### Federal Energy Regulatory Commission

[Docket No. CP08-454-000]

#### Liberty Gas Storage, LLC; Notice of Availability of the Environmental Assessment for the Proposed Liberty Gas Storage Expansion Project

January 26, 2009.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared this environmental assessment (EA) for the natural gas pipeline facilities proposed by the Liberty Gas Storage, LLC (Liberty) in the above-referenced docket.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act of 1969. The FERC staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The EA assesses the potential environmental impacts resulting from construction and operation of Liberty's proposed Liberty Gas Storage Expansion Project. This project would involve the conversion of three salt dome caverns

for natural gas storage, the creation of a new salt dome cavern for natural gas storage, the construction of one, approximately 18,940 horsepower compressor station, a 5.1-mile-long, 36-inch-diameter natural gas pipeline, a 4.0-mile-long, 16-inch-diameter brine disposal pipeline, and associated facilities in Cameron and Calcasieu Parishes, Louisiana.

The EA has been placed in the public files of the FERC. A limited number of copies of the EA are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street, NE., Room 2A, Washington, DC 20426, (202) 502-8371.

Copies of the EA have been mailed to interested federal and state agencies, individuals who requested to remain on the FERC staff's environmental mailing list and parties to this proceeding.

Any person wishing to comment on the EA may do so. To ensure consideration prior to a Commission decision on the proposal, it is important that we receive your comments before the date specified below.

Please note that the Commission strongly encourages electronic filing of any comments or interventions or protests to this proceeding. See Title 18 of the Code of Federal Regulations, Part 385.2001(a)(1)(iii) and the instructions on the Commission's Internet Web site at <http://www.ferc.gov> under the link to "Documents and Filings" and "eFiling." eFiling is a file attachment process and requires that you prepare your submission in the same manner as you would if filing on paper, and save it as a file on your computer's hard drive. New eFiling users must first create an account by clicking on "Sign up" or "eRegister." You will be asked to select the type of filing you are making. This filing is considered a "Comment on Filing." In addition, there is a "Quick Comment" option available, which is an easy method for interested persons to submit text-only comments on a project. The Quick Comment User Guide can be viewed at <http://www.ferc.gov/docs-filing/efiling/quick-comment-guide.pdf>. Quick Comment does not require a FERC eRegistration account; however, you will be asked to provide a valid e-mail address.
