Estimated Total Annual Cost: \$17,181,351, includes \$15,941,351 in Labor costs, \$1,240,000 in O&M costs, and zero capital/startup costs.

Changes in the Estimates: There is an adjustment increase in the total estimated burden as currently identified in the OMB Inventory of Approved Burdens. This increase is not due to any program changes. The increase in the labor hour burden estimates has occurred due to compliance with all of the provisions in the standard by the affected entities. The previous ICR only included burden associated with achieving compliance. In addition, compliance was achieved over several years.

There is an increase in operating and maintenance (O&M) costs associated with this ICR, as compared with the previous ICR. This is attributed to the fact that the affected entities have transitioned from initial compliance to continuing compliance.

Dated: January 15, 2009.

[EPA-HQ-OECA-2008-0428; FRL-8767-2]

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; NESHAP for Source Categories: Generic Maximum Achievable Control Technology Standards (Renewal), EPA ICR Number 1871.05, OMB Control Number 2060– 0420

AGENCY: Environmental Protection

Agency (EPA). **ACTION:** Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 et seq.), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR that is abstracted below describes the nature of the collection and the estimated burden and cost.

**DATES:** Additional comments may be submitted on or before February 25, 2009.

**ADDRESSES:** Submit your comments, referencing docket ID number EPA-HQ-

OECA-2008-0428, to: (1) EPA online using http://www.regulations.gov (our preferred method), or by e-mail to docket.oeca@epa.gov, or by mail to: EPA Docket Center (EPA/DC), Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, mail code 2201T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: John Schaefer, Office of Air Quality Planning and Standards, Sector Policies and Programs Division (D243–05), Measurement Policy Group, Environmental Protection Agency, Research Triangle Park, North Carolina, 27711; telephone number: (919) 541-0296; fax number: (919) 541-3207; email address: schaefer.john@epa.gov. SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On May 30, 2008 (73 FR 31088), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under docket ID number EPA-HQ-OECA-2008-0428, which is available for public viewing online at http://www.regulations.gov, in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744 and the telephone number for the Enforcement and Compliance Docket is  $(202)\ 566-1927.$ 

Use EPA's electronic docket and comment system at http://www.regulations.gov to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at http://www.regulations.gov, as EPA receives them and without

change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to <a href="http://www.regulations.gov">http://www.regulations.gov</a>.

Title: NESHAP for Source Categories: Generic Maximum Achievable Control Technology Standards (Renewal).

ICR Numbers: EPA ICR Number 1871.05, OMB Control Number 2060– 0420.

ICR Status: This ICR is scheduled to expire on March 31, 2009. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the Federal Register when approved, are listed in 40 CFR part 9, and displayed either by publication in the Federal Register or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Source Categories: Generic Maximum Achievable Control Technology (hereafter, this subpart is referred to as the "Generic MACT") were proposed on October 14, 1998 (63 FR 55178) and promulgated on June 29, 1999 (64 FR 34854). These regulations apply to hazardous air pollutant (HAP) emission sources in four categories including: Polycarbonates (PČ) Production, Acrylic and Modacrylic Fibers (AMF) Production, Acetal Resins (AR) Production and Hydrogen Fluoride (HF) Production.

In general, all NESHAP standards require initial notifications, performance tests, and periodic reports. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. The specific monitoring and recordkeeping requirements vary for each source category depending on the types of emissions control equipment and monitoring equipment used to comply with the Generic MACT standards for their category. These notifications, reports, and records are essential in determining compliance,

and are required of all sources subject to NESHAP.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 133 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Polycarbonate, acrylic and modacrylic fiber, acetal resin, and hydrogen fluoride production facilities.

Estimated Number of Respondents:

Frequency of Response: Initially, occasionally, and semiannually.

Estimated Total Annual Hour Burden:

Estimated Total Annual Cost: \$438,560, which includes: \$331,146 in annual labor costs and \$107.414 in annualized O&M costs; and no annualized capital/startup costs.

Changes in the Estimates: The annual non-labor cost burden was increased by \$414 due to an omission in the previous ICR renewal.

Dated: January 15, 2009.

Title: NSPS for Grain Elevators

ICR Numbers: EPA ICR Number 1130.09, OMB Control Number 2060-

ICR Status: This ICR is schedule to expire on March 31, 2009. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the Federal Register when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The New Source Performance Standards (NSPS) for grain elevators were proposed on January 18, 1977 (40 CFR part 60, subpart DD), promulgated on August 3, 1978, and amended on October 17, 2000 (65 FR 61759). These standards apply to each affected facility at any grain terminal elevator or any grain storage elevator. The facilities are each truck unloading station, truck loading station, barge and ship loading station, railcar loading station, railcar unloading station, grain dryer and all grain handling operations that commenced construction, modification or reconstruction after August 3, 1978.
