*Estimated Time per Response:* 30 minutes.

*Frequency of Response:* On occasion reporting requirement.

*Total Annual Burden:* 2,500 hours.

*Total Annual Costs:* None.

*Nature and Extend of Confidentiality:*

There is no need for confidentiality with this collection of information.

*Obligation to Respond:* Required to obtain or retain benefits. The statutory authority for this information collection is contained in Sections 154(i), 303, 308, 309 and 621 of the Communications Act of 1934, as amended.

*Privacy Impact Assessment(s):* No impact(s)

*Needs and Uses:* Under 47 CFR 76.1610, cable operators must notify the Commission of changes in ownership information or operating status within 30 days of such change. FCC Form 324 is used to update information filed with the Commission concerning the Cable Community Registration. The information is the basic operational information on operator name, mailing address, community served, and system identification. FCC Form 324 will cover a variety of changes related to cable operators, replacing the requirement of a letter containing approximately the same information. Every Form 324 filing will require information about the system—the additional information required depending largely upon the nature of the change.

## GENERAL SERVICES ADMINISTRATION

### Multiple Award Schedule Advisory Panel; Notification of Public Advisory Panel Meetings

**AGENCY:** U.S. General Services Administration (GSA).

**ACTION:** Notice.

**SUMMARY:** The U.S. General Services Administration (GSA) Multiple Award Schedule Advisory Panel (MAS Panel), a Federal Advisory Committee, will hold public meetings on the following dates: Friday, February 27, 2009 and Monday March 2, 2009. GSA utilizes the MAS program to establish long-term Governmentwide contracts with responsible firms to provide Federal, State, and local government customers with access to a wide variety of commercial supplies (products) and services.

The MAS Panel was established to develop advice and recommendations on MAS program pricing policies, provisions, and procedures in the context of current commercial pricing practices. The Panel will be developing recommendations for MAS program pricing provisions for the acquisition of (1) professional services; (2) products; (3) total solutions which consist of professional services and products; and (4) non professional services. In

developing the recommendations, the Panel will, at a minimum, address these 5 questions for each of the 4 types of acquisitions envisioned above: (1) Where does competition take place?; (2) If competition takes place primarily at the task/delivery order level, does a fair and reasonable price determination at the MAS contract level really matter?; (3) If the Panel consensus is that competition is at the task order level, are the methods that GSA uses to determine fair and reasonable prices and maintain the price/discount relationship with the basis of award customer(s) adequate?; (4) If the current policy is not adequate, what are the recommendations to improve the policy/guidance; and (5) If fair and reasonable price determination at the MAS contract level is not beneficial and the fair and reasonable price determination is to be determined only at the task/delivery order level, then what is the GSA role?

The meetings will be held at U.S. General Services Administration, Federal Acquisition Service, 2200 Crystal Drive, Room L1301, Arlington, VA 22202. The location is within walking distance of the Crystal City metro stop. The start time for each meeting is 9 a.m., and each meeting will adjourn no later than 5 p.m.

**FOR FURTHER INFORMATION CONTACT:** Information on the Panel meetings, agendas, and other information can be obtained at [www.gsa.gov/masadvisorypanel](http://www.gsa.gov/masadvisorypanel) or you may contact Ms. Pat Brooks, Designated Federal Officer, Multiple Award Schedule Advisory Panel, U.S. General Services Administration, 2011 Crystal Drive, Suite 911, Arlington, VA 22205; telephone 703-605-3406, Fax 703-605-3454; or via email at [mas.advisorypanel@gsa.gov](mailto:mas.advisorypanel@gsa.gov).

**AVAILABILITY OF MATERIALS:** All meeting materials, including meeting agendas, handouts, public comments, and meeting minutes will be posted on the MAS Panel website at [www.gsa.gov/masadvisorypanel](http://www.gsa.gov/masadvisorypanel) or [www.gsa.gov/masap](http://www.gsa.gov/masap).

**MEETING ACCESS:** Individuals requiring special accommodations at any of these meetings should contact Ms. Brooks at least ten (10) business days prior to the meeting date so that appropriate arrangements can be made.

Dated: February 3, 2009

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Centers for Disease Control and Prevention

[30Day-09-08BD]

#### Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 639-5960 or send an e-mail to [omb@cdc.gov](mailto:omb@cdc.gov). Send written comments to CDC Desk Officer, Office of Management and Budget, Washington, DC or by fax to (202) 395-6974. Written comments should be received within 30 days of this notice.

#### Proposed Project

National Survey of HIV Testing in Hospitals—New—National Center for HIV, Viral Hepatitis, STD and TB Prevention (NCHHSTP), Centers for Disease Control and Prevention (CDC).

#### Background and Brief Description

Early identification of HIV infection has significant benefits to the infected individual and society. In light of recent advancements in HIV testing and treatment, the Centers for Disease Control and Prevention (CDC) released its prevention initiative, Advancing HIV Prevention: New Strategies for a Changing Epidemic. A key component of this strategy focuses upon increased HIV testing in healthcare settings to increase the number of persons with HIV who are aware of their infection and are successfully referred to treatment and prevention services. In September 2006, CDC released revised recommendations for routine HIV testing of adults, adolescents, and pregnant women in healthcare settings as a measure to address the high number

of individuals who are unaware of their HIV infection.

Routine HIV testing programs in hospital settings, including emergency departments (EDs) and urgent care centers (UCCs), have great potential to identify a large number of previously undiagnosed individuals. Prior to the release of the revised recommendations, few such hospital-based testing programs had existed in the United States. CDC is committed to increasing the number of such programs in the U.S., and is currently working with partners to achieve these goals. This project proposes a survey to assess HIV testing policies and practices in hospitals nationwide and to describe the uptake of the revised HIV testing recommendations for hospital settings.

The objectives of this project are: (1) To determine the extent to which HIV testing is being conducted in U.S. hospitals; (2) to describe the characteristics of hospitals with and without HIV testing programs; and (3) to identify barriers to and facilitators of implementing HIV testing programs in these settings. This data will assist CDC in monitoring the uptake of recommendations for HIV testing in healthcare settings.

CDC is requesting approval for collecting information for 2 years. This project will collect data from hospitals on a one-time voluntary basis using a brief survey. Surveys will be completed by the hospital administrators at each site who are most knowledgeable on HIV testing practices, infection control, and laboratory procedures for their site, in consultation with other hospital staff, as necessary. Collection of data will provide information on current HIV testing practices and policies for the hospital; use of point-of-care and conventional HIV tests; and barriers and facilitators of hospital-based HIV testing.

Data will be requested from a representative sample of the nearly 5000 U.S. community hospitals. CDC estimates that a total of 1000 respondents would spend one hour in the collection, management, and reporting of information under this project. Data collection will occur over two years with 500 surveys conducted per year. There is no cost to the participating hospitals other than their time. The total estimated annual burden hours are 500.
