

conversions from pounds to metric tons, and rounding errors for some metric equivalents. The GHs are intended to serve as benchmark harvest levels for participants in the charter vessel halibut fishery.

This announcement is consistent with 50 CFR 300.65(c)(2), which requires that GHs for IPHC regulatory areas 2C and 3A be specified by NMFS and announced by publication in the **Federal Register** no later than 30 days after receiving information from the IPHC. The IPHC annually establishes the total CEY for halibut in IPHC regulatory areas 2C and 3A. Regulations at § 300.65(c)(1) establish the GHs based on the total CEY that is established annually by the IPHC. The total CEY established by the IPHC for 2009 is 5,570,000 lb (2,526.5 mt) in Area 2C and 28,010,000 lb (12,705.2 mt) in Area 3A. The corresponding GHs are 788,000 lb (357.4 mt) in Area 2C, and 3,650,000 lb (1,655.6 mt) in Area 3A. The GH in Area 2C has been reduced from the 2008 level of 931,000 lb (422.3 mt). The GH for Area 3A did not change.

This is a notice of the GHs in Areas 2C and 3A for 2009 and does not require any regulatory action by NMFS. If a GH is exceeded in 2009, NMFS will notify the North Pacific Fishery Management Council (Council) in writing within 30 days of receipt of that information. The Council has proposed management actions to reduce the harvest of Pacific halibut in the Area 2C guided charter vessel fishery to the GH (73 FR 78276, December 22, 2008). The Secretary of Commerce may issue a final rule after consideration of the 2009 GH and public comments on the proposed rule.

Classification

This notice does not require any additional regulatory action by NMFS and does not impose any additional restrictions on harvests by the charter fishery. If a GH is exceeded in any year, the Council would be notified, but would not be required to take action. This process of notification is intended to provide the Council with information about the level of Pacific halibut harvest by the charter vessel fishery in a given year and could prompt future action.
