AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice.

SUMMARY: NARA is giving public notice that the agency proposes to request extensions of two currently approved information collections. The first is a survey of Customer Satisfaction at the National Personnel Records Center (Military Personnel Records [MPR] facility) of the National Archives and Records Administration. The second is voluntary survey of museum visitors at each Presidential library. The information provides feedback about our visitors’ experiences at the libraries. The public is invited to comment on the proposed information collection pursuant to the Paperwork Reduction Act of 1995.

DATES: Written comments must be received on or before May 4, 2009 to be assured of consideration.

ADDRESSES: Comments should be sent to: Paperwork Reduction Act Comments (NHP), Room 4400, National Archives and Records Administration, 8601 Adelphi Rd, College Park, MD 20740-6001; faxed to 301-713-7409; or electronically mailed to tamee.fechhelm@nara.gov.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the proposed information collection and supporting statement should be directed to Tamee Fechhelm at telephone number 301-837-1694; fax number 301-713-7409; or tamee.fechhelm@nara.gov.

SUPPLEMENTARY INFORMATION: Pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104-13), NARA invites the

general public and other Federal agencies to comment on proposed information collections. The comments and suggestions should address one or more of the following points: (a) Whether the proposed information collections are necessary for the proper performance of the functions of NARA; (b) the accuracy of NARA's estimate of the burden of the proposed information collections; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways, including the use of information technology, to minimize the burden of the collection of information on respondents; and (e) whether small businesses are affected by these collections. The comments that are submitted will be summarized and included in the NARA request for Office of Management and Budget (OMB) approval. All comments will become a matter of public record. In this notice, NARA is soliciting comments concerning the following information collection:

1. *Title:* National Personnel Records Center (NPRC) Survey of Customer Satisfaction.

OMB Number: 3095-0042.

Agency Form Number: N/A.

Type of Review: Regular.

Affected Public: Federal, State and local government agencies, veterans, and individuals who write the Military Personnel Records (MPR) facility for information from or copies of official military personnel files.

Estimated Number of Respondents: 1,000.

Estimated Time per Response: 10 minutes.

Frequency of Response: On occasion (when respondent writes to MPR requesting information from official military personnel files).

Estimated Total Annual Burden Hours: 167 hours.

Abstract: The information collection is prescribed by EO 12862 issued September 11, 1993, which requires Federal agencies to survey their customers concerning customer service. The general purpose of this data collection is to provide MPR management with an ongoing mechanism for monitoring customer satisfaction. In particular, the purpose of the National Personnel Records Center (NPRC) Survey of Customer Satisfaction is to (1) determine customer satisfaction with MPR's reference service process, (2) identify areas within the reference service process for improvement, and (3) provide MPR management with customer feedback on the effectiveness of BPR initiatives designed to improve customer service as they are

implemented. In addition to supporting the BPR effort, the National Personnel Records Center (NPRC) Survey of Customer Satisfaction helps NARA in responding to performance planning and reporting requirements contained in the Government Performance and Results Act (GPRA).

2. *Title:* Presidential Libraries Museum Visitor Survey.

OMB Number: 3095-0066.

Agency Form Number: N/A.

Type of Review: Regular.

Affected Public: Individuals who visit the museums at the Presidential libraries.

Estimated Number of Respondents: 75,000.

Estimated Time per Response: 15 minutes.

Frequency of Response: On occasion (when an individual visits a Presidential Library).

Estimated Total Annual Burden Hours: 18,750 hours.

Abstract: The survey is comprised of a set of questions designed to allow for a statistical analysis that will ultimately provide actionable information to NARA. The survey includes questions that measure the visitor's satisfaction in general and with specific aspects of their visit. These questions serve as dependent variables for analytical purposes. Other questions provide attitudinal, behavioral, and demographic data that are used to help understand variation in the satisfaction variables. Using statistical analyses, Harris Interactive will determine the factors that drive the visitor's perceptions of quality and satisfaction with the Library they visited. Additionally, natural groupings of visitors defined by similarity based on these attitudinal, behavioral, and demographic variables can be developed and targeted for outreach purposes. The information collected through this effort will inform program activity, operation, and oversight, and will benefit Library and NARA staff and management in making critical decisions about resources allocation, museum operation and program direction.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-438 and 50-439; NRC-2009-0093]

Tennessee Valley Authority; Bellefonte Nuclear Power Plant, Units 1 and 2, Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (NRC) has prepared this Environmental Assessment (EA) associated with a request by the Tennessee Valley Authority (TVA) to reinstate the construction permits (CPs) CPPR-122 and CPPR-123 for the Bellefonte Nuclear Plant (BLN), Units 1 and 2, respectively. Based on information provided in TVA's letters, dated August 26, September 25, and November 24, 2008, and the NRC staff's independent review of references, the NRC staff did not identify any significant impact associated with the reinstatement of the BLN Units 1 and 2 CPs and the return of the facility to a terminated plant status. The NRC staff is documenting its environmental review in this EA.

Environmental Assessment

Plant Site and Environs

BLN Units 1 and 2 are pressurized-water reactor sites that have been partially completed. The units are located on a peninsula between Town Creek and the Tennessee River at River Mile 392 on the west shore of Guntersville Reservoir near Hollywood, Alabama. Most of the 1600 acres of the site have been previously impacted by the near completion of both BLN Units 1 and 2.

Identification of the Proposed Action

TVA requests reinstatement of the CPs for BLN Units 1 and 2. The Atomic Energy Commission (AEC) now, the NRC issued the Final Environmental Statement (FES) in June 1974 for BLN Units 1 and 2. On December 12, 1974, CPs were issued by the NRC. Much of the construction work for BLN Units 1 and 2 was subsequently completed. On April 6, 2006, TVA submitted a request to withdraw the CPs for BLN Units 1 and 2. On September 14, 2006, the NRC staff withdrew the CPs for BLN Units 1 and 2 based on the request. Subsequently, TVA submitted a request on August 26, 2008, as supplemented by letters dated September 25, 2008, and November 24, 2008, to reinstate the CPs for BLN Units 1 and 2.

The Need for the Proposed Action

Reinstatement of the CPs for BLN Units 1 and 2 and the return to a
