

attention paid to safety culture and security culture at materials licensees and certificate holders?

Q2.6.4. What topics do the Agreement States believe should be addressed in the policy statement(s)?

Q2.6.5. How could the NRC help the Agreement States to increase attention to safety culture and security culture at their licensees?

Q2.6.6. How should the NRC address safety culture and security culture at Agreement State licensees that engage in activities within NRC jurisdiction under reciprocity?

Q2.6.7. How might NRC use stakeholder involvement to increase the attention that materials licensees and certificate holders give to maintaining a safety culture, including the unique aspects of security?

Topic 3: Does safety culture as applied to reactors need to be strengthened?

A number of enhancements were made to the ROP in 2006 to address safety culture (for example: safety culture cross-cutting aspect assignment to findings; identifying substantive cross-cutting issues; performing an independent NRC safety culture assessment for licensees in Column 4 of the ROP Action Matrix).

Q3.1. What are the strengths and weaknesses of the current approach for evaluating licensee safety culture in the ROP?

Q3.2. How has the use of safety culture cross-cutting aspects that are assigned to inspection findings helped to identify potential safety culture issues? Suggest any alternative approaches that licensees could use to identify potential safety culture issues.

Q3.3. What may be better or more effective methods or tools that the NRC could use to help identify precursors to future plant performance deficiencies?

Q3.4. In the following situations the NRC may/or will request a licensee to perform a safety culture assessment (licensee self-assessment, independent assessment, or a third-party assessment): (a) The same substantive cross-cutting issue had been identified in three consecutive assessment letters (generated from assessments conducted at 6 month intervals); (b) a 95002 inspection (Inspection for One Degraded Cornerstone or Any Three White Inputs in a Strategic Performance Area) that confirmed the licensee had not identified a safety culture component that either caused or significantly contributed to the risk-significant performance issue that resulted in the supplemental inspection; and (c) a plant enters Column 4 of the Action Matrix.

Under what other situations should the NRC consider requesting that a licensee perform a safety culture assessment?

Another ROP enhancement was for the NRC to perform an independent safety culture assessment for plants that enter the multiple repetitive/degraded cornerstone column (column 4).

Q3.5. In what other circumstances might the NRC consider performing an independent safety culture assessment?

Q3.6. What other entity, other than the NRC, could perform an independent safety culture assessment or simply verify the results of the licensee's assessments and corrective actions?

Q3.7. What additional safety culture related ROP changes could help the NRC to improve the focus of NRC and licensee attention on site safety culture issues?

The NRC has held public meetings where draft changes to several ROP guidance documents resulting from a lessons learned evaluation of the initial implementation period of the ROP safety culture enhancements have been made available for public comment.

Q3.8. What areas beyond the draft changes (for example, a provision in Inspection Procedure 95003 for the NRC to be able to conduct a graded safety culture assessment) presented by the NRC have the potential to further enhance how the ROP addresses safety culture?

Q3.8.1. How would these potential changes enhance or improve how the NRC addresses safety culture through the ROP?

Q3.9. In what ways does the current process lead to consistency/predictability of implementation by the NRC? Provide examples to support your view.

Q3.9.1. In what ways does it lead to inconsistency or unpredictability?

Q3.10. How effective is the ROP in addressing security culture issues?

Q3.10.1. What ROP changes could help the NRC to improve the focus of NRC and licensee attention on site security culture issues?

In previous public meetings, the NRC has discussed using the ROP safety culture components and modified aspects as a tool to understand the challenges to safety culture during new reactor construction.

Q3.11. How can challenges to safety culture in new reactor construction be identified and addressed in regulatory oversight?

Dated at Rockville, Maryland, this 27th day of January, 2009.

For the Nuclear Regulatory Commission.

Stewart L. Magruder,

Deputy Director, Office of Enforcement.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 040-08502; NRC-2009-0036]

Notice of Request To Renew Source Materials License SUA-1341, COGEMA Mining, Inc., Christensen and Irigaray Ranch Facilities, Johnson and Campbell Counties, WY, and Opportunity To Request a Hearing

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of license renewal request and opportunity to request a hearing.

DATES: A request for a hearing must be filed by April 10, 2009.

FOR FURTHER INFORMATION CONTACT: Ron C. Linton, Project Manager, Uranium Recovery Licensing Branch, Division of Waste Management and Environmental Protection, Office of Federal and State Materials and Environmental Management Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Telephone: (301) 415-7777; fax number: (301) 415-5369; e-mail: ron.linton@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

By letter dated May 30, 2008, COGEMA Mining, Inc. (COGEMA), submitted a License Renewal Application to the U.S. Nuclear Regulatory Commission (NRC) to renew Source Materials License SUA-1341 for the Christensen and Irigaray Ranch Facilities in Johnson and Campbell Counties, Wyoming (ADAMS Accession Package No. ML081850689). COGEMA has requested that the license be renewed as a performance-based license, which is its current form. COGEMA also requested that the renewal be for ten (10) years, consistent with the last renewal. The renewal, if granted, would allow for continued uranium production operations and the recovery of uranium by in situ recovery (ISR) extraction techniques as previously licensed by the NRC. An NRC administrative review, documented in a letter to COGEMA dated December 29, 2008 (ADAMS Accession No. ML082760265), found the amendment request acceptable to begin a technical review. Before approving the license amendment, the

NRC findings required by the Atomic Energy Act of 1954, the National Environmental Policy Act (NEPA) and NRC's regulations, will have been made. These findings will be documented in a Safety Evaluation Report and a site-specific environmental review consistent with the provisions in 10 CFR part 51.

II. Opportunity To Request a Hearing

The May 30, 2008 renewal request pertains to COGEMA's 10 CFR part 40 source materials license, and is COGEMA's proposal to continue uranium production operations at its facilities in Johnson and Campbell Counties, Wyoming. Any person whose interest may be affected by this proposal, and who desires to participate as a party in an NRC adjudicatory proceeding, must file a request for a hearing. The hearing request must include a specification of the contentions which the person seeks to have litigated, and must be filed in accordance with the NRC E-Filing rule, which the NRC promulgated on August 28, 2007 (72 FR 49139). The E-Filing rule requires participants to submit and serve documents over the internet or in some cases to mail copies on electronic storage media. Participants may not submit paper copies of their filings unless they seek a waiver in accordance with the procedures described below.

To comply with the procedural requirements of E-Filing, at least ten (10) days prior to the filing deadline, the petitioner/requester must contact the Office of the Secretary by e-mail at HEARINGDOCKET@NRC.GOV, or by calling (301) 415-1677, to request (1) a digital identification (ID) certificate, which allows the participant (or its counsel or representative) to digitally sign documents and access the E-Submittal server for any proceeding in which it is participating; and/or (2) creation of an electronic docket for the proceeding (even in instances in which the petitioner/requester (or its counsel or representative) already holds an NRC-issued digital ID certificate). Each petitioner/requester will need to download the Workplace Forms Viewer(tm) to access the Electronic Information Exchange (EIE), a component of the E-Filing system. The Workplace Forms Viewer(tm) is free and is available at <http://www.nrc.gov/site-help/e-submittals/install-viewer.html>. Information about applying for a digital ID certificate is available on NRC's public Web site at <http://www.nrc.gov/site-help/e-submittals/apply-certificates.html>.

Once a petitioner/requester has obtained a digital ID certificate, has a

docket created, and downloaded the EIE viewer, the petitioner/requester can then submit a request for hearing or petition for leave to intervene. Submissions should be in Portable Document Format (PDF) in accordance with NRC guidance available on the NRC public Web site at <http://www.nrc.gov/site-help/e-submittals.html>. A filing is considered complete at the time the filer submits its documents through EIE. To be timely, an electronic filing must be submitted to the EIE system no later than 11:59 p.m. Eastern Time on the due date. Upon receipt of a transmission, the E-Filing system time-stamps the document and sends the submitter an e-mail notice confirming receipt of the document. The EIE system also distributes an e-mail notice that provides access to the document to the NRC Office of the General Counsel and any others who have advised the Office of the Secretary that they wish to participate in the proceeding, so that the filer need not serve the documents on those participants separately. Therefore, applicants and other participants (or their counsel or representative) must apply for and receive a digital ID certificate before a hearing request/petition to intervene is filed so that they can obtain access to the document via the E-Filing system.

A person filing electronically may seek assistance through the "Contact Us" link located on the NRC Web site at <http://www.nrc.gov/site-help/e-submittals.html> or by calling the NRC Meta-System Help Desk, which is available between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday. The Meta-System Help Desk can be contacted by telephone at 1-866-672-7640 or by e-mail at MSHD.Resource@nrc.gov.

Participants who believe that they have good cause for not submitting documents electronically must file a motion, in accordance with 10 CFR 2.302(g), with their initial paper filing requesting authorization to continue to submit documents in paper format. Such filings must be submitted by: (1) First class mail addressed to the Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, *Attention: Rulemaking and Adjudications Staff*; or (2) courier, express mail, or expedited delivery service to the Office of the Secretary, Sixteenth Floor, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, *Attention: Rulemaking and Adjudications Staff*. Participants filing a document in this manner are responsible for serving the document on all other participants.

Filing is considered complete by first-class mail as of the time of deposit in the mail, or by courier, express mail, or expedited delivery service upon depositing the document with the provider of the service.

Non-timely requests and/or petitions and contentions will not be entertained absent a determination by the Commission, the presiding officer, or the Atomic Safety and Licensing Board that the petition and/or request should be granted and/or the contentions should be admitted based on a balancing of the factors specified in 10 CFR 2.309(c)(1)(i)-(viii). To be timely, filings must be submitted no later than 11:59 p.m. Eastern Time on the due date.

Documents submitted in adjudicatory proceedings will appear in NRC's electronic hearing docket which is available to the public at http://ehd.nrc.gov/EHD_Proceeding/home.asp, unless excluded pursuant to an order of the Commission, an Atomic Safety and Licensing Board, or a Presiding Officer. Participants are requested not to include social security numbers in their filings. With respect to copyrighted works, except for limited excerpts that serve the purpose of the adjudicatory filings and would constitute a Fair Use application, participants are requested not to include copyrighted materials in their submissions.

The formal requirements for documents contained in 10 CFR 2.304(c)-(e) must be met. If the NRC grants an electronic document exemption in accordance with 10 CFR 2.302(g)(3), then the requirements for paper documents, set forth in 10 CFR 2.304(b) must be met.

In accordance with 10 CFR 2.309(b), a request for a hearing must be filed by April 10, 2009.

In addition to meeting other applicable requirements of 10 CFR 2.309, a request for a hearing filed by a person other than an applicant or licensee must state:

1. The name, address, and telephone number of the requester;
2. The nature of the requester's right under the Act to be made a party to the proceeding;
3. The nature and extent of the requester's property, financial, or other interest in the proceeding;
4. The possible effect of any decision or order that may be issued in the proceeding on the requester's interest; and

5. The circumstances establishing that the request for a hearing is timely in accordance with 10 CFR 2.309(b).

In accordance with 10 CFR 2.309(f)(1), a request for hearing or petitions for

leave to intervene must set forth with particularity the contentions sought to be raised. For each contention, the request or petition must:

1. Provide a specific statement of the issue of law or fact to be raised or controverted;
2. Provide a brief explanation of the basis for the contention;
3. Demonstrate that the issue raised in the contention is within the scope of the proceeding;
4. Demonstrate that the issue raised in the contention is material to the findings that the NRC must make to support the action that is involved in the proceeding;
5. Provide a concise statement of the alleged facts or expert opinions which support the requester's/petitioner's position on the issue and on which the requester/petitioner intends to rely to support its position on the issue; and
6. Provide sufficient information to show that a genuine dispute exists with the applicant or licensee on a material issue of law or fact. This information must include references to specific portions of the amendment request that the requester/petitioner disputes and the supporting reasons for each dispute, or, if the requester/petitioner believes the application fails to contain information on a relevant matter as required by law, the identification of each failure and the supporting reasons for the requester's/petitioner's belief.

In addition, in accordance with 10 CFR 2.309(f)(2), contentions must be based on documents or other information available at the time the petition is to be filed, such as the amendment request, other supporting documents filed by an applicant or licensee, or otherwise available to the petitioner. On issues arising under NEPA, the requester/petitioner must file contentions based on environmental information supplied by the licensee or previous environmental analysis. The requester/petitioner may amend those contentions or file new contentions if there are data or conclusions in the NRC draft, or final environmental impact statement, environmental assessment, or any supplements relating thereto, that differ significantly from the data or conclusions in the applicant's or licensee's documents. Otherwise, contentions may be amended or new contentions filed after the initial filing only with leave of the presiding officer.

Requesters/petitioners should, when possible, consult with each other in preparing contentions and combine similar subject matter concerns into a joint contention, for which one of the co-sponsoring requesters/petitioners is designated the lead representative.

Further, in accordance with 10 CFR 2.309(f)(3), any requester/petitioner that wishes to adopt a contention proposed by another requester/petitioner must do so, in accordance with the E-Filing rule, within ten (10) days of the date the contention is filed, and designate a representative who shall have the authority to act for the requester/petitioner.

In accordance with 10 CFR 2.309(g), a request for hearing and/or petition for leave to intervene may also address the selection of the hearing procedures, taking into account the provisions of 10 CFR 2.310.

III. Further Information

Documents related to this action are available electronically at the NRC's Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html>. From this site, you can access the NRC's Agencywide Document Access and Management System (ADAMS), which provides text and image files of NRC's public documents. The ADAMS package accession number for the documents related to this Notice is ML081850689, COGEMA Mining, Inc., Irigaray and Christensen Ranch Projects, Licensing Renewal Application. If you do not have access to ADAMS or if there are problems in accessing the documents located in ADAMS, contact the NRC Public Document Room (PDR) Reference staff at 1-800-397-4209, 301-415-4737, or by e-mail to pdr.resource@nrc.gov. These documents may also be viewed electronically on the public computers located at the NRC's PDR, O 1 F21, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852. The PDR reproduction contractor will copy documents for a fee.

Order Imposing Procedures for Access to Sensitive Unclassified Non-Safeguards Information for Contention Preparation

1. This order contains instructions regarding how potential parties to this proceeding may request access to documents containing sensitive unclassified information. A suggested schedule is provided as Attachment 1 to this order.

2. Within ten (10) days after publication of this notice of opportunity for hearing any potential party as defined in 10 CFR 2.4 who believes access to SUNSI is necessary for a response to the notice may request access to such information. A "potential party" is any person who intends or may intend to participate as a party by demonstrating standing and the filing of an admissible contention under 10 CFR 2.309. Requests submitted later than ten

(10) days will not be considered absent a showing of good cause for the late filing, addressing why the request could not have been filed earlier.

3. The requester shall submit a letter requesting permission to access SUNSI to the Office of the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, *Attention: Rulemakings and Adjudications Staff*, and provide a copy to the Associate General Counsel for Hearings, Enforcement and Administration, Office of the General Counsel, Washington, DC 20555-0001. The expedited delivery or courier mail address for both offices is U.S. Nuclear Regulatory Commission, 11555 Rockville Pike, Rockville, MD 20852. The e-mail address for the Office of the Secretary and the Office of the General Counsel are HearingDocket@nrc.gov and OGCmail@nrc.gov, respectively.¹

The request must include the following information:

- a. A description of the licensing action with a citation to this **Federal Register** notice of opportunity for hearing;
- b. The name and address of the potential party and a description of the potential party's particularized interest that could be harmed, if the licensing action is taken;
- c. The identity of the individual requesting access to Sensitive Unclassified Non-Sensitive Information (SUNSI) and the requester's need for the information in order to meaningfully participate in this adjudicatory proceeding, particularly why publicly available versions of the application would not be sufficient to provide the basis and specificity for a proffered contention;

4. Based on an evaluation of the information submitted under items 2 and 3.a through 3.c, above, the NRC staff will determine within ten (10) days of receipt of the written access request whether (1) there is a reasonable basis to believe the petitioner is likely to establish standing to participate in this NRC proceeding, and (2) there is a legitimate need for access to SUNSI.

5. A request for access to SUNSI will be granted if:

- a. The request has demonstrated that there is a reasonable basis to believe that a potential party is likely to establish standing to intervene or to otherwise participate as a party in this proceeding;

¹ See footnote 4. While a request for hearing or petition to intervene in this proceeding must comply with the filing requirements of the NRC's "E-Filing Rule," the initial request to access SUNSI under these procedures should be submitted as described in this paragraph.

b. The proposed recipient of the information has demonstrated a need for SUNSI;

c. The proposed recipient of the information has executed a Non-Disclosure Agreement or Affidavit and agrees to be bound by the terms of a Protective Order setting forth terms and conditions to prevent the unauthorized or inadvertent disclosure of SUNSI; and

d. The presiding officer has issued a protective order concerning the information or documents requested.² Any protective order issued shall provide that the petitioner must file SUNSI contentions 25 days after receipt of (or access to) that information. However, if more than 25 days remain between the petitioner's receipt of (or access to) the information and the deadline for filing all other contentions (as established in the notice of hearing or opportunity for hearing), the petitioner may file its SUNSI contentions by that later deadline.

6. If the request for access to SUNSI is granted, the terms and conditions for access to such information will be set forth in a draft protective order and affidavit of non-disclosure appended to a joint motion by the NRC staff, any other affected parties to this proceeding,³ and the petitioner(s). If the diligent efforts by the relevant parties or petitioner(s) fail to result in an agreement on the terms and conditions

for a draft protective order or non-disclosure affidavit, the relevant parties to the proceeding or the petitioner(s) should notify the presiding officer within five (5) days, describing the obstacles to the agreement.

7. If the request for access to SUNSI is denied by the NRC staff after a determination on standing, the NRC staff shall briefly state the reasons for the denial. Before the Office of Administration makes an adverse determination regarding access, the proposed recipient must be provided an opportunity to correct or explain information. The requester may challenge the NRC staff's adverse determination with respect to access to SUNSI or with respect to standing, by filing a challenge within five (5) days of receipt of that determination with (a) the presiding officer designated in this proceeding; (b) if no presiding officer has been appointed, the Chief Administrative Judge, or if he or she is unavailable, another administrative judge, or an administrative law judge with jurisdiction pursuant to 10 CFR 2.318(a); or (c) if another officer has been designated to rule on information access issues, with that officer.

In the same manner, a party other than the requester may challenge an NRC staff determination granting access to SUNSI whose release would harm that party's interest independent of the

proceeding. Such a challenge must be filed within five (5) days of the notification by the NRC staff of its grant of such a request.

If challenges to the NRC staff determinations are filed, these procedures give way to the normal process for litigating disputes concerning access to information. The availability of interlocutory review by the Commission of orders ruling on such NRC staff determinations (whether granting or denying access) is governed by 10 CFR 2.311.⁴

8. The Commission expects that the NRC staff and presiding officers (and any other reviewing officers) will consider and resolve requests for access to SUNSI, and motions for protective orders, in a timely fashion in order to minimize any unnecessary delays in identifying those petitioners who have standing and who have propounded contentions meeting the specificity and basis requirements in 10 CFR part 2.

Dated at Rockville, Maryland, this 3rd day of February 2009.

For the Nuclear Regulatory Commission.
Annette L. Vietti-Cook,
Secretary of the Commission.

Attachment 1—General Target Schedule for Processing and Resolving Requests for Access to Sensitive Unclassified Non-Safeguards Information in This Proceeding

Day	Event
0	Publication of [Federal Register notice/other notice of proposed action and opportunity for hearing], including order with instructions for access requests.
10	Deadline for submitting requests for access to Sensitive Unclassified Non-Safeguards Information (SUNSI) with information: Supporting the standing of a potential party identified by name and address; describing the need for the information in order for the potential party to participate meaningfully in an adjudicatory proceeding; demonstrating that access should be granted.
[20, 30 or 60]	Deadline for submitting petition for intervention containing: (i) Demonstration of standing; (ii) all contentions whose formulation does not require access to SUNSI (+25 Answers to petition for intervention; +7 petitioner/requestor reply).
20	NRC staff informs the requester of the staff's determination whether the request for access provides a reasonable basis to believe standing can be established and shows need for SUNSI. NRC staff also informs any party to the proceeding whose interest independent of the proceeding would be harmed by the release of the information. If NRC staff makes the finding of need for SUNSI and likelihood of standing, NRC staff begins document processing (preparation of redactions or review of redacted documents).
25	If NRC staff finds no "need," "need to know," or likelihood of standing, the deadline for petitioner/requester to file a motion seeking a ruling to reverse the NRC staff's denial of access; NRC staff files copy of access determination with the presiding officer (or Chief Administrative Judge or other designated officer, as appropriate). If NRC staff finds "need" for SUNSI, the deadline for any party to the proceeding whose interest independent of the proceeding would be harmed by the release of the information to file a motion seeking a ruling to reverse the NRC staff's grant of access.
30	Deadline for NRC staff reply to motions to reverse NRC staff determination(s).
40	(Receipt +30) If NRC staff finds standing and need for SUNSI, deadline for NRC staff to complete information processing and file motion for Protective Order and draft Non-Disclosure Affidavit. Deadline for applicant/licensee to file Non-Disclosure Agreement for SUNSI.

² If a presiding officer has not yet been designated, the Chief Administrative Judge will issue such orders, or will appoint a presiding officer to do so.

³ Parties/persons other than the requester and the NRC staff will be notified by the NRC staff of a favorable access determination (and may participate

in the development of such a motion and protective order) if it concerns SUNSI and if the party/person's interest independent of the proceeding would be harmed by the release of the information (e.g., as with proprietary information).

⁴ As of October 15, 2007, the NRC's final "E-Filing Rule" became effective. See Use of

Electronic Submissions in Agency Hearings (72 FR 49139; Aug. 28, 2007). Requesters should note that the filing requirements of that rule apply to appeals of NRC staff determinations (because they must be served on a presiding officer or the Commission, as applicable), but not to the initial SUNSI requests submitted to the NRC staff under these procedures.

Day	Event
190	(Receipt +180) If NRC staff finds standing and trustworthiness and reliability, deadline for NRC staff to file motion for Protective Order and draft Non-disclosure Affidavit. Note: Before the Office of Administration makes an adverse determination regarding access, the proposed recipient must be provided an opportunity to correct or explain information.
205	Deadline for petitioner to seek reversal of a final adverse NRC staff determination either before the presiding officer or another designated officer.
A	If access granted: Issuance of presiding officer or other designated officer decision on motion for protective order for access to sensitive information (including schedule for providing access and submission of contentions) or decision reversing a final adverse determination by the NRC staff.
A+3	Deadline for filing executed Non-Disclosure Affidavits. Access provided to SUNSI consistent with decision issuing the protective order.
A+28	Deadline for submission of contentions whose development depends upon access to SUNSI. However, if more than 25 days remain between the petitioner's receipt of (or access to) the information and the deadline for filing all other contentions (as established in the notice of hearing or opportunity for hearing), the petitioner may file its SUNSI contentions by that later deadline.
A+53 (Contention receipt +25).	Answers to contentions whose development depends upon access to SUNSI.
A+60 (Answer receipt +7) ..	Petitioner/Intervenor reply to answers.
B	Decision on contention admission.

[FR Doc. E9-2619 Filed 2-6-09; 8:45 am]

BILLING CODE 7590-01-P

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

Andean Trade Preference Act (ATPA), as Amended: Request for Public Comments Regarding Beneficiary Countries

AGENCY: Office of the United States Trade Representative.

ACTION: Notice; request for comments.

SUMMARY: In compliance with section 203(f) of the ATPA, as amended, 19 U.S.C. 3202(f)(2), the Office of the United States Trade Representative (USTR) is requesting the views of interested parties on whether the designated beneficiary countries are meeting the eligibility criteria under the ATPA. (See 19 U.S.C. 3203(b)(6)(B).) This information will be used in the preparation of a report to the Congress on the operation of the program.

DATES: Public comments are due no later than 5 p.m., March 6, 2009.

ADDRESSES: Comments should be submitted electronically via the Internet at <http://www.regulations.gov>. Business confidential information only may be submitted via e-mail to FR0518@ustr.eop.gov. See below for details.

FOR FURTHER INFORMATION CONTACT: For procedural questions concerning written comments, contact Gloria Blue, Executive Secretary, Trade Policy Staff Committee, at (202) 395-3475. All other questions regarding the ATPA should be directed to Bennett Harman, Deputy Assistant USTR for Latin America, at (202) 395-9446.

SUPPLEMENTARY INFORMATION: The ATPA, as amended by the Andean Trade Promotion and Drug Eradication Act of 2002 (ATPDEA) in the Trade Act of 2002, 19 U.S.C. 3201 *et seq.*, provides trade benefits for eligible Andean countries. In Proclamation 7616 of October 31, 2002, the President designated Bolivia, Colombia, Ecuador, and Peru as ATPDEA beneficiary countries. In Proclamation 8323 of November 25, 2008, the President determined that Bolivia no longer satisfies the eligibility criteria and suspended Bolivia's status as a beneficiary country for purposes of the ATPA and ATPDEA. Section 203(f) of the ATPA (19 U.S.C. 3202(f)) requires the USTR, not later than April 30, 2009, to submit to Congress a report on the operation of the ATPA. Before submitting such report, USTR is required to request comments on whether beneficiary countries are meeting the criteria set forth in 19 U.S.C. 3203(b)(6)(B) (which incorporates by reference the criteria set forth in sections 3202(c) and (d)). USTR refers interested parties to the **Federal Register** notice published on August 15, 2002 (67 FR 53379), for a full list of the eligibility criteria.

Requirements for Submissions. Persons submitting comments must do so in English and must identify (on the first page of the submission) the "ATPA Beneficiary Countries." Written comments must be received by March 6, 2009.

In order to ensure the most timely and expeditious receipt and consideration of comments, USTR has arranged to accept on-line submissions, with the exception of business confidential submissions, via <http://www.regulations.gov>. To submit testimony and comments via <http://www.regulations.gov>, enter

docket number USTR-2009-0006 on the home page and click "go". The site will provide a search-results page listing all documents associated with this docket. Find a reference to this notice by selecting "Notice" under "Document Type" on the left side of the search-results page, and click on the link entitled "Send a Comment or Submission." (For further information on using the <http://www.regulations.gov> Web site, please consult the resources provided on the Web site by clicking on "How to Use This Site" on the left side of the home page.)

The <http://www.regulations.gov> Web site provides the option of making submissions by filling in a "General Comments" field, or by attaching a document. We expect that most submissions will be provided in an attached document. If a document is attached, it is sufficient to type "See attached" in the "General Comments" field.

Submissions in Microsoft Word (.doc) or Adobe Acrobat (.pdf) are preferred. If an application other than those two is used, please identify in your submission the specific application used.

Persons wishing to submit business confidential information must submit that information by electronic mail to FR0518@ustr.eop.gov. Only business confidential submissions will be accepted at FR0518@ustr.eop.gov, and business confidential submissions will not be accepted at <http://www.regulations.gov>; however, public or non-confidential submissions that accompany business confidential submissions should be submitted at <http://www.regulations.gov>. For any comments submitted electronically containing business confidential information, the file name of the business confidential version should
