

increase can be attributed to two major changes; (1) an increase in the number of responses for the Request for Additional Allowance Report and Domestic Transfer of Allowances/Inter-pollutant Transfer Report and (2) an increase in the number of activities per year for the Petition to Import Used Substances. Data retrieved from the ODS Tracking System and EPA staff confirm the increase in these numbers of reports received by the agency over the last several years.

In addition to reflecting this trend, the numbers for the Request for Additional Allowance Report and Domestic Transfer of Allowances/Inter-pollutant Transfer Report were then adjusted to reflect an anticipated increase in allowance holders (*i.e.*, new entrants into the allowance system), given EPA's soon-to-be released final rulemaking which will assign allowances to HCFC-123, HCFC-124, HCFC-225ca, and HCFC-225cb.

For all other report types, the update to the burden analysis resulted in a decrease in the total hours per year.

Overall, the increase to the number of respondents or number of activities per year for the three aforementioned reports resulted in an overall net increase of 228 hours in total annual respondent burden.

What is the Next Step in the Process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: February 17, 2009.

Brian McLean,

Director, Office of Air and Radiation.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPPT-2008-0220; FRL-8776-1]

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; TSCA Section 5(a)(2) Significant New Use Rules for Existing Chemicals; EPA ICR No. 1188.09, OMB Control No. 2070-0038

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: This is a request to renew an existing approved collection. The ICR, which is abstracted below, describes the nature of the information collection activity and its expected burden and costs.

DATES: Additional comments may be submitted on or before March 26, 2009.

ADDRESSES: Submit your comments, referencing docket ID Number EPA-HQ-OPPT-2008-0220 to (1) EPA online using <http://www.regulations.gov> (our preferred method), by e-mail to oppt.ncic@epa.gov or by mail to: Document Control Office (DCO), Office of Pollution Prevention and Toxics (OPPT), Environmental Protection Agency, Mail Code: 7407T, 1200 Pennsylvania Ave., NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT:

Barbara Cunningham, Director, Environmental Assistance Division, Office of Pollution Prevention and Toxics, Environmental Protection Agency, Mailcode: 7408-M, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: 202-554-1404; e-mail address: TSCA-Hotline@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On June 18, 2008 (73 FR 34725), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under Docket ID No. EPA-HQ-OPPT-2008-0220, which is available for online viewing at <http://www.regulations.gov>, or in person viewing at the OPPT Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Ave., NW., Washington, DC. The EPA/DC Public Reading Room is open from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is 202-566-1744, and the telephone number for the Pollution Prevention and Toxics Docket is 202-566-0280.

Use EPA's electronic docket and comment system at <http://www.regulations.gov> to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in <http://www.regulations.gov> as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in <http://www.regulations.gov>. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute. For further information about the electronic docket, go to <http://www.regulations.gov>.

Title: TSCA Section 5(a)(2) Significant New Use Rules for Existing Chemicals.

ICR Numbers: EPA ICR No. 1188.09, OMB Control No. 2070-0038.

ICR Status: This ICR is currently scheduled to expire on March 31, 2009. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by

publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Section 5 of the Toxic Substances Control Act (TSCA) provides EPA with a regulatory mechanism to monitor and, if necessary, control significant new uses of chemical substances. Section 5 authorizes EPA to determine by rule (a significant new use rule or SNUR), after considering all relevant factors, that a use of a chemical substance represents a significant new use. If EPA determines that a use of a chemical substance is a significant new use, section 5 requires persons to submit a significant new use notice (SNUN) to EPA at least 90 days before they manufacture, import, or process the substance for that use.

EPA uses the information obtained through this collection to evaluate the health and environmental effects of the significant new use. EPA may take regulatory actions under TSCA section 5, 6 or 7 to control the activities for which it has received a notice. These actions include orders to limit or prohibit the manufacture, importation, processing, distribution in commerce, use or disposal of chemical substances. If EPA does not take action, section 5 also requires EPA to publish a **Federal Register** notice explaining the reasons for not taking action.

Responses to the collection of information are mandatory (*see* 40 CFR part 721).

Respondents may claim all or part of a notice confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to be approximately 71 hours per response. Burden means the total time, effort or financial resources expended by persons to generate, maintain, retain or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of

information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Entities potentially affected by this action are companies that manufacture, process, import, or distribute in commerce chemical substances or mixtures.

Frequency of Collection: On occasion.

Estimated Average Number of Responses for Each Respondent: 1.

Estimated No. of Respondents: 20.

Estimated Total Annual Burden on Respondents: 1,423 hours.

Estimated Total Annual Costs: \$9,403.

Changes in Burden Estimates: There is a net increase of 562 hours (from 861 hours to 1,423 hours) in the total estimated respondent burden compared with that currently in the OMB inventory. This increase reflects EPA's updated estimates of an anticipated increase in the number of SNURs promulgated from three to five per year and an increase in the estimated number of SNUNs received from five to ten per year. Additionally, estimated number of chemicals per SNUR is estimated to fall from 41 to 20. All of these changes are adjustments.

Dated: February 18, 2009.

John Moses,

Acting Director, Collection Strategies Division.
