

Terminal stop for fuel, locomotive inspection, or adding or removing power from the train. To perform this work on the main track, UP must provide blue signal protection under 49 CFR 218.25. This request is for the following track locations:

- Main 1 and Main 2 between Manchester and Troost (MX279–MX281).
- Main 1 and Main 2 at 18th St. between KX004 and KX006.
- Mainline at 10th St. (KX287–KX289).

UP is requesting flexibility to treat these main tracks at the Kansas City facilities as tracks other than main tracks so they can have the option of protecting its employees working on, under, or between rolling equipment in accordance with § 218.25 *Workers on a main track*, or § 218.27 *Workers on track other than main track*, or a combination of both. UP believes that the safest and most efficient method of protecting its employees in the Kansas City facilities is through the use of a combination of blue signal protection and remotely controlled switches. UP believes that this request is similar to a waiver originally granted to the SP at El Paso, TX, and renewed to UP under Docket Number FRA–2000–7669. UP states they have operated under the requirements of that waiver without any adverse effect on safety of operations and would like to have the same conditions for this request.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (e.g., Waiver Petition Docket Number FRA–2008–0166) and may be submitted by any of the following methods:

- *Hand Delivery:* 1200 New Jersey Avenue, SE., Room W12–140, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

AGENCY: Maritime Administration, DOT.

ACTION: Notice of extending the scoping comment period to March 11, 2009 and corrected project location information.

SUMMARY: By **Federal Register** notice of January 9, 2009 (74 FR 982–984) the Maritime Administration and the Coast Guard announced the intent to prepare an environmental impact statement (EIS) for the Atlantic Sea Island Group LLC, Safe Harbor Energy liquefied natural gas deepwater port license application located in Federal Waters approximately 13.5 miles south of the City of Long Beach, New York, 19 miles east of Highlands, New Jersey, and 23 miles southeast of the Ports of New York and New Jersey. The project location was incorrectly noted in the referenced **Federal Register** notice. The correct proposed location is in the area between the Ambrose-to-Nantucket and Hudson

The EIS will be prepared with the New York State Department of Environmental Conservation (NYSDEC) as a cooperating agency in the environmental review with the Coast Guard. The EIS will meet the requirements of both the National Environmental Policy Act (NEPA) and the New York State Environmental Quality Review Act (SEQRA). In addition, the Coast Guard and the Maritime Administration will be working with appropriate state agency representatives from New Jersey to ensure potential impacts and concerns of New Jersey are addressed in the EIS.

Publication of this notice began a 30 day scoping process and requested public participation to assist in the identification and determination of the environmental issues to be addressed in the EIS with a deadline for submitting comments of February 9, 2009.

In addition to receiving comments at the public scoping meetings on January 27, 2009 and January 29, 2009, instructions were provided for submitting comments to the Department of Transportation (DOT) Docket Management Facility and to the Federal Docket Management System (FDMS). Railroad Cost Recovery Procedures—Productivity Adjustment

AGENCY: Surface Transportation Board.

ACTION: Adoption of a Railroad Cost Recovery Procedures Productivity Adjustment.

SUMMARY: In a decision served on February 5, 2009, we proposed to adopt 1.012 (1.2% per year) as the measure of average change in railroad productivity for the 2003-2007 (5-year) averaging period. This value was a decline of 0.1 of a percentage point from the current

measure of 1.3% that was developed for the 2002-2006 period. That decision stated that comments may be filed addressing any perceived data and computational errors in our calculation. It also stated that, if there were no further action taken by the Board, the proposed productivity adjustment would become effective on March 1, 2009.

DATES: The productivity adjustment is effective March 1, 2009. Comments are due by February 23, 2009.

ADDRESSES: Send comments (an original and 10 copies) referring to STB Ex Parte No. 290 (Sub-No. 4) to: Surface Transportation Board, 395 E Street, SW., Washington, DC 20423-0001.
