Docket No. RM96-1-029.

Standards for Business Practices for Interstate Natural Gas Pipelines

(Issued February 24, 2009.)

MOELLER, Commissioner, *concurring*:

The American Gas Association (AGA), in its comments, contends that the NAESB process takes too long to complete. Because of that, AGA urges the Commission to review its procedures and relationship with NAESB with the goal of streamlining the process by which business practices standards are developed, approved and incorporated into the Commission's regulations. In particular, AGA identifies delays that have occurred in NAESB's technical implementation as well as in development and publication of standards.

I recognize that some of the delay may be attributable to the Commission's own processes and priorities; however, AGA has identified areas, such as technical development, in which NAESB can improve its procedures. I appreciate the Wholesale Gas Quadrant's current efforts as referenced in the final rule (as well as the dedication of NAESB staff) to improve its procedures, and I urge NAESB and its volunteers to continue its work to find and identify areas in which its processes can become more efficient and timely.

Philip D. Moeller,
Commissioner.

Outer Continental Shelf Air Regulations Consistency Update for North Carolina

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule—consistency update.

SUMMARY: EPA is finalizing the update of the Outer Continental Shelf (OCS) Air Regulations proposed in the **Federal Register** on November 5, 2008. Requirements applying to OCS sources located within 25 miles of states' seaward boundaries must be updated periodically to remain consistent with the requirements of the corresponding onshore area (COA), as mandated by the Clean Air Act ("CAA" or "the Act"). The portion of the OCS air regulations that is being updated pertains to the requirements for OCS sources for which the State of North Carolina has been designated COA. The effect of approving the OCS requirements for the State of North Carolina is to regulate emissions from OCS sources in accordance with the requirements onshore. The change to the existing requirements discussed below will be incorporated by reference into the Code of Federal Regulations (CFR) and is listed in the appendix to the OCS air regulations. This action is an annual update of the North Carolina's OCS Air Regulations. These rules include revisions to existing rules that already apply to OCS sources. No comments were received on the November 5, 2008, proposal.

DATES: Effective Date: This rule is effective on April 2, 2009. The incorporation by reference of certain publications listed in this rule is approved by the Director of the Federal Register as of April 2, 2009.

ADDRESSES: EPA has established docket number EPA-R04-OAR-2008-0681 for this action. All documents in the docket are listed on the <http://www.regulations.gov> Web site. Although listed in the index, some information is not publicly available, i.e., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through <http://www.regulations.gov> or in hard copy at the Air Permits Section, Air Planning

SUPPLEMENTARY INFORMATION:

Throughout this document whenever "we," "us," or "our" is used, we mean EPA. The following outline is provided to aid in locating information in this preamble.

- I. Background and Purpose
- II. EPA Action
- III. Statutory and Executive Order Reviews

I. Background and Purpose

On November 5, 2008, EPA promulgated 40 CFR part 55, which established requirements to control air pollution from OCS sources in order to attain and maintain federal and state ambient air quality standards and to comply with the provisions of part C of title I of the Act. Part 55 applies to all OCS sources offshore of the states except those located in the Gulf of Mexico west of 87.5 degrees longitude. Section 328 of the Act requires that for such sources located within 25 miles of a state's seaward boundary, the requirements shall be the same as would be applicable if the sources were located in the COA. Because the OCS requirements are based on onshore requirements, and onshore requirements may change, section 328(a)(1) of the Act requires that EPA update the OCS requirements as necessary to maintain consistency with onshore requirements.

Section 328(a) of the Act requires that EPA establish requirements to control air pollution from OCS sources located within 25 miles of states' seaward boundaries that are the same as onshore requirements. To comply with this statutory mandate, EPA must incorporate applicable onshore rules into part 55 as they exist onshore. This process is distinct from the State Implementation Plan (SIP) process and

incorporation of a rule into part 55 as part of the OCS consistency update process does not ensure such a rule would be appropriate for inclusion into the SIP. EPA proposed approval of North Carolina's rules for OCS consistency update on November 5, 2008 (73 FR 65804), and received no comments.

II. EPA Action

In this document, EPA takes final action to incorporate the proposed changes into 40 CFR part 55. No changes were made to the proposed action. EPA is approving the proposed action under section 328(a)(1) of the Act. Section 328(a) of the Act requires that EPA establish requirements to control air pollution from OCS sources located within 25 miles of states' seaward boundaries that are the same as onshore requirements. To comply with this statutory mandate, EPA must incorporate applicable onshore rules into part 55 as they exist onshore.

III. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to establish requirements to control air pollution from OCS sources located within 25 miles of States' seaward boundaries that are the same as onshore air control requirements. To comply with this statutory mandate, EPA must incorporate applicable onshore rules into part 55 as they exist onshore. 42 U.S.C. 7627(a)(1); 40 CFR 55.12. Thus, in promulgating OCS consistency updates, EPA's role is to maintain consistency between OCS regulations and the regulations of onshore areas, provided that they meet the criteria of the CAA. Accordingly, this action simply updates the existing OCS requirements to make them consistent with requirements onshore, without the exercise of any policy discretion by EPA. For that reason, this action:

(1) Is not a "significant regulatory action" subject to review by the Office of Management and Budget (OMB) under Executive Order 12866 (58 FR 51735, October 4, 1993);

(2) Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);

(3) Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);

(4) Does not have Federalism implications as specified in Executive

Order 13132 (64 FR 43255, August 10, 1999);

(5) Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

(6) Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

(7) Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and

(8) Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, nor does it impose substantial direct compliance costs on tribal governments, nor preempt tribal law.

Under the provisions of the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*, OMB has approved the information collection requirements contained in 40 CFR part 55 and, by extension, this update to the rules, and has assigned OMB control number 2060-0249. Notice of OMB's approval of EPA Information Collection Request ("ICR") No. 1601.06 was published in the **Federal Register** on March 1, 2006 (71 FR 10499-10500). The approval expires January 31, 2009. As EPA previously indicated (70 FR 65897-65898 (November 1, 2005)), the annual public reporting and recordkeeping burden for collection of information under 40 CFR part 55 is estimated to average 549 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able

to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable. In addition, the table in 40 CFR part 9 of currently approved OMB control numbers for various regulations lists the regulatory citations for the information requirements contained in 40 CFR part 55.

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by May 4, 2009. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

BILLING CODE 6560-50-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

45 CFR Parts 302, 303 and 307

RIN 0970-AC01

State Parent Locator Service; Safeguarding Child Support Information; Proposed Delay of Effective Date

AGENCY: Office of Child Support Enforcement (OCSE), Administration for Children and Families (ACF), Department of Health and Human Services

ACTION: Proposed delay of effective date.

SUMMARY: In accordance with the memorandum of January 20, 2009, from the Assistant to the President and Chief of Staff, entitled "Regulatory Review," published in the **Federal Register** on January 26, 2009, the Department is seeking public comment on a contemplated delay of 60 days in the effective date of the rule entitled "State Parent Locator Service; Safeguarding Child Support Information," published in the **Federal Register** on September 26, 2008 [73 FR 56422]. That rule addresses requirements for State Parent

Locator Service responses to authorized location requests, State IV-D program safeguarding of confidential information, authorized disclosures of this information, and restrictions on the use of confidential data and information for child support purposes with exceptions for certain disclosures permitted by statute. The Department is considering a temporary 60-day delay in effective date to allow Department officials the opportunity for further review and consideration of new regulations, consistent with the Chief of Staff's memorandum of January 20, 2009.

The Department solicits comments specifically on the contemplated delay in effective date.

DATES: Comments must be received on or before March 12, 2009.

ADDRESSES: You may submit comments by any of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

- *Mail:* Interested persons are invited to submit written comments via regular postal mail to: Office of Child Support Enforcement, Administration for Children and Families, 370 L'Enfant Promenade, SW., 4th floor, Washington, DC 20447, Attention: Division of Policy; Mail Stop: ACF/OCSE/DP.

FOR FURTHER INFORMATION CONTACT: Yvette Riddick, Office of Child Support Enforcement, Division of Policy, (202) 401-4885.

Dated: February 26, 2009.

Charles E. Johnson,

Acting Secretary.
