

this administrative review within the original time limit because the Department requires additional time to analyze questionnaire responses, issue supplemental questionnaires, conduct verification, and to evaluate surrogate value submissions for purposes of the preliminary results.

Therefore, the Department is extending the time limit for completion of the preliminary results of this administrative review by 120 days. The preliminary results will now be due no later than June 30, 2009. The final results continue to be due 120 days after the publication of the preliminary results.

We are issuing and publishing this notice in accordance with sections 751(a)(3)(A) and 777(i) of the Act.

Tapered Roller Bearings and Parts Thereof, Finished or Unfinished, from the People's Republic of China: Extension of Time Limit for the Preliminary Results of the 2007-2008 Administrative Review of the Antidumping Duty Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: February 19, 2009.

FOR FURTHER INFORMATION CONTACT: Frances Veith or Brendan Quinn, AD/CVD Operations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230, telephone: (202) 482-4295 or (202) 482-5848, respectively.

SUPPLEMENTARY INFORMATION:

Background

On July 30, 2008, the Department of Commerce ("the Department") initiated the administrative review of the antidumping duty order on tapered roller bearings and parts thereof, finished or unfinished, from the People's Republic of China ("PRC") for the period June 1, 2007 through May 31, 2008. See *Initiation of Antidumping and Countervailing Duty Administrative*

Reviews, Request for Revocation in Part, and Deferral of Administrative Review, 73 FR 44220 (July 30, 2008). The preliminary results are currently due no later than March 2, 2009.

Statutory Time Limits

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), requires the Department to make a preliminary determination in an administrative review within 245 days after the last day of the anniversary month of an order for which a review is requested and a final determination within 120 days after the date on which the preliminary results are published. However, if it is not practicable to complete the review within these time periods, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the preliminary determination to a maximum of 365 days after the last day of the anniversary month.

Extension of Time Limit of Preliminary Results

We determine that it is not practicable to complete the preliminary results of this review within the original time limit because the Department requires additional time to analyze the supplemental questionnaire responses, issue additional supplemental questionnaires if necessary, and evaluate the most appropriate surrogate values on the administrative record to use in this segment of the proceeding. Therefore, the Department is extending the time limit for completion of the preliminary results by 90 days. An extension of 90 days from the current deadline of March 2, 2009, would result in a new deadline of May 31, 2009. However, since May 31, 2009, falls on a Sunday, a non-business day, the preliminary results will now be due no later than June 1, 2009, the next business day. The final results continue to be due 120 days after the publication of the preliminary results.

We are issuing and publishing this notice in accordance with sections 751(a)(3)(A) and 777(i)(1) of the Act.

Dated: February 12, 2009.

John M. Andersen,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Uncovered Innerspring Units from the People's Republic of China: Notice of Antidumping Duty Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: Based on affirmative final determinations by the Department of Commerce ("Department") and the International Trade Commission ("ITC"), the Department is issuing an antidumping duty order on uncovered innerspring units ("innersprings") from the People's Republic of China ("PRC"). On February 11, 2009, the ITC notified the Department of its affirmative determination of material injury to a U.S. industry. See *Uncovered Innerspring Units from China* (Investigation No. 731-TA-1140 (Final), USITC Publication 4061, February 2009).

EFFECTIVE DATE: February 19, 2009.

FOR FURTHER INFORMATION CONTACT: Susan Pulongbarit or Paul Walker, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-4031, or (202) 482-0413, respectively.

SUPPLEMENTARY INFORMATION:

Background

In accordance with sections 735(d) and 777(i)(1) of the Tariff Act of 1930, as amended (the "Act"), on December 29, 2008, the Department published its final determination of sales at less than fair value in the antidumping investigation of innersprings from the PRC. See *Uncovered Innerspring Units From the People's Republic of China: Final Determination of Sales at Less Than Fair Value*, 73 FR 79443 (December 29, 2008).

Scope of the Order

The merchandise subject to this order is uncovered innerspring units composed of a series of individual metal springs joined together in sizes corresponding to the sizes of adult mattresses (e.g., twin, twin long, full, full long, queen, California king, and king) and units used in smaller constructions, such as crib and youth mattresses. All uncovered innerspring units are included in this scope regardless of width and length. Included within this definition are innersprings

typically ranging from 30.5 inches to 76 inches in width and 68 inches to 84 inches in length. Innersprings for crib mattresses typically range from 25 inches to 27 inches in width and 50 inches to 52 inches in length.

Uncovered innerspring units are suitable for use as the innerspring component in the manufacture of innerspring mattresses, including mattresses that incorporate a foam encasement around the innerspring.

Pocketed and non-pocketed innerspring units are included in this definition. Non-pocketed innersprings are typically joined together with helical wire and border rods. Non-pocketed innersprings are included in this definition regardless of whether they have border rods attached to the perimeter of the innerspring. Pocketed innersprings are individual coils covered by a “pocket” or “sock” of a nonwoven synthetic material or woven material and then glued together in a linear fashion.

Uncovered innersprings are classified under subheading 9404.29.9010 and have also been classified under subheadings 9404.10.0000, 7326.20.0070, 7320.20.5010, or 7320.90.5010 of the Harmonized Tariff Schedule of the United States (“HTSUS”). The HTSUS subheadings are provided for convenience and customs purposes only; the written description of the scope of the order is dispositive.

Antidumping Duty Order

On February 11, 2009, in accordance with section 735(d) of the Act, the ITC notified the Department of its final

determination, pursuant to section 735(b)(1)(A)(i) of the Act, that an industry in the United States is materially injured by reason of less-than-fair-value imports of subject merchandise from the PRC. Therefore, in accordance with section 736(a)(1) of the Act, the Department will direct U.S. Customs and Border Protection (“CBP”) to assess, upon further instruction by the Department, antidumping duties equal to the amount by which the normal value of the merchandise exceeds the export price (or constructed export price) of the merchandise for all relevant entries of innersprings from the PRC. These antidumping duties will be assessed on all unliquidated entries of innersprings from the PRC entered, or withdrawn from the warehouse, for consumption on or after August 6, 2008, the date on which the Department published its preliminary determination. *See Uncovered Innerspring Units from the People’s Republic of China: Preliminary Determination of Sales at Less Than Fair Value*, 73 FR 45729 (August 6, 2008).

Section 733(d) of the Act states that instructions issued pursuant to an affirmative preliminary determination may not remain in effect for more than four months except where exporters representing a significant proportion of exports of the subject merchandise request the Department to extend that four-month period to no more than six months. At the request of exporters that account for a significant proportion of innersprings, we extended the four-month period to no more than six months. *See Postponement of Final*

Determination of Antidumping Duty Investigation: Uncovered Innerspring Units from the People’s Republic of China, 73 FR 50932 (August 29, 2008). In this investigation, the six-month period beginning on the date of the publication of the preliminary determination ended on February 2, 2009. Furthermore, section 737 of the Act states that definitive duties are to begin on the date of publication of the ITC’s final injury determination. Therefore, in accordance with section 733(d) of the Act and our practice, we will instruct CBP to terminate the suspension of liquidation and to liquidate, without regard to antidumping duties, unliquidated entries of innersprings from the PRC entered, or withdrawn from warehouse, for consumption on or after February 2, 2009, and before the date of publication of the ITC’s final injury determination in the **Federal Register**. Suspension of liquidation will resume on or after the date of publication of the ITC’s final injury determination in the **Federal Register**.

Effective on the date of publication of the ITC’s final affirmative injury determination in the **Federal Register**, CBP, pursuant to section 735(c)(3) of the Act, will require, at the same time as importers would normally deposit estimated duties on this merchandise, a cash deposit equal to the estimated weighted-average antidumping duty margins as listed below. The “PRC-wide” rate applies to all exporters of subject merchandise not specifically listed. The weighted-average dumping margins are as follows:

Exporter	Producer	Weighted-Average Margin
Anshan Yuhua Industrial Trade Co., Ltd.	Anshan Yuhua Industrial Trade Co., Ltd.	164.75%
East Grace Corporation	Wuxi Xihuisheng Commercial Co., Ltd.	164.75%

SUPPLEMENTARY INFORMATION: The Digital Television Transition and Public Safety Act of 2005 directed NTIA, in consultation with the Department of Homeland Security (DHS), to establish and administer a grant program to assist public safety agencies in the advancement of interoperable communications.¹ The Act authorized NTIA to make payments not to exceed \$1 billion, in the aggregate, through fiscal year 2010 to carry out the PSIC program. The grant program assisted public safety agencies in the acquisition of, deployment of, or training for the use of interoperable communications systems that can utilize reallocated public safety spectrum in the 700 MHz band for radio communication.²

On September 30, 2007, the Public Safety Interoperable Communications (PSIC) Grant Program awarded \$968,385,000 to fund interoperable communications projects from the 56 States and Territories.³ These awards represent the largest single infusion of Federal funding ever provided for State, Territory, and local agencies to implement communications solutions.

NTIA prepared the final PEA and draft FONSI in accordance with the requirements of the National Environmental Policy Act of 1969 (NEPA) and the Council on Environmental Quality (CEQ) regulations for implementing NEPA.⁴
