SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-59370; File No. SR-NASDAQ-2008-101]

Self-Regulatory Organizations; The NASDAQ Stock Market LLC; Order Approving Proposed Rule Change To Adopt a Policy Relating to Its Treatment of Trade Reports That It Determines To Be Inconsistent With the Prevailing Market Retroactive to September 1, 2008

February 6, 2009.

I. Introduction

On December 19, 2008, The NASDAQ Stock Market LLC ("Nasdaq") filed with

the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² a proposed rule change to adopt a policy relating to its treatment of trade reports that it determines to be inconsistent with the prevailing market and to make such policy retroactive to September 1, 2008. The proposed rule change was published for comment in the **Federal Register** on January 2, 2009.³ The Commission received no comments on the proposal. This order approves the proposed rule change.

II. Description of the Proposal

Trades in listed securities occasionally occur at prices that deviate from prevailing market prices and those trades sometimes establish a high, low or last sale price for a security that does not reflect the true market for the security. Nasdaq seeks to address such instances of "aberrant" trades by adopting a policy that is substantially similar to a policy of the New York Stock Exchange ("NYSE").⁴ On December 19, 2008, Nasdaq also filed a proposed rule change, which it designated as eligible for immediate effectiveness pursuant to Rule 19b-4(f)(6) under the Act,⁵ to adopt a policy relating to Nasdaq's treatment of trade reports that it determines to be inconsistent with the prevailing market.⁶ The policy proposed in the instant rule change is identical to the policy set forth in Release No. 34-59151, except that the instant proposal is retroactive to September 1, 2008.

The Exchange proposes that its policy in this regard shall be to contact the listing exchange (if Nasdaq is not the listing exchange) and other markets (in the case of executions that take place across multiple markets) to determine if any erroneous trade reports were filed. If Nasdaq determines the trade price of a trade through Nasdaq is inconsistent with the prevailing market for the security after considering the factors outlined herein, the Exchange may make the determination to append an indicator (an "Aberrant Report Indicator") to the trade.
