

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act¹⁰ in general, and furthers the objectives of Section 6(b)(5) of the Act¹¹ in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest. The Exchange believes that the proposal is consistent with these obligations because clarification of the Exchange's FCO margin rules should benefit investors and traders and be in the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

II. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the forgoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest, it has become effective pursuant to Section 19(b)(3)(A) of the Act¹² and Rule 19b-4(f)(6) thereunder.¹³

A proposed rule change filed under Rule 19b-4(f)(6) normally may not become operative prior to 30 days after the date of filing. However, Rule 19b-4(f)(6)(iii) permits the Commission to designate a shorter time if such action is consistent with the protection of

investors and the public interest.¹⁴ Phlx requests that the Commission waive the 30-day operative delay. The proposed rule change is substantially similar to an ISE rule relating to margin for foreign currency options.¹⁵ The Commission believes that this proposed rule change does not raise any new, unique or substantive issues from those raised in the approved ISE filing. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest because such waiver will allow the Phlx to apply FCO margin rules that are similar to those of other options exchanges.¹⁶ Therefore, the Commission designates the proposal operative upon filing.

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

constituting a non-controversial rule change under Rule 19b-4(f)(6) under the Act,³ which renders the proposal effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to establish a pilot program to introduce its NYSE Trades service at no charge. NYSE Trades is a new NYSE-only market data service that allows a vendor to redistribute on a real-time basis the same last sale information that NYSE reports to the Consolidated Tape Association ("CTA") for inclusion in CTA's consolidated data stream and certain other related data elements ("NYSE Last Sale Information").

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B) and (C) below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

a. *The Service.* The Exchange proposes to establish a pilot program to introduce NYSE Trades, a new service pursuant to which it will allow vendors, broker-dealers and others ("NYSE-Only Vendors") to make available NYSE Last Sale Information on a real-time basis.⁴ The Exchange will not impose any fees for the receipt and use of NYSE Trades, whether on vendors or subscribers, during the pilot period.

Contemporaneously with the proposed rule change, the Exchange submitted a proposed rule change that seeks to establish a \$1500 per month

access fee for the receipt and redistribution of the NYSE Trades datafeed(s) and a \$15 per month device fee for the end-use of NYSE Trades' NYSE Last Sale Information (the "NYSE Trades Fee Filing"). The Exchange would not commence to impose those fees until the later of Commission approval of the NYSE Trades Fee Filing and the end of the pilot period.

NYSE Last Sale Information would include last sale information for all securities that are traded on the Exchange. Currently, the Exchange trades only Network A Securities.

The Exchange will make NYSE Last Sale Information available through its new NYSE Trades service at the same time as it provides last sale information to the processor under the CTA Plan. In addition to the information that the Exchange provides to CTA, NYSE Last Sale Information will also include a unique sequence number that the Exchange assigns to each trade and that allows an investor to track the context of the trade through such other Exchange market data products as NYSE OpenBook[®] and NYSE Info Tools[®].

The Exchange developed NYSE Trades primarily at the request of traders who are very latency sensitive. The latency difference between accessing last sales through the NYSE datafeed or through the CTA datafeed can be measured in tens of milliseconds. The Exchange anticipates that demand for the product will derive primarily from investors and broker-dealers who desire to use NYSE Trades to power certain trading algorithms or smart order routers. The free access to NYSE Trades during the pilot period will enable investors to determine whether NYSE Trades provides value to their business models and will enable the Exchange to make the service available during the time required to obtain approval for the fees.

b. *Administrative Requirements.* During the pilot period, the Exchange will require NYSE-Only Vendors to enter into the form of "vendor" agreement into which the CTA Plan requires recipients of the Network A last sale prices information datafeeds to enter (the "Network A Vendor Form"). The Network A Vendor Form will authorize the NYSE-Only Vendor to provide the NYSE Trades service to its subscribers and customers.

The Network A Participants drafted the Network A Vendor Form as a one-size-fits-all form to capture most categories of market data dissemination. It is sufficiently generic to accommodate NYSE Trades. The Network A Vendor

Form has been in use in substantially the same form since 1990.⁵

Similarly, the Exchange will require professional and non-professional subscribers to NYSE Trades to undertake to comply with the same contract, reporting, payment, and other administrative requirements as to which the Network A Participants subject them in respect of Network A last sale information under the CTA Plan.

c. *Duration of Pilot Program.* The Exchange proposes to commence the pilot program shortly after submitting the proposed rule change to the Commission. The Exchange proposes to conduct the pilot test for 90 days from its commencement date.

If, at the end of the pilot period, the Commission has not yet acted on the NYSE Trades Fee Filing, the Exchange will assess its experience with NYSE Trades and determine whether to extend or modify the pilot program.

2. Statutory Basis

The bases under the Act for the proposed rule change are the requirements under Section 6(b)(5) that the rules of an exchange be designed to promote just and equitable principles of trade and not to permit unfair discrimination between customers, issuers, brokers or dealers.

The pilot program would benefit investors by providing a free alternative to the last sale price information that they receive under the CTA Plan.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange has discussed the pilot program with those entities that the Exchange believes would be the most likely to take advantage of the proposed NYSE Last Sale Information service by becoming NYSE-Only Vendors. While those entities have not submitted formal, written comments on the proposal, the Exchange has incorporated some of their ideas into the proposal and the proposed rule change reflects their input. The Exchange has not received any unsolicited written comments from members or other interested parties.

⁵ See Release Nos. 34-28407 (September 10, 1990), and 34-49185 (February 4, 2004).

³ 17 CFR 240.19b-4(f)(6).

⁴ The Exchange notes that it will make the NYSE Last Sale Information available to vendors no earlier than it makes its last sale information available to the processor under the CTA Plan.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act⁶ and Rule 19b-4(f)(6) thereunder.⁷

A proposed rule change filed pursuant to Rule 19b-4(f)(6) under the Act⁸ normally does not become operative for 30 days after the date of its filing. However, Rule 19b-4(f)(6)⁹ permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. NYSE requests that the Commission waive the 30-day operative delay. The Commission believes that waiving the 30-day operative delay¹⁰ is consistent with the protection of investors and the public interest because such waiver will allow the Exchange to immediately provide additional information to investors at no cost. Therefore, the Commission designates the proposal operative upon filing.

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room, 100 F Street, NE., Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of such filing also will be available for inspection and copying at the principal office of the Exchange.
