

performance questions, safety questions, and trip costs, crew size and other economic questions; (2) questions asked by observer program staff/contractors to plan observer deployments; (3) forms that are completed by observers and that fishing vessel captains are asked to review and sign; (4) questionnaires to evaluate observer performance; and (5) a form to certify that a fisherman is the permit holder when requesting observer data from the observer on the vessel. NMFS has received PRA clearances for the second and fourth types of collections for some observer programs (OMB Control Numbers 0648–0423 and 0648–0202 for deployment questions and 0648–0550 and 0648–0536 for observer evaluations); those burden hours are now included in this national, comprehensive PRA submission.

The information collected will be used to: (1) Monitor catch and bycatch in federally-managed commercial fisheries; (2) understand the population status and trends of fish stocks and protected species, as well as the interactions between them; (3) determine the quantity and distribution of net benefits derived from living marine resources; (4) predict the biological, ecological, and economic impacts of existing management action and proposed management options; and (5) ensure that the observer programs can safely and efficiently collect the information required for the previous four uses. In particular, these biological and economic data collection programs contribute to legally mandated analyses required under the Magnuson-Stevens Fishery Conservation and Management Act (MSA), the Endangered Species Act (ESA), the Marine Mammal Protection Act (MMPA), the National Environmental Policy Act (NEPA), the Regulatory Flexibility Act (RFA), Executive Order 12866 (EO 12866), as well as a variety of state statutes. The confidentiality of the data will be protected as required by law.

II. Method of Collection

The surveys conducted by NMFS observers while they are deployed to a vessel to observe a particular fishing trip will be asked in-person to the captain, crew and/or owner (if onboard the vessel) during the course of the observed trip. Economic information not available during the trip may be requested via a mail follow-up survey. The questions asked by the observer program staff or contractor to plan observer deployments are typically asked via telephone or mailed survey. The feedback questionnaires to evaluate observer performance will be mailed to the vessel owners or captains.

III. Data

National Oceanic and Atmospheric Administration

Availability of Seats for the Monitor National Marine Sanctuary Advisory Council

AGENCY: Office of National Marine Sanctuaries (ONMS), National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

ACTION: Notice and request for applications.

SUMMARY: The ONMS is seeking applications for the following vacant seats on the Monitor National Marine Sanctuary Advisory Council: North Carolina Maritime Museums. Applicants are chosen based upon their particular expertise and experience in relation to the seat for which they are applying; community and professional affiliations; philosophy regarding the protection and management of marine resources; and possibly the length of residence in the area affected by the sanctuary. Applicants who are chosen as members should expect to serve two-year terms, pursuant to the council's Charter.

DATES: Applications are due by May 29, 2009.

ADDRESSES: Application kits may be obtained from Shannon Ricles, 100 Museum Drive, Newport News, VA 23606. Completed applications should be sent to the same address.

FOR FURTHER INFORMATION CONTACT: Shannon Ricles, 100 Museum Drive, Newport News, VA 23606; 757–591–7328; Shannon.ricles@noaa.

SUPPLEMENTARY INFORMATION:

Established in 1975 as the Nation's first marine sanctuary, the Monitor National Marine Sanctuary is managed by NOAA's Office of National Marine Sanctuaries. It is one of 13 sanctuaries and protects the wreck of the famed Civil War ironclad, USS Monitor, best known for its battle with the Confederate ironclad, CSS Virginia in Hampton Roads, Va., on March 9, 1862.

The advisory council consists of 13 members and 3 alternates: 9 non-governmental voting members and 4 governmental voting members. The council seats represent a variety of regional interests and stakeholders, including: Recreational Diving, Heritage Tourism, Education, Maritime Museums, Conservation, the U.S. Navy, Virginia and North Carolina Department of Historic Resources, the National Park Service, Recreational/Commercial Fishing and the public at-large. It is the combined expertise and experience of these individuals that creates an advisory council that is a valuable and effective resource for the sanctuary manager.

The council's objectives are to provide the sanctuary manager with advice on: (1) Protecting natural and cultural resources, and identifying and evaluating emergent or critical issues involving sanctuary use or resources; (2) identifying and realizing the sanctuary's research objectives; (3) identifying and realizing educational opportunities to increase public knowledge and stewardship of the sanctuary

environment; and (4) developing an informed constituency to increase awareness and understanding of the purpose and value of the sanctuary and the National Marine Sanctuary System.

The council may serve as a forum for consultation and deliberation among its members and as a source of advice to the sanctuary manager regarding the management of the Monitor National Marine Sanctuary. The sanctuary advisory council holds open meetings to ensure continued public input on management issues and to increase public awareness and knowledge of the sanctuary environment. Public participation at these meetings is welcomed and encouraged.
