: Notice.

SUMMARY: The proposed information collection requirement described below has been submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposal.

The Federal Standards and Procedural Regulations require manufactured home producers to place labels and notices in and on manufactured homes and mandate State and Private agencies participating in the Federal program to

issue reports. These Standards will protect the HUD's interests by requiring certain features of design and construction. In addition, some information collected assists both HUD and State Agencies in locating manufactured homes with defects, which then would create the need for notification and/or correction by the manufacturer.
